

DENTAL CORE TRAINING 2024/25
NHS ENGLAND WT & E – Kent Surrey Sussex
Surrey and Sussex Healthcare NHS Trust
Kent, Surrey and Sussex - DCT2 - Sep - 1

1.	Region (Deanery) Name	Kent, Surrey, Sussex	
2.	Title of post Type of Training & duration of post	<ul style="list-style-type: none"> • DCT2 in General duties: Oral Surgery, Orthodontics, Paediatric Dentistry, Special Care Dentistry • 12 months 	
3.	Training unit/locations	Primary site is East Surrey Hospital, Surrey. Occasional visit to secondary site of Crawley Hospital, West Sussex	
4.	Rotational Post information and Duration	Approximate sessional break up per week (12 month): <ul style="list-style-type: none"> • Oral surgery: 3 sessions per week • Orthodontics: 0.5 sessions per week • Paediatric dentistry: 4 sessions per week • Special care dentistry: 1.5 sessions per week • Admin: 1 session per week 	
5.	Full address of unit/s where training is based	East Surrey Hospital, Canada Ave, Redhill, RH1 5RH Occasional session in Crawley Hospital, W Green Dr, Crawley RH11 7DH	
6.	Travel Commitment	<ul style="list-style-type: none"> • All sessions with exception of below will be at East Surrey Hospital. • 1 session/week in Crawley Hospital 	
7.	Name of Educational Supervisor, if known	Dr. Richard Fitzgerald	
8.	Contact details for Educational Supervisor	rfitzgerald1@nhs.net 01737 231650	
9.	Description of training post	<ul style="list-style-type: none"> • This sought-after DCT post supplies consultant-supported training in a wealth of disciplines: Oral Surgery, Orthodontics, Paediatric Dentistry, and Special Care Dentistry. The DCT will be involved in delivering treatments including surgical extractions and paediatric endodontics; under local anaesthetic, inhalation and intravenous sedation, and general anaesthetic (paediatric and oral surgery). Sedation accreditation is offered and we are an accredited sedation training department. With the support of a small but enthusiastic dental team (consultants, staff grade and community dentists, dental nurses, and admin teams), previous DCTs in this post have not only gained clinical experience in multiple disciplines, but also presented at international conferences, published in peer-reviewed journals, and went on to be successful at applying for speciality training or GDP/CDS posts. 	
10.	Suitable for Temporary Registrant?		NO

DENTAL CORE TRAINING 2024/25
NHS ENGLAND WT & E – Kent, Surrey and Sussex
Queen Victoria Hospital, East Grinstead
Kent, Surrey and Sussex - DCT2 - Sep - 3

1.	Region (Deanery) Name	KSS
2.	Title of post Type of Training & duration of post	<ul style="list-style-type: none"> • DCT 2 in Oral and Maxillofacial Service • 12 Month Post
3.	Training unit/locations	Queen Victoria Hospital, East Grinstead
4.	Rotational Post information and Duration	Work will include supporting and working with Minor Oral Surgery, undertaking Clinics in Orthognathic, Oral Medicine and Head and Neck surgery . You will gain theatre experience across the breadth of elective OMFS as well as experience with on-call and trauma.
5.	Full address of unit/s where training is based	QVH, Holtye Road, East Grinstead, West Sussex. RH19 3DZ.
6.	Travel Commitment	Travel may be required between East Grinstead, Darrent Valley Hospital DarXord, Medway Mariil me Hospital and Eastbourne District General Hospital.
7.	Name of Educational Supervisor, if known	
8.	Contact details	Helen Moore helen.moore6@nhs.net
9.	Description of training post	<ul style="list-style-type: none"> • There are learning opportunities in inpatient & day case theatres, ITU & high dependency unit, wards, outpatients department, minor injuries unit, and specialist clinics, as appropriate. These include Orthognathic and Head & Neck Cancer MDTs as well as acute involvement with Trauma patients. You will have the opportunity to develop your surgical skills in IA and some GA procedures. You will also have the chance to develop a more holistic approach to patient care on the wards & in theatres. Some of your teaching/training will come from appropriately trained Associate Specialists & Staff Grades as well as Consultants and their StR trainees • In addition to the formal opportunities identified through the curriculum, opportunities may also arise in the post to gain experience teaching and supervising, and to participate in audits, research and quality improvement work. • This post will provide exposure within the generality of the specialty of Oral & Maxillofacial Surgery, with particular

DENTAL CORE TRAINING 2024/25

Kent, Surrey and Sussex - DCT2 - Sep - 3

		<p>emphasis on dento-alveolar surgery, Orthognathic surgery, salivary gland surgery, trauma & surgical dermatology.</p> <ul style="list-style-type: none"> • There will be opportunities to attend the Orthognathic MDT clinics with Orthodontists and Surgeons. • Consultant and Specialty Doctor clinics will provide exposure to a range of commonly encountered Oral Medicine and Oral Surgery conditions. These diagnostic and management skills will stand the trainee in good stead for their future career in primary or secondary care. • The trainee will have supervised opportunities to perform minor oral surgery procedures including surgical extraction and mucosal biopsies under local anaesthetic (LA) and in theatre under general anaesthesia (GA), with a view to eventually developing the skills and confidence to undertake their own LA list later in the year. • LA skin lists and elective operating lists (Orthognathic / Head & Neck oncology / Salivary / Trauma) will provide supervised opportunities to perform wound closure. • With the support of supervising senior clinicians on call duties will enable the trainee to develop knowledge and skills in the management of commonly encountered OMFS emergency presentations (lacerations / dento-alveolar trauma / bony trauma / infections). Furthermore on-call duties will provide experience in holistic peri-operative inpatient care, with opportunities to develop skills in venepuncture and cannulation. • All trainees will be encouraged and supported to undertake clinical audit, with opportunities to undertake clinical research and present works at loco-regional and national meetings. • Previous DCTs have been successful in securing Specialty Doctor posts (many in house), Specialty Training posts and medical school posts.
