

Healthcare Education Team (HET) London & KSS

The Healthcare Education Team (HET) manage the recruitment, training and assessment of doctors and dentists in training on behalf of the London and KSS postgraduate deans.

The team works closely with clinical colleagues, including heads of school and training programme directors. Our main stakeholders based in trusts are directors of medical education, medical education and medical staffing managers.

Our [PGMDE support portal](#) provides access to a large number of FAQs and signposts to relevant processes/guidance documents. The portal will also allow you to submit queries to the team.

A list of team members, including contact details, is below.
