5.	Full address of unit/s where training is based	As above
6.	Travel Commitment	All activities are based at Queens hospital Travel to Royal London Dental Hospital (Dental Hospital Barts Health NHS Trust) or UCLH (Royal National ENT and Eastman Dental Hospitals : University College London Hospitals NHS Foundation Trust (uclh.nhs.uk) / University College Hospital : University College London Hospitals NHS Foundation Trust (uclh.nhs.uk) for teaching
7.	Name of Educational Supervisor, if known	Miss Elena Pappa Consultant Oral and Maxillofacial surgeon and College Tutor
8.	Contact details for Educational Supervisor	Elena.Pappa@nhs.net
9.	Description of training post	The training post offers a great opportunity for DCTs looking to further develop their skills in OMFS and Oral surgery. We provide a range of OMFS subspecialities including orthognathic surgery, skin cancer, oral surgery, adult and paediatric trauma. DCTs will be expected to partake in workup and delivery of treatment in all of these domains whilst being supervised by seniors. The rota will also feature independent minor ops list for DCTs to refine their oral surgery skills. Dedicated monthly audit meetings will be held where DCTs would be expected to partake in teaching and present work which will be valuable for portfolio applications. Protected audit time (x1 session per week) will be incorporated in DCT rota.

Oral Surgery/OMFS Homerton Hospital

		<p>Both adult and paediatric patients are seen in respective clinics. Current referrals are in the region of approximately 350-400 patients per month with over 80 % of patients seen in clinic requiring surgical treatment. This makes the OMFS departments one of the busiest surgical specialties in Homerton. Plans are being drafted to recruit further clinical manpower to help deal with the increased demands of service.</p> <p>In addition to elective treatment the OMFS department is also called upon for surgical management of compromised airways. Being linked to Bart’s and the London enables us to provide valuable diagnostic service for all head and neck malignancies which include Cervical Lymphomas, Oral Cancers and metastatic disease. Multidisciplinary team clinics and links have been developed in recent years for Neck Lump, Skin Cancer, Cervical Tuberculosis, HIV screening and Smoking cessation.</p> <p><u>Clinical Responsibilities</u></p> <p>The main duties of this post will involve clinical care of those patients attending the Oral & Maxillofacial clinics of the Department. Trainees will be expected to do a mixture of clinical and theatre sessions, treating both male and female patients. The post holder will be required to ensure safety by enacting appropriate correspondence, referrals and clinical discussions regarding their patients.</p> <p>Trainees will be expected to:</p> <ul style="list-style-type: none"> • Participate in clinics and theatre lists LA, IVS and GA. • Assist consultant clinics/theatre activities when required. • Provide care for inpatients. • Cover the daytime bleep for telephone advice/ ward referrals only • Participate in multi-disciplinary meetings • Accurate record keeping and database management in accordance with Information Governance • Complete yearly Mandatory Trust Training. • Carry out Audit, Quality Improvement projects with view to publications. • Attend mandatory Friday morning teaching at Royal London Dental Hospital, Whitechapel
