### F1 Surgery (Breast/Urology)

<b>Trust</b>	Homerton University Hospital
<b>Site</b>	Homerton Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	
<b>Placement details</b> (i.e. the specialty and sub-specialty)	F1 Surgery (Breast/Urology)
<b>Department</b>	The post involves working for 2 different teams, the Breast team and the Urology with the majority of the workload being with the latter. Thus, there are a wide range of operations performed. The FY1 is usually attached to Emergency General Surgery (EGS), 3- 4 times per placement, where they do ward round with the consultant and manage the inpatient acute care. The department is very friendly and proactive about teaching and service improvement, there are lots of opportunities for audit.
<b>Type of work to expect and learning opportunities</b>	As you cover two teams and EGS the range of patient conditions at any one time can be quite diverse. There is the opportunity to practice practical procedures in urology whilst being able to gain more general clinical experience under the breast/endocrine & EGS team. This post enables one to develop skills such as time management, organization, and communication skills as one must juggle two teams simultaneously.
<b>Where the placement is based</b>	Homerton Hospital, Priestley Ward, Thomas Audley Ward, and Day Stay Unit
<b>Clinical supervisor(s) for the placement</b>	Miss Jhumur Pati
<b>Main duties of the placement</b>	The F1 doctor is responsible with other staff for the ward care of patients and the maintenance of the patient's medical record. They are responsible for ensuring patients are adequately prepared for theatre. The FY1 attends the monthly morbidity & mortality meeting and presents the cases. They are expected to attend the structured teaching programs provided by the department. The doctor will be responsible for such other specific clinical duties as allocated by consultants including performing other duties in occasional emergencies and unforeseen circumstances.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	Mon-Friday 8.00am- 5:00pm Urology and EGS daily ward rounds Variety of theatre lists, cystoscopy, TP biopsy lists. Daily surgical ward MDT meeting Weekend handover meeting on Fridays Weekend EGS on-call – daily ward

<b>Placement details</b> (i.e. the specialty and sub-specialty)	F2 General Practice
<b>Department</b>	GP surgery in Northeast London with practice managers, reception staff, secretaries, doctors and practice nurses.
<b>Type of work to expect and learning opportunities</b>	Daily clinics clerking and examining patients, home visits, frequent discussion with supervisors. Excellent way to increase general medical knowledge in a range of different specialties.
<b>Where the placement is based</b>	A GP surgery in community.
<b>Clinical supervisor(s) for the placement</b>	The principal GP consultant of your GP surgery.
<b>Main duties of the placement</b>	Daily clinics morning and afternoon, lunchtime meetings and presentations.
<b>Typical working pattern in this placement</b> (e.g., ward rounds, clinics, theatre sessions)	Monday to Friday only, 9-5, one morning of teaching per week.
<b>Local education provider (LEP) / employer information</b>	<p>The employer for this post is Homerton University Hospital NHS Foundation Trust. Homerton provides acute and community services for Hackney, the City and the surrounding communities and a bespoke range of specialist services for a wider population. The Trust main site is Homerton Hospital. On 1 April 2011, community health services serving Hackney and the City (CHS) transferred to the management of Homerton. This was a hugely important development for the Trust, which is now the major provider of both hospital and community services for the people of Hackney, allowing the delivery of real benefits to patients, the community and the Trust. With the integration of community services, the Trust now operates from numerous sites across Hackney, along with a small number in the City.</p> <p>In addition, we continue to provide a range of specialist services for communities extending well</p>

	beyond our immediate locality. Our role in training the next generation of healthcare professionals remains vital, as is the part we play in healthcare research.

Formatted Table

	<p>available</p> <p>Postnatal/Tempplar ward – reviewing the unwell, escalating acutely unwell – discharging the well and organizing ongoing medication and follow up if appropriate. SHOs are expected to do a ward round and complete all the jobs. If anything is outstanding, they can handover to the Obs SHO and can escalate to the Gynae Reg</p> <p>Delivery suite – assisting the registrar, reviewing the acutely unwell patient. Reading CTGs (not expected to interpret them clinically), prescribing medications, chasing and interpreting bloods</p> <p>Theatre – assisting in C-sections, laparoscopic surgery, holding USS for ERPCs. However also bleeding patients pre surgery, reviewing them afterwards and doing a discharge summary/ensuring they are handed over</p> <p>On call – all of the above (apart from clinic duties)</p> <p>Nights – carry obs &amp; gynae bleeps, clerking to crash call on delivery suite. Also staffed by 2 regs – 1 for Obs and 1 gynae</p> <p>Filling in consent forms for CS – therefore have to be able to explain the procedure, risks and alternatives if appropriate.</p>
<b>Where the placement is based</b>	HOMERTON UNIVERSITY HOSPITAL And all the areas mentioned above.
<b>Clinical supervisor(s) for the placement</b>	Consultant based.
<b>Main duties of the placement</b>	<p><u>As Gynae on call</u> Clerking patients in A&amp;E and in EPAU – discuss with Registrar re: admission and start acute management. Assisting in theatre is common. Particularly laparoscopic procedures or hold the USS probe in ERCPs.</p> <p><u>As Obs on call</u> You will be expected to go on the labour ward, ward round documenting on K2 computer system. You will be expected to respond to obstetric emergencies such as MOH, shoulder dystocia, but would not be expected to manage these.</p> <p><u>Post Natal/Tempplar Ward SHO</u> Completing a ward round and managing the post-natal patients.</p>

	<p><u>Theatre</u> – very enjoyable and variable experience, good learning opportunity and will gain skills in suturing. Often requires an earlier start than normal.</p> <p><u>Clinics</u> – all very good for learning best practice, seeing interesting patients and practicing clinical examination skills.</p>
<p><b>Typical working pattern in this placement</b> (e.g., ward rounds, clinics, theatre sessions)</p>	<p><u>Typical working week</u> 0800-1700 typical working day. (may leave a little later if you need to dictate your letters or earlier to go to a main theatre list). But there is a good handover system at 0800 and 2000</p> <p>0800-2030 = on-call day; 2000-0830 = on call night shift</p> <p>Nights are broken up, there is a week off after your 3 nights. Then you do 4 nights in a row and get a week off with the option to take your annual leave off immediately after also.</p> <p>There is a 'rolling rota' which is emailed to all staff by the responsible registrar so that you are able to choose your slot and know in advance of when you are expected to do weekends/on call/nights.</p> <p>Weekends consist of either obs on call, gynae on call, night SHO or Templar SHO. Templar weekends only consist of 8-1 shifts.</p> <p><u>Teaching and learning</u> Teaching every Friday 0800 – where 1-2 registrars do a case presentation. Every Wednesday 1300 Neonatal morbidity and mortality meeting where the SHO is expected to present a case (notes + templates are provided to the neonatal team and obstetric team.</p> <p>The department also has its own induction booklet which goes into a lot of detail into the points mentioned in the post information.</p>
<p><b>Local education provider (LEP) / employer information</b></p>	<p>The employer for this post is Homerton University Hospital NHS Foundation Trust. <b>Trust</b>	Homerton University Hospital
<b>Site</b>	Homerton Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	
<b>Placement details</b> (i.e. the specialty and sub-specialty)	F2 Community Child and Adolescent Psychiatry
<b>Department</b>	<p>The majority of the placement is spent at the Child and Young People's Centre on Homerton Row.</p> <p>The department is made of up 5 teams – Neurodevelopmental team (NDT), adolescent mental health team <b>(AMHT)</b>, paediatric liaison team (PLT), emotional and behavioral team <b>(E+B)</b> and behavior support and outreach <b>(BSO)</b> and the fy2 is involved in 3 in bold.</p> <p>There are 5 consultants based at HR. There are 2 registrars, 2 Psychiatry trainees and one F2 position.</p> <p>The majority of the staff in the department are a mixture of doctors, therapists and mental health nurses. Clinical support staff also work on site.</p> <p>The F2 job is positioned across all the teams. The F2 will join in assessment clinics with consultants 3 days a week. These assessments can be for a range of presentations including ADHD, autism, anxiety, depression, psychosis, self-harm, medically unexplained symptoms and behavioral difficulties. As the F2 progresses they will gain more independence during these clinics. As part of the Adolescent Mental Health Team (AMHT), working with more acutely ill patients in the community, the F2 will attend team meetings and get to know these patients well and become involved in their case discussions and formulations.</p> <p>The F2 will be responsible for conducting medication reviews, commonly sertraline, fluoxetine and melatonin. When relevant F2s will also be asked to do basic observations on patients.</p>
<b>Type of work to expect and learning opportunities</b>	The working hours are 9-5 Monday-Friday with not out of hours on calls or weekends.

Formatted: Font: Bold

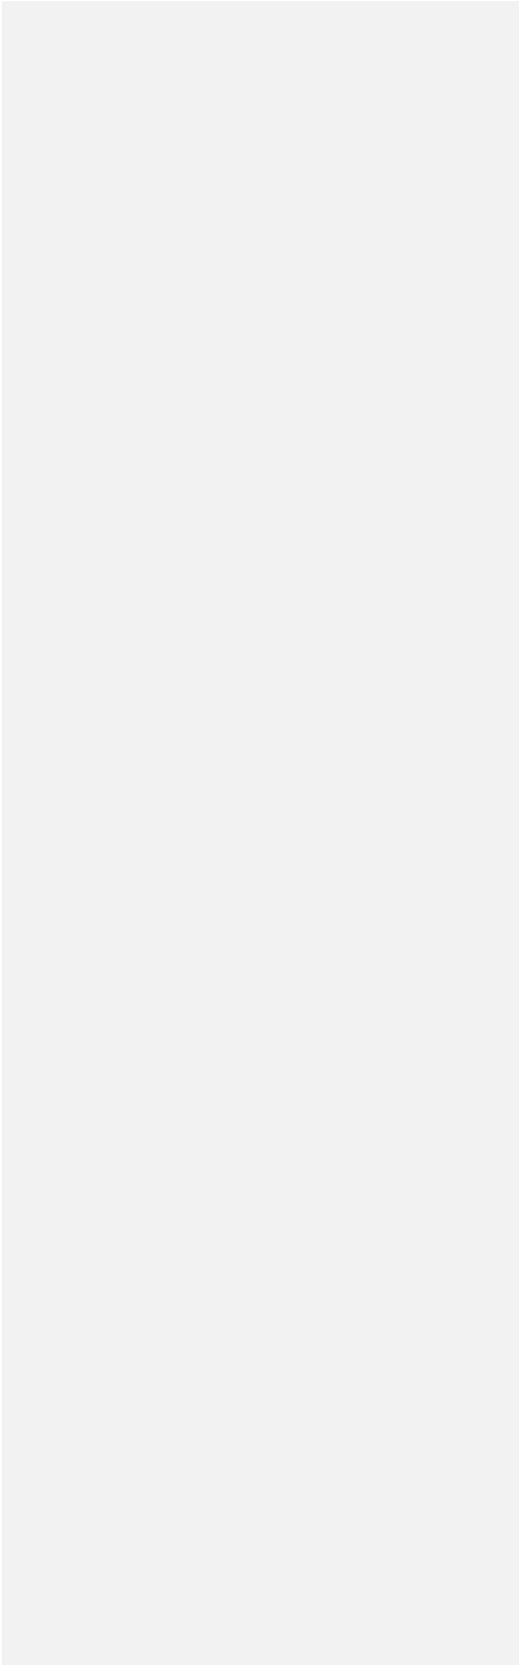

Formatted: Font: Bold

Formatted: Font: Bold

Formatted Table

	<p>The working week typically looks like:</p> <p>Monday morning – PLT (paediatric liaison team) assessment clinic in paediatric outpatient clinic at Homerton main hospital. Assessment clinics involve documenting the meeting between new patients and the assessment clinician – typically the consultant. You will then be expected to record this on the online system (Rio) and write a letter to the patient/GP. You occasionally may be then asked to action any tasks this generates, for example, referring to another services or gaining more information from the school. On the afternoon following an assessment you will attend the MDT meeting during which each assessment is briefly presented, with the proposed plan, which allows other professionals to provide their advice or thoughts on the case. This happens on Mondays, Thursdays and Fridays.</p> <p>Tuesday – AMHT team meeting in the morning.</p> <p>Wednesday – Team meeting in the morning: either E&amp;B or BSO (teams alternate each week). In the afternoon there is local teaching for the rest of the afternoon which is not mandatory but the F2 is generally able to attend. Once a month this is at Barts Hospital</p> <p>Thursday – No meetings/commitments in the morning. It is useful to schedule medical reviews on this day. Alternating Thursdays- assessment clinic in the afternoon follow by MDT discussion.</p> <p>Friday – Assessment clinic in the morning, followed by MDT discussion in the afternoon.</p> <p>Working with mainly 3 different consultants from different teams means you get exposure to each team. The rest of the unallocated time you will organize your own medication reviews and complete care plans.</p> <p>You will sometimes be doctor on duty which means you will assist with responding to urgent tasks that require a doctor such as prescriptions or assessing a new presentation to the Emergency Department.</p>
<b>Where the placement is based</b>	<p>Child and Young People’s Centre, 15 Homerton Row, Clapton, London E9 6EZ</p> <p>Homerton university hospital</p>
<b>Clinical supervisor(s) for the placement</b>	<p>Consultant based. The current supervisor is Dr Kirsten Mitchell.</p> <p>Starting in April 2024, the supervisor for the placement will be Dr Mamas Pipis.</p>
<b>Main duties of the placement</b>	<p>A large part of the role is documentation. This is during assessments with the consultants. You will learn during this how to assess young people with mental health presentations, how to communicate with the YP and their parents, how to risk assess. You will then begin to do this independently and play an active role in the sessions. You also have to be organized and self-motivated to plan around the set clinic times and book reviews into your</p>

	week. You will review medications and write prescriptions.

<b>Trust</b>	Homerton University Hospital
<b>Site</b>	Homerton Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	
<b>Placement details</b> (i.e. the specialty and sub-specialty)	F2 Stroke Unit
<b>Department</b>	<p>An acute stroke department taking patients who have recently had a stroke but are outside of the hyper-acute phase. There are 3 consultants, 2 of whom are on the ward at any point. There are 2 -3 SHOs regularly on the ward, and a registrar who spends one and a half days a week on the ward.</p> <p>The main objectives of the unit are to arrange stroke investigations and interventions and to rehabilitate patients after their strokes. Occasionally some geriatric inpatients or neurology rehabilitation patients are admitted to the ward. There are a large number of physiotherapists, occupational therapists, speech and language therapists, dieticians and other therapists with whom the medical team work closely.</p>
<b>Type of work to expect and learning opportunities</b>	<p>The job involves seeing the patients daily, generally on your own. There is a consultant ward round 2/3 times a week and a detailed MDT meeting to discuss patient progress. There is a daily morning board round with consultants and the therapy team. Consultants see new and unwell patients daily.</p> <p>There is good opportunity to work with and learn from the different therapists. The patients are mostly stroke patients but many have multiple comorbidities so you will see a range of different illnesses/problems. There are daily consultant-led TIA and stroke follow-up clinics that you are encouraged to attend.</p> <p>The placement also involves a 5 week on call block in the acute care unit with long shifts including night and weekends. Work involves clerking new admissions, post-take and day 2 wards rounds, and ward cover out of hours.</p>
<b>Where the placement is based</b>	Graham stroke unit, Homerton
<b>Clinical supervisor(s) for the placement</b>	Dr Lehmann
<b>Main duties of the placement</b>	See the patients (alone or as described above) and arrange tests and any procedures/ interventions.

	Ensure documentation on ward rounds etc. Do bloods, cannulas, discharge summaries.
<b>Typical working pattern in this placement</b> (e.g., ward rounds, clinics, theatre sessions)	9-5 in theory but if it's a busy day or if you are covering colleagues (as happens often due to acute blocks/ annual leave etc.) you can stay occasionally later than this. Then you do an acute medicine block within the rotation which is a typical on call rota with lots of long days and nights.

<b>Site</b>	Homerton Hospital
<b>Trainee Information System (TIS) Post Code (and local post number if known)</b>	
<b>Placement details (i.e., the specialty and sub-specialty)</b>	F2 General Surgery (Bariatrics, including Emergency General Surgery (EGS))
<b>Department</b>	<p>Consultants: 14, of which 7 are bariatric            Post-CCT bariatric fellow: 1 (not on on-call rota)            SAS general surgery: 4 (not on on-call rota)            SpRs: 4, of which 2 are bariatric            Senior clinical fellows: 8, of which 2 are bariatric. A further 2 in breast do not take part in the on-call rota            CTs: 2            Junior clinical fellows: 3            F1s: 4</p>

<p><b>Type of work to expect and learning opportunities</b></p>	<p><u>Bariatrics:</u>  Managing ward patients under senior supervision and an opportunity to attend theatres to assist in general surgery and bariatric operations.  There may be the opportunity to sit in bariatric clinics.  The scope of working in bariatrics is multidisciplinary and you will learn to work in an extended team.</p> <p><u>EGS:</u>  Be part of the SHO on-call rota for general surgery involving taking referrals from ED and GPs, clerking patients, discussing diagnoses with registrars and starting management. There will be the opportunity to assist in emergency operations and learn to perform minor emergency surgery.  There are no nights.  You will be able to manage and support junior members of the team, prescribe safely and communicate effectively with patients and their relatives as well as other specialties where necessary.</p> <p><u>Education:</u>  There are weekly education and monthly governance meetings with a chance to undertake and present audits in both general surgery and bariatrics. Other projects, including QI, can be registered. There will be opportunities to attend BSS and other courses, with funding as appropriate. Assessments will take place and a surgical tutor will be assigned.</p>
---	--

<b>Where the placement is based</b>	Homerton University Hospital
<b>Clinical supervisor(s) for the placement</b>	The two clinical supervisors are: Miss Mok (Bariatric Lead) Miss Aguilo (EGS Lead)
<b>Main duties of the placement</b>	<p><u>As EGS:</u> Taking referrals from ED and GPs, clerking patients and discussing differential diagnoses and instigating management with the registrar on-call including requesting investigations and starting emergency treatment. Learning basic minor emergency operations such as incision and drainage of abscesses and assisting in other emergency open or laparoscopic procedures.</p> <p><u>Bariatrics:</u> You will be able to take part in post-take ward rounds and manage patients on the ward under senior supervision. There will be the opportunity to assist in general surgery operations (hernia repairs, laparoscopic cholecystectomies etc.) and in bariatric operations (laparoscopic sleeve gastrectomies and gastric bypasses). With senior support, you may also manage patients referred with bariatric emergencies.</p>

--	--

<b>Typical working pattern in this placement (e.g., ward rounds, clinics, theatre sessions)</b>	<p><u>Bariatrics:</u> A typical day is from 8am to 5pm with handover of any patients to the twilight F1 or EGS SHO or registrar as appropriate. A ward round will take place daily with senior support from the bariatric fellow, registrars or consultants. You may be assigned to a particular operating list and there will be the opportunity to be supernumerary in a bariatric clinic.</p> <p><u>EGS:</u> The EGS rolling rota is split-week pattern of working 8am to 8.30pm Monday to Thursday, or Friday to Sunday. There are no nights. You will be working in a full team with F1, registrar and consultant.</p>
