Training Details

(Description of post)

This post is suitable for those who wish to undertake specialist training in orthodontics and will prepare the individual for the Membership in Orthodontics examination of the Royal Colleges. The post offers broad experience in all aspects of orthodontics and provides an exciting opportunity to be involved in providing orthodontic services to the local community. Duties include clinical sessions, and involvement in teaching and mentoring more junior staff. The post holder will be expected to treat a range of patients in accordance with departmental guidelines. The post holder will be encouraged to develop their clinical skills and progress in the post, taking on increasingly complex patients and caseload. Whilst service delivery is important, contributions to the wider Trust/s in fields such as audit, outcomes, research management and teaching will be encouraged.

This StR1-3 post in orthodontics will rotate alternate weeks between the orthodontic departments at the William Harvey Hospital, Ashford, Kent (East Kent University Hospitals NHS Foundation Trust) and Guy's and St Thomas' NHS foundation trust within the Faculty of Dentistry, Oral & Craniofacial Sciences at King's College London. There will be 6 clinic sessions a week, 5 of which are personal treatment under supervision. The remaining session will be on a new patient clinic. The remaining sessions will be for admin/research/audit plus Friday mornings when they will be expected to attend the Greater London Lecture Program. The successful applicant will be expected to manage and organize their own clinics and undertake an audit project. They will receive fully nursing, technical and secretarial support.

Duties and Responsibilities of postholder

Duties of post

- Treatment of patients with a range of malocclusions using a variety of appliance systems to a high standard under the supervision of the Consultant.
- Organisation of and participation in the Consultant clinics and multidisciplinary clinics.
- The appointee is expected to undertake research and the publication of scientific literature is encouraged.
- Participation in the organisation and administration of the department, including contributions to departmental and regional audit, journal club, department meetings.
- Teaching and supervision of postgraduates and undergraduates in both a formal and non-formal capacity.

Description of main training site

East Kent University Hospitals NHS Foundation Trust

The position is based in the Maxillofacial Unit at the William Harvey Hospital, Ashford, Kent. This hospital is located on the outskirts of Ashford 2 miles from the Ashford International Station, with high speed trains running regularly from St Pancras, taking only 38 minutes, and adjacent to the M20, junction 10. The Maxillofacial Unit is a self-contained department with purpose built facilities. It was completed in March 2011 and comprises a reception area, 6 single clinical rooms and a four chair poly clinic. There is a 2 bay recovery area, full radiographic facilities including Cone Beam CT and a state of the art in-house laboratory. The department is moving towards becoming fully digital with access for the trainee to Dolphin Imaging, 3D model and intra-oral scanning.

The successful applicant will work in a busy polyclinic with 2 orthodontic therapists under the supervision of Mr. Andrew DiBiase, Mr Gavin Power and Miss Arti Hindocha, Consultants in Orthodontics. There are monthly multi-disciplinary surgical, restorative and cleft joint clinics with opportunities to attend main theatre operating lists for restorative and orthognathic patients. The department has 5 full time Maxillofacial Consultants as well as a 2 Restorative Consultants.

There are multiple trainees in Maxillofacial Surgery, Restorative Dentistry as well as a post-CCST orthodontic specialist training post linked to the Royal London Dental Hospital. There are weekly tutorials and opportunities for teaching/training. The orthodontic unit has a proven track record of award-winning research with excellent opportunities for collaborative studies.

Description of second training site

King's Health Partners (KHP) comprises King's College London, Guy's and St Thomas' NHS Foundation Trust, King's College Hospital NHS Foundation Trust and South London and Maudsley NHS Foundation Trust and is one of just five accredited UK Academic Health Sciences Centres (AHSCs). Through our AHSC, we are committed to making research and education integral to the delivery of high-quality clinical care. The King's Health Partners Integrated Cancer Centre (ICC) is the vehicle for developing and managing cancer research, clinical services, and training and development across all of the KHP partner organisations.

We provide a full range of hospital services for our local communities, as well as community health services for people living in Lambeth and Southwark. We also provide specialist services for patients from further afield, including cancer, cardiac, kidney, women's and orthopaedic services, and we are home to the Evelina Children's Hospital. We have one of the largest critical care units in the UK and one of the busiest A&E departments in London. See www.guysandstthomas.nhs.uk for further details.

We are part of King's Health Partners Academic Health Sciences Centre (AHSC), a pioneering collaboration between one of the world's leading research-led universities and three of London's most successful NHS Foundation Trusts. Our AHSC is one of only five in the UK and consists of King's College London and Guy's and St Thomas', King's College Hospital and South London and Maudsley NHS Foundation Trusts. Our AHSC brings together the best of basic and translational research, clinical excellence and world-class teaching to deliver groundbreaking advances in physical and mental healthcare. For further information about Kings' Health Partners, Kings College London and our research please see the following links: <http://www.guysandstthomas.nhs.uk/research/research.aspx> and www.biomedicalresearchcentre.org

Guy's Hospital is part of the Guy's & St Thomas' Hospital NHS Foundation Trust, the largest in the NHS. The Department of Orthodontics is situated within the Faculty of Dentistry, Oral & Craniofacial Sciences in a dedicated postgraduate centre on Floor 22 of Guy's Hospital Tower. The main aim of the Department is the education and clinical training of postgraduate dental students, provision of a specialist service in orthodontics and the pursuit of research and scholarship. A specialist service is provided for a wide range of patients, including children with learning difficulty or physical disability and those with inherited anomalies of the jaws and dentition. Referrals are accepted from general dental practitioners, general medical practitioners, paediatricians and other medical and dental specialists.
