<b>Overview</b>	The general dental practices of this scheme are geographically placed all over Devon. Closer to Exeter but not too far away from Plymouth; two vibrant and diverse University cities. Both cities have so much			

to offer from unique shops, bars, restaurants, cathedrals, architecture, surfing, sailing, concert venues, sporting venues, as well as being on the doorstep to idyllic countryside; Dartmoor and the superb north and south Devon coast lines.

Life in the South West is conducive to a positive work-life balance.

You are encouraged to visit the area so you can appreciate all that this part of the South West has to offer.

The Educational Supervisors on the Devon & Coastal scheme have a wealth of experience and welcome and support new graduates into general practice.

Study days are in the main are based in Exeter, either in a hotel setting or at the Dental Education Facility (DEF) and similarly when in Plymouth. Study days are both theory based and hands on. For practical reasons, some sessions are shared with other nearby schemes and travel to Plymouth or Taunton is an expectation.

Travel for study days are reimbursed. Travel to and from your practice is not. It is advantageous that you have use of a car to travel across the county.

Foundation dentists are paid according to the nationally agreed salary in each of the three UK countries involved in this nationally coordinated recruitment process:

- For England and Wales the exact figure appears in the Statements of Financial Entitlement published periodically by the Departments of Health for England and Wales. For Northern Ireland this is published in the Statement of Dental Remuneration (SDR).
- Please note that the figure published and applicable at the date of application may not be the same as that in force at the time of starting in post.
