## City and Hackney GP Training Programme

### Welcome to City and Hackney!

You will work in a fabulous, culturally diverse area of East London. Our exciting, vibrant and dynamic communities make City and Hackney a rewarding and exhilarating place in which to work and live. We are close to all that Central London can offer. If you have ever visited Ridley Road, Broadway or Columbia Road markets you'll know how gorgeous Hackney is.

We know that if you are educated as a GP in City and Hackney you can be a GP anywhere in the world, as you will develop skills and experiences that are second to none in their variety and complexity. At the end of your three years with us you will know how valuable your role has been and how much you have contributed to our communities. Very many of our graduates stay in East London and put down roots within our supportive GP confederation forever.

A recent survey of our current learners (2016) revealed the majority think the "Best things about being a GP are..."

1. Continuity of care and relationships with patients
2. Flexibility
3. Variety

We can promise you an emphasis on all three here in City and Hackney!

It is hugely important for GP learners to develop supportive peer and mentor relationships that sustain them through Training and beyond. We ensure this is possible with regular social events, Balint groups and our fabulous annual residential. We are very lucky to have an extremely committed and enthusiastic group of GP Trainers who will support you in your Practice placements.

If you have any questions, please get in touch! We can also connect you with current learners on our scheme who can share their support and experiences.

In short, come to City and Hackney. You will have a wonderful, fulfilling time and we would love to work with you.
