Directorate:	RNTNEH			
Board/corporate function:	Specialist Hospitals			
Responsible to:	Clinical Lead			
Accountable to:	Clinical Director			
Hours:	10 PA (40 hours per work)			
Location:	Paediatric Dentistry			

## **UNIVERSITY COLLEGE LONDON HOSPITALS NHS FOUNDATION TRUST**

University College London Hospitals NHS Foundation Trust (UCLH), situated in the West End of London, is one of the largest NHS trusts in the United Kingdom and provides first class acute and specialist services both locally and to patients from throughout the UK and abroad.

The new state-of-the-art University College Hospital which opened in 2005, is the focal point of the Trust alongside six cutting-edge specialist hospitals. UCLH was one of the first trusts to gain foundation status.

The Trust has an international reputation and a tradition of innovation. Our excellence in research and development was recognised in December 2006 when it was announced that, in partnership with University College London (UCL), we would be one of the country's five comprehensive biomedical research centres.

The Trust is closely associated with University College London (UCL), a multi-faculty university. The Royal Free & University College Medical School (RFUCMS), which is one of the highest rated medical schools in the country, forms the largest element of the Faculty of Biomedical Sciences (FBS), which was formed on 1st August 2006. FBS comprises the former Faculty of Clinical Sciences, four postgraduate Institutes (Ophthalmology, Neurology, Child Health, Eastman Dental) and the Wolfson Institute for Biomedical Research. This structural change further enhances the exceptionally strong base of research and teaching in Biomedicine at UCL.

Alongside our relationship with the world leading UCL and Royal Free medical school, we enjoy close links with London South Bank and City universities offering the very best in training and education.

## **CLINICAL BOARD**

The Specialist Hospital Board (SCHB) incorporates 6 Specialist Hospitals which include The Elizabeth Garrett Anderson and Obstetric Hospital (EGA), The Heart Hospital, The Hospital for Tropical Diseases (HTD), The National Hospital for Neurology and Neurosurgery (NHNN), The Royal London Homeopathic Hospital and The Royal National Throat, Nose, Ear and Eastman Dental Hospital (RNTNEH) lead by the Medical Director.

The SCHB works closely with the Acute Hospitals Board which incorporates the specialties of Critical Care and Theatres, Outpatient and Imaging, Pathology, Emergency Services, Medicine and Therapies, Surgery, led by their own Medical Director.

## **DIVISION/DIRECTORATE/DEPT/WARD\***

The Eastman Dental Hospital aims to build on its own reputation for high quality patient care and clinical service as well as maintaining high quality education in line with the UCLH Trust objectives. The Directorate will develop into a 'pioneering pathfinder' healthcare institution with clinical quality, education and research at its core underpinned by innovation in all these areas. The aim is to foster and encourage, in line with the global Trust objectives, access to purpose designed specialist services which are integrated closely with those in the community to minimize travelling for patients, at the same time as developing other specialist services such that patients and families can benefit from changes driven as a result of audit, research and investment in the health service.

The Eastman Dental Institute (EDI) is a postgraduate dental school forming part of University College London (UCL), and works closely in the furtherance of its mission with the Eastman Dental Hospital (EDH). EDI's main activities are research and postgraduate education in the field of oral healthcare sciences. The Eastman Dental Institute and the Eastman Dental Hospital are jointly referred to as the Eastman.

The RNTNE Hospital is situated in a new purpose built site on Huntley Street opened in 2019 and interfaces very closely with the main Trust site and the other Specialist Hospitals. A number of joint clinics are undertaken in liaison with the other Directorates to optimise patient care. The Clinical Departments in the Eastman are grouped under 3 Divisions which are Growth and Development, Restorative and Diagnostic Medical & Surgical Sciences. The Divisions are comprised of the following Departments:

**Growth and Development** - Orthodontics, Craniofacial, Orthognathics and Paediatric Dentistry

**Restorative Dentistry** - Prosthodontics, Endodontics, Periodontology, Implantology and DCP training

**Diagnostic Medical & Surgical Sciences** - Oral surgery, Oral medicine, Facial Pain and Special Care Dentistry

The clinical departments cover all aspects of dentistry and medically related fields. In addition to the traditional subjects novel academic units supporting clinical advancements and new areas of training include Biomedical Informatics, Continuing Professional Development and Information Technology.

The Eastman also offers various training programmes several of which are recognised as contributing to specialization. The Hospital also incorporates the Burkhart School of Dental Hygiene and Dental Therapy, the School of Dental Nursing and a Dental Technician Training School, and is dedicated to high quality training for all members of the dental team.

The post holder will be based within the Paediatric Dental Department and will liaise with a wide range of teams both clinical and non clinical under the guidance of the Consultants in the department.

### **WORK AND INTERESTS OF THE DEPARTMENT OF PAEDIATRIC DENTISTRY**

The Department forms part of the Division of Growth and Development. The range of specialty services provided by the department includes:

- Preventive advice and therapy
- Paediatric restorative dentistry
- Pharmacological behaviour management techniques including inhalation sedation, intravenous sedation and general anaesthesia
- Care of medically compromised children and children with disability/learning difficulty
- Management of children with oro-dental trauma
- Management of children with complex dental anomalies
- Management of paediatric oral pathology

### **SOURCE OF PATIENT REFERRALS**

The Department provides advice and treatment for a wide range of patients up to the age of 16 years, referred by general dental practitioners; community dental officers; general medical practitioners; dental specialists, including those in other departments within the Eastman; and a variety of paediatric medical specialties from UCLH and Great Ormond Street Hospital.

### **SPECIALIST SERVICES PROVIDED WITHIN THE DEPARTMENT**

Specialist services in paediatric dentistry are provided at The RNTNE Hospital site under local anaesthesia, inhalation sedation and intravenous sedation as appropriate.

The day-case general anaesthetic facility is located within the main UCLH site on Euston Road. Paediatric dentistry has 9 day-case operating sessions per week for comprehensive dental care and minor oral surgery under general anaesthesia. This includes 2 sessions per week for children with medical disabilities.

Multidisciplinary clinics held within the department include:  
Hypodontia clinic held with our orthodontic and restorative colleagues  
Paediatric Oral Medicine clinic  
Joint Orthodontics and Paediatric Dental clinic.

A weekly dental anomalies clinic is held within the department with a special interest in the diagnosis and management of inherited dental anomalies. The department is a major referral centre for oro-dental trauma, with care being planned and delivered on specialist trauma clinics.

## TRAINING OPPORTUNITIES

The Consultation Clinics at The Eastman Dental Hospital provide the trainee with a diverse group of patients presenting with a wide range of clinical problems. The trainee will gain experience in the assessment and treatment planning of new patients with complex medical problems; behaviour management problems; dento-alveolar trauma; dental anomalies and oral pathology.

The Eastman has 9 GA sessions per week for comprehensive dental care and minor oral surgery. One of the consultants in paediatric dentistry is on the Oral Surgery Specialist list providing experience in the management of more complex surgical cases.

The trainee would be expected to participate in multidisciplinary clinics such as the Hypodontia Clinic, Orthodontic & Paediatric Dental clinics, the Paediatric Oral Medicine clinic and the Dental Anomalies clinic.

The trainee would be expected to participate in Trauma clinics.

UCLH has general paediatric services and is a major centre for adolescent oncology. The paediatric dental department has close links with Great Ormond Street Hospital (GOSH).

The trainee would be expected to undertake audit projects, research, submission of manuscripts for publication and quality improvement projects within their training period. Adequate time is built into the timetable for these activities.

The trainee would be expected to participate in monthly departmental teaching meetings and the monthly departmental Clinical Governance meetings.

The department is supported by a full complement of dental nurses, a play specialist, dental therapists, reception staff and secretaries.

## STAFF OF THE DEPARTMENT

### Consultant and Clinical Lead

Mrs Amanda O'Donnell

### Academic Lead

Professor Paul Ashley                      Consultant in Paediatric Dentistry (f/t)

### Academic staff

Dr Susan Parekh                              Lecturer and Consultant in Paediatric Dentistry (f/t)

### Consultants in Paediatric Dentistry

Ms Adele Johnson                      (f/t)

Mrs Prabhleen Anand                      (p/t)

Mrs Isabelle Holroyd                      (p/t)

Miss Ursula Devalia                      (p/t)

Ms Alexandra Lynne                      (f/t)

Miss Suzanne Dunkley (p/t)

### Specialty Dentists in Paediatric Dentistry

Mrs Haydee Hussein (f/t)

Ms Tanya Malkiel (p/t)

**Junior Hospital Staff**

K Horisk (pre CCST)  
D Drysdale (pre CCST)  
A Ahmad (pre CCST ACF)  
DCT1 (f/t)  
DCT2 (f/t)

**Postgraduates (UCL)**

10 postgraduates undertaking the three year DDent in Paediatric Dentistry.

**Other professionals**

K Paxton - Play Specialist

**General Manager**

Mr S Holder  
Ms M Campisova – Assistant General Manager

**Admin and Clerical Staff:**

Secretarial support is provided to all staff and the department is supported by a service delivery manager and a team of reception staff.

All staff have access to IT facilities.

The Paediatric Dentistry Department is supported by the Trust's Electronic Patient Record EPIC

**GREAT ORMOND STREET HOSPITAL FOR CHILDREN NHS FOUNDATION TRUST**

Great Ormond Street Hospital for Children NHS Foundation Trust (GOSH) is a national centre of excellence in the provision of specialist children's health care, currently delivering the widest range of specialist care of any children's hospital in the UK. It aspires to offer outcomes for children in the top five in the world. the largest centre in the UK for children with heart or brain problems, and, with UCLH it is the largest centre in Europe for children with cancer. It is the only specialist Biomedical Research Centre for paediatrics, it works in partnership with the UCL Institute of Child Health (ICH), part of University College London, and together they form the largest paediatric research and teaching centre in the UK, and one of the largest in the world.

The hospital at Great Ormond Street is the only exclusively specialist children's hospital in the UK. It does not have an Accident and Emergency department and largely only accepts specialist referrals from other hospitals and community services. The population of children served by the hospital is characterised by those with multiple disabilities and/or health problems and rare and congenital (present at birth) conditions. Many children need the help of different specialist teams. Improvements in health care and diagnosis mean that many children have dramatically improved survival rates and more therapeutic options than was the case 10 years ago. Sadly though, many of the children cared for at GOSH still have life-threatening or life-limiting conditions.

We have well over 192 828 admissions or outpatient appointments a year. Over 90 per cent of these are specialist services. This includes clinics we run around the country with our specialists going out to help local services.

We have around 3,729 full time and part time hospital staff. The ICH has around 470 staff. Many senior staff have roles in both organisations.

We have 318 open beds for all our services. 32 of these are intensive care beds

63 per cent of our specialist inpatients would count as intensive care or high dependency patients in another hospital, showing what heavy levels of nursing they require.

The hospital website lists 55 clinical, diagnostic and support services.

The Trust employs a total of 2,600 staff.

The Interim Chief Executive is Mr Matthew Shaw.

The Chief of Service for Sight and Sound Directorate is Dr Elizabeth Jackson and the General Manager is Ms Daniella Soar.

## **THE MAXILLOFACIAL AND DENTAL DEPARTMENT**

### **3.1 Aims and Objectives**

The Maxillofacial and Dental department at Great Ormond Street Hospital lies within the Clinical Unit of Surgery. The department provides maxillofacial surgery, orthodontic services, paediatric and restorative dentistry within the Trust. Over 5000 patients are seen annually as outpatients within the department. The inpatient workload is just under 300 episodes.

The department has 3 operating lists per week shared between the specialties. A bid is in place to increase this to 4 sessions due to 18 week pathway pressures on Paediatric Dentistry. Beds are allocated on Nightingale ward. There are also beds available on several other wards.

### **3.2 Present Staffing:**

Mr Simon Critchlow	Specialty Lead and Consultant in Restorative Dentistry
Miss Gehan Abou-Ameira	Consultant in Paediatric Dentistry (p/t)
Miss Kathy Harley	Consultant in Paediatric Dentistry (p/t)
Mr Norman Hay	Consultant Orthodontist (f/t)
Mr Brijesh Patel	Consultant Orthodontist (p/t)
Mr Suhaym Mubeen	Consultant Orthodontist (p/t)
Mr Daljit Gill	Consultant Orthodontist (p/t)
Ms Pryia Haria	Consultant Orthodontist (p/t)
Miss Caroline Mills	Oral & Maxillofacial Surgeon (p/t)
Mr Nadeem Saed	Oral & Maxillofacial Surgeon (p/t)

#### **Junior Staff:**

1 F/T SHO (CDP) Paediatric Dentistry  
1 F/T Speciality Doctor Paediatric Dentistry  
0.8 StR Maxillofacial Surgery- linked with UCLH  
1F/T Trust doctor Maxillofacial Surgery  
0.4 StR FTTA Orthodontics- linked with Barts and the London  
0.5 StR FTTA Orthodontics -linked with Barts and the London  
0.4 SHO (DF2) Maxillofacial Surgery-linked with UCLH

#### **Admin and Clerical Staff:**

3 part-time technicians in a well-equipped laboratory  
2 part-time dental hygienists  
6 dental nurses  
2 receptionists  
2 Full-time secretaries  
1 Full- time GA co-ordinator  
1 Full-time office manager
