<p>2022 have not yet been appointed.</p>	
<p>Local Allocation Process</p>	<p>You will preference the rotation and will be allocated to rotations based on your national ranking.</p> <p>All successful trainees will be sent a link, after recruitment has been completed, which will contain a rotation profile. This will take place early July. The trainee will then rank all of the rotations and will be advised of their allocated rotation on week commencing 11 July.</p>
<p>Overview</p>	<p>This is a 24-month dental foundation longitudinal scheme with 8-month rotations in hospital, primary care practice and community settings. A range of sites across a wide geographic area across Surrey and Sussex. Ability to travel and a keen interest in gaining experience in community, hospital and practice is essential.</p> <p>The rotations will vary for each foundation dentist. 2 Foundation dentists will commence their post in a community setting, 2 will commence their post in a hospital setting and 2 will commence their post in practice setting. Allocation on order of rotations will depend on national recruitment ranking and will be ascertained during local preferencing.</p> <p>The hospital rotation will be at Royal Surrey Hospital and the community setting will be with the provider across two sites in Haywards Heath and Brighton. To ensure maximum exposure during the community placement, travel between Haywards Heath and Brighton will be essential (Community sites are Crawley Special Care Dental Centre, Crawley Hospital, Ground Floor Yellow Wing, West Green Drive, Crawley, West Sussex and The School Clinic, Morley Street, Brighton, East Sussex).</p> <p>All foundation trainees will have access to state-of-the-art simulation facilities across London & Kent, Surrey and Sussex including phantom head skills labs and simulation suite for training in medical emergency & crisis resource management. HEE London & KSS runs a comprehensive induction for all FDs which includes the opportunity to refresh hands on skills in the simulation facilities, before starting clinical work at the start of the training year. Most study days will be practical based.</p>

All FDs will be involved in a range of community-based preventive projects as well as evidence-based projects.

Note: HEE London & KSS operate a stringent policy on annual leave. Annual leave is not permitted during term times and attendance on all study days is compulsory. All foundation dentists must also attend the full study programme and work full-time in practice including working on non-study days at the practice.

Please do not apply to this region if you are unable to commit in full to our policies.

Foundation dentists are paid according to the nationally agreed salary in each of the three UK countries involved in this nationally coordinated recruitment process:

- For England and Wales the exact figure appears in the Statements of Financial Entitlement published periodically by the Departments of Health for England and Wales. For Northern Ireland this is published in the Statement of Dental Remuneration (SDR).
- Please note that the figure published and applicable at the date of application may not be the same as that in force at the time of starting in post.
