1630 – 1700hrs: Kahoot quiz and Questions

The frailty journey is a lecture series put together by clinicians across Geriatric Medicine and Palliative Care Medicine at Barnet hospital aimed at clinicians on recognising frailty, managing complex comorbidity in older persons, delirium, rehabilitation, polypharmacy, appropriate prescribing and deprescribing, recognising dying in advanced frailty, advanced care planning and end of life care. It follows a fictional patient Mrs B from the start of her frailty journey to the end of life using a Jenga to illustrate her increasing frailty. After each talk, the speakers remove blocks from the Jenga to visually illustrate Mrs B's increasing frailty. Join us on the 14th of October 2020 and the 18th of November 2020
