**Foundation Programme  
Individual Placement Descriptor\***

<b>Trust</b>	Barts Health NHS Trust
<b>Site</b>	Royal London Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	
<b>Placement details</b> (i.e. the specialty and sub-specialty)	<b>F1 Metabolic Medicine (Royal London Hospital)</b>
<b>Department</b>	The Metabolic firm is a medical firm based at the Royal London Hospital. We take all diabetes and endocrine admissions triaged daily, plus general medical patients on wards 11C, 4E and 4F (ITU/HDU). We have two FY1s, one CMT, one clinical fellow and five specialist registrars, one of whom is always designated to the ward, so senior cover is always excellent.
<b>Type of work to expect and learning opportunities</b>	<p>The post is predominantly ward based, on ward 11C, which is a metabolic/general medical/haematology ward. You will see patients with diabetes, endocrine, general medical and haematological (predominantly sickle cell) problems. The ward is busy, and has a rapid turnover of patients, along with a complex case load. There is a huge amount of clinical material, and many opportunities for learning. There are also opportunities for getting involved in quality improvement, case presentations and other activities.</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> <li>• Take a history and examine a patient</li> <li>• Identify and synthesise problems</li> <li>• Prescribe safely</li> <li>• Keep an accurate and relevant medical record</li> <li>• Manage time and clinical priorities effectively</li> <li>• Communicate effectively with patients, relatives and colleagues</li> <li>• Use evidence, guidelines and audit to benefit patient care</li> <li>• Act in a professional manner at all times</li> <li>• Cope with ethical and legal issues which occur during the management of patients with general medical problems</li> <li>• Educate patients effectively become life-long learners and teachers.</li> </ul> <p>Teaching:</p> <ul style="list-style-type: none"> <li>• Tues: 4.00-5.00 Clinical diabetes meeting</li> <li>• Wed: 12.30-13.45 FY1 teaching</li> <li>• Thu: 12.30 Hot Cases</li> </ul> <p>Monthly: Clinical Governance Meetings</p>
<b>Where the placement is based</b>	Royal London Hospital 11C
<b>Clinical supervisor(s) for the placement</b>	Consultants rotate two weekly on the wards: Dr SA Akker Prof TA Chowdhury, Dr SW Coppack, Dr MSB Huda (Lead Clinician), Dr K Metcalfe (Clinical Director),

	Dr A Zalin, Dr M Waterhouse and Prof WM Drake. There is a CMT attached to 11C, who rotates in and out of the acute rota, but is usually replaced by an acute CMT. There are five Specialist Trainees in Diabetes and Endocrinology, one of whom is allocated to ward 11C at all times.
<b>Main duties of the placement</b>	The FY1 doctor is responsible with other staff for the ward care of patients and the maintenance of the patient's medical record. They are expected to attend the structured teaching programmes provided by the department. The doctor will be responsible for such other specific clinical duties as allocated by Consultants including performing other duties in occasional emergencies and unforeseen circumstances.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	Normal Working Day Monday – Friday 8.30am – 5.00pm Ward Based. Every morning starts with the ward 11C MDT, followed by the 9.00am TTM (take triage meeting). There is a Consultant ward round every day. FY1s are on the standard general medicine on call: there are late shifts 2pm-10.00pm and weekend on-calls 9am-9pm.
<b>Local education provider (LEP) / employer information</b>	The employer for this post is Barts Health NHS Trust. The post will be based in the Royal London Hospital, Whitechapel, London

Individual Placement Descriptor\***

<b>Trust</b>	Barts Health NHS Trust
<b>Site</b>	Barts Heart Centre
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	
<b>Placement details</b> (i.e. the specialty and sub-specialty)	<b>F2 Cardiology</b>
<b>Department</b>	<p>The Cardiology Department of Barts Health NHS Trust provides tertiary level care for a population of &gt;2 million people in the North East and North Central London sector plus secondary level cardiac care to the local population.</p> <p>The Trust invasive and interventional cardiology services are provided at The Barts Heart Centre (where this post is based). The Barts Heart Centre is home to the regional Heart Attack Centre which provides emergency PCI. Its other services include non-emergency coronary angiography and PCI, Cardio-Oncology, advanced heart failure, cardiomyopathy, electrophysiology including radiofrequency ablation of arrhythmia and implantation of pacemakers, ICDs and CRT, TAVI, &amp; non-invasive imaging including echocardiography, cardiac MRI and cardiac CT and Adult Congenital Heart Disease.</p>
<b>Type of work to expect and learning opportunities</b>	<p>The F2 doctor will be based on the wards at The Barts Heart Centre. He or she will be responsible for the delivery of the day-to-day care of cardiology inpatients. There is a high turnover of patients with a range of acute and chronic cardiac conditions including acute coronary syndromes, heart failure, valve disease, and arrhythmia. Some patients are acutely unwell and require cardiorespiratory support, for example, with CPAP and/or an intra-aortic balloon pump.</p> <p>Many cardiac patients either have pre-existing medical conditions or develop acute medical conditions such as gastrointestinal haemorrhage, pneumonia, renal failure, or stroke. This post therefore provides many learning opportunities.</p> <p>The overall educational objectives of this post include many of the generic competencies in the Foundation curriculum plus the development of competency in many of the symptom and disease-specific competencies:</p> <ul style="list-style-type: none"> <li>• Keep an accurate and relevant medical record</li> <li>• Manage time and clinical priorities effectively</li> <li>• Communicate effectively with patients, relatives and colleagues, including presentation skills</li> <li>• Understand the use of evidence, guidelines and audit to benefit patient care</li> <li>• Act in a professional manner at all times</li> </ul>

	<ul style="list-style-type: none"> <li>• Cope with ethical and legal issues which occur during the management of patients</li> <li>• Take a history and examine a patient</li> <li>• Identify the acutely unwell patient</li> <li>• Perform an initial assessment and initiate management in the acutely unwell patient</li> <li>• Prescribe safely</li> <li>• Assess patients with chest pain, palpitation, breathlessness, hypotension, neurological deficit.</li> <li>• Perform and interpret an ECG</li> </ul>
<b>Where the placement is based</b>	Barts Heart Centre
<b>Clinical supervisor(s) for the placement</b>	Dr Arjun Ghosh
<b>Main duties of the placement</b>	The F2 doctor will contribute to the provision of the day-to-day care and medical record keeping for the cardiology inpatients under the immediate supervision of ward-based SpRs. Daily consultant ward rounds are held which operate on a 'Consultant of the week' model to direct the care of inpatients. The F2 doctor rota includes night shifts. There is always a cardiology SpR on site.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	Variable according to shift pattern.  Working day is 8.30-17.00 On call include long days (8.30-9pm, nights and weekend work) There 5 "float" weeks to allow annual leave/study leave and pursue training objective agreed with supervisor
<b>Local education provider (LEP) / employer information</b>	The employer for this post is Barts Health NHS Trust. The post will be based at The Bart Heart Centre, St. Bartholomew's Hospital, West Smithfield, London EC1A. This hospital provides secondary level cardiac care to the local population and tertiary level cardiac and cardiothoracic care to the wider population of north east and north central London.

\*It is important to note that this description is a typical example of the placement and may be subject to change.

**Whipps Cross University Hospital  
Barts Health NHS Trust  
Individual Placement Description**

<b>Placement</b>	<b>FY1/FY2 Acute Medicine</b>
<b>The department</b>	<p>The Department of Acute Medicine comprises 8 Consultants of whom 2 are Rheumatologists, 1 is a Respiratory Physicians, 4 are Nephrologists, and 1 has an interest in Cardiology. All of the consultants are involved in acute unselected general medical on call. The department also has a dedicated acute medicine SpR and 2 rheumatology SpRs who work with a team of 9 SHOs and 2 FY1s.</p> <p>The department serves a diverse local population of East London with a catchment of over 350,000 people from Waltham Forest, Redbridge, Epping Forest and further afield. It has close links with tertiary cardiology services at The London Chest and St Bartholomew's Hospital and with the Hyperacute Stroke Unit at The Royal London Hospital.</p>
<b>The type of work to expect and learning opportunities</b>	<p>All F1/F2 doctors are ward based and are expected to attend daily consultant led ward rounds and work within the team to deliver the daily ongoing medical care to all patients on their ward.</p> <p>Whilst on call, the F1/F2 will be involved with the generic clerking of acute unselected medical patients and will subsequently be involved with their ongoing care. They will also have to provide emergency medical ward cover.</p> <p>The overall educational objectives of the F1/F2 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> <li>• Take a history and examine a patient</li> <li>• Identify and synthesise problems</li> <li>• Prescribe safely</li> <li>• Keep an accurate and relevant medical record</li> <li>• Manage time and clinical priorities effectively</li> <li>• Communicate effectively with patients, relatives and colleagues</li> <li>• Use evidence, guidelines and audit to benefit patient care</li> <li>• Act in a professional manner at all times</li> <li>• Cope with ethical and legal issues which occur during the management of patients with general medical problems</li> <li>• Educate patients effectively</li> <li>• Become life-long learners and teachers</li> </ul>
<b>Where the placement is based</b>	Whipps Cross University Hospital Acute Assessment Unit (AAU)

<b>Clinical Supervisor(s) for the placement</b>	Dr Ananda Chapagain, Dr Sherine Thomas
<b>Main duties of the placement</b>	<p>The F1/F2 doctor is responsible with other staff for patients admitted to the acute medical wards and deal with problems arising in these patients under the close supervision of senior doctors. Daily duties include attending consultant led wards rounds, organising investigations, maintaining accurate patient medical records and performing venous thromboembolism and delirium score assessments for all acute admissions. They will have the opportunity to learn practical procedures and to attend out-patient clinics on at least 6 occasions over 4 months in a specialty of their choice and interest. They should aim to complete an audit during their placement in acute medicine.</p> <p>They are expected to attend various teaching programmes including the weekly F1/F2 lecture based teaching, weekly clinical skills teaching where practical procedures and simulation teaching for acute medical emergencies are taught, weekly acute medicine and rheumatology departmental teaching and the hospital grand round.</p> <p>They are expected to attend a weekly Xray Meeting also.</p>
<b>Typical working pattern in this placement</b>	<p><i>Daily:</i> 0900- 1700 or 0700 - 1500 Consultant ward round/ daily duties</p> <p><i>Other:</i></p> <p>Tues: 1300-1400 Grand Round</p> <p>Weds: 1300-1400 Formal F1/F2 Teaching 1400-1600 Simulation Teaching</p> <p>Thurs: 13.00-14.00 1400-1500 Departmental Teaching</p> <p>Fri: 1215- 1300 X-Ray Meeting</p> <p><i>On call requirements:</i></p> <p>Whipps Cross Hospital currently has 42 Foundation Year One (FY1) trainee doctors working in Specialist Medicine, Surgical Directorate as well as one FY1 doctor assigned to Obs &amp; Gynae speciality.</p> <p>Out of 42 FY1 doctors, 32 doctors work on on-call rotas at any one rotation of 4 months. The other ten doctors do not receive banding as they only work during standard hours of 8a.m. to 5.00 p.m. Respiratory, Stroke/Cardiology, Psychiatry, Gastroenterology, ITU Anaesthetics, Paediatrics, DMEP and 2month of Urology rotas are un-banded as FY1 doctors work 40 hours per week.</p> <p>On current surgical rota, 12 FY1 doctors work 46:41 per week each. Two doctors from 16 FY1 doctors work long day shifts from 08:00 a.m. to</p>

	<p>9:00p.m. during week days as well as weekends.</p> <p>FY2 - Intensity of their on call commitments depends on number of doctors on the on call rota. The Trust has three shift patterns of standard day from 08:00 am to 17:00, Long Day shift starts at 08:00 to 20:30 and night shift 20:30 p.m. to 08:30 a.m. across the SHO grade doctors.</p>
<p><b>Employer information</b></p>	<p>The employer for this post is Barts Health NHS Trust. This post will be based at Whipps Cross Hospital, an acute NHS hospital which provides a full range of general inpatient, outpatient and day case services, as well as maternity services and a 24-hour Emergency Department and Urgent Care Centre. It also provides specialist services, including urology, ENT, audiology, cardiology, colorectal surgery, and cancer care and currently employs 3, 400 staff.</p>

**It is important to note that this description is a typical example of your placement and may be subject to change.**

## **Glossary of terms**

### **Placement**

A structured and supervised training opportunity within a community or hospital setting, lasting no less than four months and no more than six months.

### **Rotation**

A combination of placements configured to deliver one year training at F1 or F2. One year stand alone rotations are offered by some schools. As an organisational unit, a programme is made up of two rotations". Some schools may refer to 'rotations' as 'tracks'.

### **Foundation Programme:**

A two year programme for an individual trainee/doctor made up of F1 and F2 rotations.

Some schools offer a full two year integrated programme and others which allocate to F1 and F2 as two separate processes.

## Barts Health Whipps Cross University Hospital Individual Placement Description

<b>Trust</b>	Bart's Health NHS Trust
<b>Site</b>	<b>Royal London Hospital</b>
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	
<b>Placement details</b> (i.e. the specialty and sub-specialty)	<b>F2 Paediatric Emergency Department / A&amp;E</b>
<b>Department</b>	The Royal London is a major trauma centre and there is always an ED consultant in the department 24/7. The paediatric emergency department is one of the busiest in London but it has also developed an excellent reputation for training; being voted Top Training Experience by the London School of Paediatrics in 2018! There are 7 consultants who sub-specialise in Paediatric Emergency Medicine and 6 SpR posts. The junior doctor rota has a mixture of ST1-3s, CT3s, Clinical Fellow and F2 posts.
<b>Type of work to expect and learning opportunities</b>	F2 Doctors will be expected to see all children and be involved in the management of all emergencies in children who attend the PED, under supervision. The overall educational objectives of the F2 year are to provide the trainee with the knowledge, skills and attitudes to be able to <ul style="list-style-type: none"> <li>• Take a history and examine a patient</li> <li>• Identify and synthesise problems</li> <li>• Prescribe safely</li> <li>• Keep an accurate and relevant medical record</li> <li>• Manage time and clinical priorities effectively</li> <li>• Communicate effectively with patients, relatives and colleagues</li> <li>• Use evidence, guidelines and audit to benefit patient care</li> <li>• Act in a professional manner at all times</li> <li>• Cope with ethical and legal issues which occur during the management of patients with general medical problems</li> <li>• Educate patients effectively</li> <li>• Become life-long learners and teachers</li> </ul>
<b>Where the placement is based</b>	Paediatric Emergency Dept, The Royal London Hospital
<b>Clinical supervisor(s) for the placement</b>	Drs Walsh, Morrison, Parikh, Ramadhan, Carrick-White, Armstrong and Davis
<b>Main duties of the placement</b>	The F2 doctor is responsible with other staff for the care of patients and the maintenance of the patient's medical record. They are expected to attend the FY2 structured teaching programmes on Wednesday afternoons and generic FY2 teaching days. The doctor will be responsible for such other specific clinical duties as allocated by consultants including performing other duties in occasional emergencies and unforeseen circumstances.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	FY2s never work alone there is a 24/7 resident ED based senior cover at night (consultant, SpR and fellow). From 09.00-17.00 there is always a consultant

	<p>based in the PED. The Registrars typically cover the department between 08.00-22.00. The junior doctor rota is an 8-week cycle, going through 08.00-17.00, 11.00-20.00, 14.00-23.00, 17.00-23.00 and 22.00-08.00 shifts. A typical week is shown below:</p> <p>Mon: OFF  Tues: OFF  Wed 11.00-20.00  Thurs 11.00-20.00  Fri 11.00-20.00  Sat 17.00-23.00  Sun 17.00-23.00</p>

## Barts Health Whipps Cross University Hospital Individual Placement Description

<b>Placement</b>	FY2 Emergency Medicine
<b>The department</b>	<p>Whipps Cross University Hospital Emergency Department in Leytonstone aims to deliver high quality clinical care to the people of East London and further afield.</p> <p>The hospital offers a full portfolio of services that serve the needs of the local community, and are home to some of Britain's leading specialist centres including cancer, cardiac, trauma and emergency care. Barts Health also has one of the UK's busiest children's hospitals and internationally renowned surgical facilities.</p> <p>The ED at Whipps Cross Hospital is located in a new purpose built department with a co-located GP lead Urgent Care Centre, an ED lead Clinical Decision Unit and a Medically lead Acute assessment Unit.</p> <p>It has 24/7 CT scanning availability.</p> <p>The site offers a variety of services which includes some specialities not often seen in some hospitals such as Urology, GUM, Ophthalmology ENT, Maxillofacial surgery. These services are located on site.</p> <p>The Whipps Cross site has 9 whole time equivalent Consultants, some of whom are part time. Amongst this cohort we have consultant expertise in Pre-Hospital Care Medicine, Academic research, Intensive Care Medicine, Paediatric Emergency Medicine and Medical Education.</p>

	<p>The department is staffed 24/7 and 365 days a week with senior middle grade doctor cover.</p> <p>We have a mix of FY2, GPVTS, ACCS and trust Grade junior trainees.</p>
<p><b>The type of work to expect and learning opportunities</b></p>	<p>The overall educational objectives of the F2 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> <li>• Take a history and examine a patient</li> <li>• Provide emergency care in a timely and safe manner</li> <li>• Identify and synthesise problems</li> <li>• Prescribe safely</li> <li>• Keep an accurate and relevant medical record</li> <li>• Manage time and clinical priorities effectively</li> <li>• Communicate effectively with patients, relatives and colleagues</li> <li>• Use evidence, guidelines and audit to benefit patient care</li> <li>• Act in a professional manner at all times</li> <li>• Cope with ethical and legal issues which occur during the management of patients with general medical problems</li> <li>• Educate patients effectively</li> <li>• Become life-long learners and teachers</li> </ul> <p><u>Teaching:</u> The FY trainees are expected to attend the paid in house structured weekly held teaching Programme. Furthermore on top of this, the FY trainees are released to attend weekly generic Foundation Training held in the Medical Education Centre.</p> <p>FY2 doctors are encouraged to participate in departmental audits and presentations.</p>

<b>Where the placement is based</b>	Whipps Cross University Hospital NHS Trust
<b>Assigned Clinical Supervisor for the placement</b>	Clinical Lead
<b>Main duties of the placement</b>	<ul style="list-style-type: none"> <li>• To work and provide clinical care to ensure patient safety and safe clinical practice</li> <li>• To work with the nursing and allied health care staff to ensure good clinical care is provided</li> <li>• To work under the guidance of the consultants and related teams and seek their advice as appropriate</li> <li>• To continue to maintain their own CPD and address their learning needs as determined by local, regional and national directives.</li> </ul> <p><b><u>CLINICAL</u></b></p> <ul style="list-style-type: none"> <li>• To provide, under supervision clinical care for inpatients and to participate in the on-call commitments for each respective section of the department as determined by the rota.</li> </ul> <p><b><u>ADMINISTRATIVE</u></b></p> <ul style="list-style-type: none"> <li>• To provide, under supervision, clinical care for patients and to participate in the on-call commitments for each respective department as determined by the rota.</li> </ul>
<b>Typical working pattern in this placement</b>	<p>All doctors are on a fixed rolling rota which includes early and late starts on both weekdays and weekends.</p> <p>The night shifts are split so there is no 7 day stretch of working nights.</p> <p>The annual leave is built into the rota.</p>

	<p>There is fixed ring fenced and paid teaching on a weekly basis for 2 hours each week in the department.</p>
<p><b>Employer information</b></p>	<p>Barts Health NHS Trust is one of Britain's leading healthcare providers and the largest trust in the NHS. It was created on 1 April 2012 by bringing together three trusts: Barts and The London NHS Trust, Newham University Hospital NHS Trust and Whipps Cross University Hospital NHS Trust. The new trust has a turnover of approximately £1.1 billion and approximately 15,000 employees.</p> <p>Together our hospitals - Newham University Hospital in Plaistow, St Bartholomew's (Barts) in the City, The Royal London in Whitechapel, The London Chest in Bethnal Green and Whipps Cross in Leytonstone - deliver high quality clinical care to the people of east London and further afield.</p> <p>The hospitals offer a full portfolio of services that serve the needs of the local community, and are home to some of Britain's leading specialist centres including cancer, cardiac, trauma and emergency care. Barts Health also has one of the UK's busiest children's hospitals and internationally renowned surgical facilities.</p> <p>Our vision is to create a world-class health organisation that builds on strong relations with our partners and the communities we serve – one dedicated to ending the historic health inequalities in east London. We will build an international reputation for excellence in patient care, research and education. And as members of UCLPartners, the largest academic health sciences system in the world, we will ensure that our patients are some of the first</p>

in the country to benefit from the latest drugs and treatments.

We are looking for the best talent to lead our ambitious new healthcare organisation. In return, the Barts Health will provide unsurpassed professional development opportunities, enabling investment in a range of new initiatives that would mean:

- doctors and nurses in training will be able to gain experience in different hospitals along the whole patient pathway;
- there would be greater opportunity for career progression – we could retain good staff who might otherwise leave to gain promotion;
- becoming world-class will enable us to recruit some of the best doctors and researchers in the world – who can share their knowledge and experience;
- Success breeds success. An organisation that is recognised as a world-leader will find it easier to recruit more staff, meaning we can work to reduce the number of persistent vacancies;
- Joining forces with other partners in an Academic Health Science System will mean that staff would be better able to secure funds and pool their talents to develop new technology, techniques and treatments.

**It is important to note that this description is a typical example of your placement and may be subject to change.**

## **Glossary of terms**

### **Placement**

A structured and supervised training opportunity within a community or hospital setting, lasting no less than four months and no more than six months.

### **Rotation**

A combination of placements configured to deliver one year training at F1 or F2. One year stand alone rotations are offered by some schools. As an organisational unit, a programme is made up of two rotations".  
Some schools may refer to 'rotations' as 'tracks'.

### **Foundation Programme:**

A two year programme for an individual trainee/doctor made up of F1 and F2 rotations.

Some schools offer a full two year integrated programme and others which allocate to F1 and F2 as two separate processes.
