## **F1 - Individual Placement Descriptors**

**Foundation Programme  
Individual Placement Descriptor\***

<b>Trust</b>	Brighton & Sussex University Hospitals NHS Trust
<b>Site</b>	Seaside View, Elm Grove, Brighton Or Chailey Heritage, Chailey  May also include ward work at Royal Alexandra Children's Hospital, Brighton.
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/021/F1/006 KSS/RXH01/022/F1/001
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Community Paediatrics
<b>Department</b>	Paediatrics
<b>Type of work to expect and learning opportunities</b>	<p>The Seaside View Child Development Centre and Chailey Heritage each host one Foundation Year 1 doctor at a time for months of their 4 month paediatric placement.</p> <p>Time will also be spent in general paediatrics at the Royal Alexandra Children's Hospital. During their community placement the trainee will be released for attendance at Foundation Teaching on Tuesdays' and other education, mandatory and statutory training as required by their employer.</p> <p>During the community placement, the trainee will experience a number of specialist clinics and will also work closely with clinic teams, complete letters, forms and referrals, and presenting cases at meetings. The post may also offer experience in neurodevelopmental conditions, including the opportunity to join specialist Autism, genetic, epilepsy and neurology clinics. The clinical supervisor will encourage and support the completion of audits and similar activity.</p> <p>The trainee will gain a working knowledge of community child health services and the interface between community, social and hospital care.</p> <p>During time spent in general paediatrics, there will be hands-on experience with children, including good opportunity to practise paediatric examinations, see common and rare disease, practice cannulation and venepuncture, learn child protection and safe guarding issues, opportunity to learn practical procedures, and formal protected teaching once a week.</p>

*STFS is a collaboration between HE Kent, Surrey & Sussex, HE South London, Brighton & Sussex Medical School, King's College London School of Medicine & St George's University of London*

<p><b>Where the placement is based</b></p>	<p>Placement will be based at Seaside View, Elm Grove, Brighton, or Chailey Heritage, Chailey</p> <p>Time will also be spent working at the Royal Alexandra Children's Hospital on the paediatric wards or in the newly opened children's emergency department.</p>
<p><b>Clinical supervisor(s) for the placement</b></p>	<p>Dr Ann White Dr Vivienne Campbell Or another community Paediatrician</p>
<p><b>Main duties of the placement</b></p>	<p>See above.</p> <p>On the wards at the Royal Alexandra Children's Hospital the consultant of the week provides close supervision and teaching at the bedside, and leads the daily post take ward rounds. This is enhanced by the fact that all consultants have sub-speciality interests. In the Children's Emergency Department you will have the opportunity to assess and treat children with acute medical conditions and those with minor trauma. You will be supported by an experienced registrar at all times and a Paediatric Consultant is also on-site during evenings and at weekends.</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>You will have the opportunity to attend outpatient clinics in community and general paediatrics and also subspecialty clinics run by Brighton Consultant Paediatricians jointly with visiting consultants from other teaching centres. You will be freed up to attend the F1 teaching programme, and are also welcome to attend the paediatric department's teaching sessions held on Monday and Friday lunchtimes. On Tuesday afternoons when the paediatric trainees have their teaching sessions you will cover their duties (and they reciprocate this for your teaching sessions).</p> <p>Please note the above may be subject to change, further details will be in your work schedule.</p>
<p><b>Local education provider (LEP) / employer information</b></p>	<p>Brighton and Sussex University Hospitals (BSUH) is an acute teaching hospital working across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital.</p> <p>We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England.</p>

	<p>Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East.</p> <p>We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>

<b>Placement details</b> (i.e. the specialty and sub-specialty)	FY1 job in Urology
<b>Department</b>	Urology
<b>Type of work to expect and learning opportunities</b>	Urology is based at the Princess Royal Hospital in Hayward's Heath. The department caters for emergency and elective surgery and is a specialist centre for Stones and renal cancer. We have regular xray meetings, MDT meetings and morbidity/mortality meetings. All F1s are encouraged and supported in undertaking an audit project during their tenure which is very useful for future job applications. We encourage F1s to come to theatre and they will have the opportunity to learn endoscopic urology. There is support available from 2 CTs and 6 registrars as well as 5 permanent consultants.
<b>Where the placement is based</b>	Princess Royal Hospital – may also include some on-call work at the Royal Sussex County Hospital, Brighton.
<b>Clinical supervisor(s) for the placement</b>	Mr Tim Lerner or other Urology consultant
<b>Main duties of the placement</b>	Updating the list at the beginning and end of the day. Preparing for the morning ward round and carrying out ward jobs as given by the daily consultant. Preparing discharge summaries for inpatients in a high turnover surgical ward.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	<b>Average Weekly Hours of Work: 47</b> Your contract is a full-time contract for 40 hours You will in addition be contracted for an additional 7 hours, making for total contracted hours of 47 hours. The distribution of these will be as follows: Average weekly hours at basic hourly rate: 40 Average weekly hours attracting an enhancement: 7 Average weekly hours attracting a 37% night enhancement: 8.25 Note: these figures are the <i>average weekly hours</i> , based on the length of your rota cycle, as required by Schedule 2 of the Terms and Conditions of Service.

<b>Trust</b>	Brighton & Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital – may include some work at the Princess Royal Hospital or other sites.
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/091/F1/001
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Anaesthetics
<b>Department</b>	Anaesthetics
<b>Type of work to expect and learning opportunities</b>	This post offers the trainee ample opportunities to learn airway management, haemodynamic monitoring, evaluation and management of the critically ill patient, and a variety of practical skills such as peripheral and central venous cannulation, arterial cannulation and endotracheal intubation. Most of the training will be supervised by the Consultant Cardiac Anaesthetists. The trainee will be encouraged to participate in an audit project and present at journal club meetings. During the post, the trainee will also spend time with senior anaesthetists in some non-cardiac surgery lists and join other trainees in reviewing postoperative patients with the Acute Pain and Critical Care Outreach teams
<b>Where the placement is based</b>	Anaesthesia is the largest department in the Trust - over 60 Consultants and Staff grade or Associate Specialist anaesthetists and more than 40 trainees at various grades, including one FY2 and one FY1 trainee. The two 'arms' of the department with offices and administrative staff are at Princess Royal Hospital, Haywards Heath and Royal Sussex County Hospital, Brighton. Anaesthetic services are also provided at other sites: Hurstwood Park Neurological Centre and Sussex Orthopaedic Treatment Centre (Haywards Heath); Sussex Eye Hospital and Royal Alexandra Children's Hospital (Brighton); and Lewis Victoria Hospital (Lewes).
<b>Clinical supervisor(s) for the placement</b>	Dr Robert Kong or other consultant.
<b>Main duties of the placement</b>	The FY1 trainee in Anaesthesia will spend most of the placement working in the Cardiac (Surgery) Unit at the Royal Sussex County Hospital. Responsibilities of the post include day to day management of postoperative patients in the Cardiac HDU, assisting senior anaesthetists.

*STFS is a collaboration between HE Kent, Surrey & Sussex, HE South London, Brighton & Sussex Medical School, King's College London School of Medicine & St George's University of London*

<p><b>Typical working pattern in this placement</b> (<i>e.g. ward rounds, clinics, theatre sessions</i>)</p>	<p>There is a regular (weekly) half-day teaching for all anaesthetic trainees. This is in addition to the regular Foundation teaching program. Each trainee is allocated to an educational supervisor who will guide trainees throughout their post, giving advice and support as necessary.</p>

<b>Placement details</b> (i.e. the specialty and sub-specialty)	Academic (Leadership)
<b>Department</b>	Academic (Leadership)
<b>Type of work to expect and learning opportunities</b>	<p>Effective management and leadership skills are essential to the future development of healthcare. This programme combines both workplace based learning and academic study to introduce Foundation Year 2 Doctors [F2s] to the practice and theory of leadership, management and education in clinical settings.</p> <p>Teaching will be provided by a Faculty comprising expertise drawn from Brighton and Sussex University Hospital NHS Trust (BSUH), Brighton and Sussex Universities, Brighton and Sussex Medical School (BSMS) &amp; KSS Deanery Education Department. Workplace based supervision and support for F2s will be led by the Leadership Champions &amp; Director of Medical Education at BSUH and provided by a Local Faculty Group comprising clinicians who hold or are in process of gaining a Master's degree in Education in Clinical Settings.</p>
<b>Where the placement is based</b>	Royal Sussex County Hospital or Princess Royal Hospital
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	The trainees will have a 4 month block specifically dedicated to leadership. They will undertake a module on Leadership organised by the Leadership education team at the Deanery. They will also lead on the ongoing "Read 2 Lead" programme. Their work will be supervised and mentored by a Leadership Tutor and a Leadership Champion (who will usually be from the management team of the Trust). They

	<p>will be guided to take on leadership projects in areas that interest them – usually to improve patient safety, quality of service or increase efficiency. They may have other staff, usually consultants, who will mentor them through these projects. At the end of the year it is hoped that the output from the projects will include presentations at conferences and/or publications in suitable journals.</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Academic Placement</p>

<b>Placement details</b> (i.e. the specialty and sub-specialty)	Emergency Medicine (Accident & Emergency)
<b>Department</b>	Accident & Emergency
<b>Type of work to expect and learning opportunities</b>	<p><u>Royal Sussex site:</u></p> <p>Trainees are an invaluable part of any modern emergency department, and we take great care in their selection and great pride in their successful clinical development. Joining the Brighton team has proved to be a highly successful stepping stone for many doctors, and we are proud of the department's achievements. We are a Major Trauma Centre and see a large number of high acuity patients, which means that our work is clinically challenging but highly rewarding. The department has a fully computerised medical records system that allows research and facilitates audit, the system currently in use is the Footman- Walker AEII system. Shop floor terminals allow access to TOXBASE, Internet and departmental guidelines. There is Consultant presence on the shop floor from 08:00 to 00:00 hours every day and overnight on Thursday with more night time consultant presence planned in the near future. There is a Middle Grade present 24 hours a day.</p>

	<p>The Trust is committed to the development of a Consultant-based service and an increase in the number of Consultants is planned. Integration with Princess Royal Hospital means that Consultants and trainees work at both sites. The department has 5 resuscitation bays, one of which is dedicated to Paediatric patients. It has 7 high dependency monitored beds and 8 trolley bays. Two rooms for disturbed patients are available and there is a separate gynaecology examination cubicle. Zone 3, where the ambulant patients are seen, has a spacious waiting area with a triage desk, a Nurse Practitioners' room and 10 cubicles. There is a separate integrated paediatric area with 4 cubicles, which is staffed by RSCN nurses. There is a fifteen bed Clinical Decision Unit/Short Stay Ward, and a Consultant led ward round occurs every morning. There is a fully equipped multimedia seminar room for lectures and teaching. Trainees are expected to attend a formal two hour teaching session every Wednesday morning from 8:00 to 10:00. In addition, there are informal 'shop floor' teaching sessions on a daily basis. There is an active audit and research programme which the successful applicant would be expected to participate in. Trainees are expected to show evidence of self-directed e learning, and participate in regular case presentations and an audit presentation at the end of their placement.</p> <p><u>Princess Royal site:</u></p> <p>The Princess Royal Hospital is a new hospital to serve the people of Haywards Heath and surrounds. You will spend some time at this hospital's fully staffed and equipped Emergency department.</p>
<p><b>Where the placement is based</b></p>	<p>Royal Sussex/ Princess Royal Hospitals</p>

<b>Clinical supervisor(s) for the placement</b>	The Specialist Registrars are responsible for the day to day running of the emergency department under the supervision of the Consultants. At the RSCH, a Consultant is available on the shop floor every day from 08:00 to 23:00. A middle grade doctor is available on the shop floor 24 hours a day.	
<b>Main duties of the placement</b>	<p>The duties of this post consist of: assessment, examination, investigation, diagnosis and treatment or referral of ambulant and ambulance cases. It will include initial fracture treatment, suturing of wounds and resuscitation of all forms of medical and surgical emergencies with and without supervision.</p> <p>Trainees have access to the data created by the Emergency Department Computers. These fulfil both clinical and administrative roles, but are only as good as the data entered. It is thus in your own interest to enter information accurately. The routine duties of the trainees are confined exclusively to the Emergency Department. In times of emergency or unforeseen circumstances all staff may be required to undertake duties at other Hospitals in the District but these would be of a temporary nature in special circumstances.</p>	
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	Day and night shifts.	
<b>Local education provider (LEP) / employer information</b>	Brighton and Sussex University Hospitals (BSUH) is an acute teaching hospital working across two main sites:	

	<ul style="list-style-type: none"><li>• Royal Sussex County Hospital, in Brighton</li><li>• Princess Royal Hospital, in Haywards Heath</li></ul> <p>The Brighton campus includes the Royal Alexandra Children’s Hospital and the Sussex Eye Hospital.</p> <p>We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England.</p> <p>Both hospitals provide many of the same acute services for their local populations. <b>Trust</b>	Brighton & Sussex University Hospitals NHS Trust
<b>Site</b>	Princess Royal Hospital
<b>Intrepid Post Code</b> (or local post number if Intrepid N/A)	KSS/RXH01/001/F2/006
<b>Placement details</b> (i.e. the specialty and sub-specialty)	General (Internal) Medicine Acute Medicine on call
<b>Department</b>	Geriatric Medicine
<b>Type of work to expect and learning opportunities</b>	Medicine and Elderly Health are fully integrated at The Princess Royal Hospital and work on a ward based system with 3 megafirms (Balcombe, Pyecombe and Ardingly/Hurstpierpoint). The appointee will join the Orthogeriatric team on the Hip Fracture Unit which is located on Twineham ward.
<b>Where the placement is based</b>	The Princess Royal Hospital Hip Fracture Unit

	Balcombe, Pyecombe and Ardingly/Hurstpierpoint
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	The appointees will participate on an unselected medical take rota during nights and weekends at Senior House Officer level, led by the on call medical registrar, as well as covering the elective surgical wards. They will gain excellent experience in all the major medical specialties. The Department runs an active educational programme for all its trainees, including weekly protected teaching for SHO level doctors and well as weekly departmental teaching.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	The Orthogeriatric component of the post is based on the BSUH Hip Fracture Unit, located on Twineham Ward at the Princess Royal Hospital. After their emergency operation at RSCH (Brighton) patients are transferred to Twineham Ward as soon as surgically stable (usually on Day 3). Together with Dr Alexander and 2 FY2 equivalent doctors, further post operative medical management is undertaken including full falls risk assessment and osteoporosis reviews. The ward operates a fully integrated, multidisciplinary team approach. Recent figures have shown the unit to have one of the lowest 30 day mortalities in the UK.

<b>Placement details</b> (i.e. the specialty and sub-specialty)	Infectious Diseases (Communicable Diseases)
<b>Department</b>	Infectious Diseases Academic
<b>Type of work to expect and learning opportunities</b>	In the past we have found the most successful approach for our AFP trainees is to develop a specific project within one of these areas considering the trainees interests and aptitudes. Such a project may be could be patient focused or lab-based (microbiology, immunology or genetics). The successful appointee should contact Dr Llewelyn or Prof Newport to discuss the post as soon as possible after appointment.
<b>Where the placement is based</b>	Infectious Diseases (Communicable Diseases) Royal Sussex County Hospital
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	Infectious diseases is a major academic theme at Brighton and Sussex Medical School. Among the clinical academics, Prof Newport is Professor of Infectious Diseases and Global health and works on genetic regulation of immune responses and susceptibility to infectious diseases such as tuberculosis. Dr Llewelyn works on clinical and immunological assessment of patients with healthcare-associated infections such as Staphylococcus aureus and Clostridium difficile. He is working with the modernising medical microbiology consortium ( <a href="http://www.modmedmicro.ac.uk">www.modmedmicro.ac.uk</a> ) to use microbial whole genome sequencing to study transmission and pathogenicity of these organisms and with the UK Clinical Infection Research Group to undertake a multicenter Randomised Controlled Trial of rifampicin in the management of S. aureus bacteraemia ( <a href="http://www.ukcirg.co.uk">www.ukcirg.co.uk</a> ). With Prof Florian Kern at

	<p>BSMS he is developing the measurement of host immune responses as tools for assessing patients with healthcare associated infections.</p> <p>Other members of clinical and non-clinical researchers within the department of infection and immunity are also available to support projects and interested candidates should visit Interested candidates should visit <a href="http://www.bsms.ac.uk/research/our-research/infection- immunology">www.bsms.ac.uk/research/our-research/infection- immunology</a> for further information.</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Patient focused or lab-based (microbiology, immunology or genetics).</p>

<b>Placement details</b> (i.e. the specialty and sub-specialty)	Neurology
<b>Department</b>	Neurology Medical
<b>Type of work to expect and learning opportunities</b>	The Neurosciences Unit is a fully integrated tertiary Unit based at Hurstwood Park Neurological Centre on the Princess Royal Campus at Haywards Heath. It serves a population of approximately 1.4 million in East and West Sussex and links with acute hospitals in Haywards Heath, Brighton, Crawley, Redhill, Eastbourne, Hastings and Worthing. The unit provides a full adult Neurosurgical and Neurological service including assessment, advice, elective and emergency admissions. The Unit has a strong commitment to training.

<p><b>Where the placement is based</b></p>	<p>Hurstwood Park Neurological Centre on the Princess Royal Campus at Haywards Heath.</p>
<p><b>Clinical supervisor(s) for the placement</b></p>	<p>A Consultant in the department will be the Clinical Supervisor.</p>
<p><b>Main duties of the placement</b></p>	<p>There are 6 full time Consultant Neurosurgeons covering a range of general and specialist areas. The neurosurgical specialist registrars rotate with sister units at St Georges and Kings College Hospitals. Consultant Neurologists number 14 in total and provide local (in their host Acute Hospital) OP and ward referral services and all have access to in-patient beds at Hurstwood Park. They are supported by a range of Nurse Specialists in Acquired Brain Injury, Epilepsy, MS and PD. The Neurophysiology Unit provides a full range of EEGs, EMGs and EPs. Satellite EMG and EEG services are provided in Shoreham and an emergency mobile EEG service is available.</p>
<p><b>Typical working pattern in this placement</b> (<i>e.g. ward rounds, clinics, theatre sessions</i>)</p>	<p>Facilities at Hurstwood Park include neurosurgical (22 beds) and neurology wards (18 beds), a 6 bedded neuro-ITU/HDU, twin dedicated neurosurgical theatres (opened in April 2000), neurophysiology department, neuroradiology department and outpatient suites.</p> <p>The neuroITU capacity has recently been given clearance to expand further. Each morning there is a teaching neurosurgical/neuroradiology conference in order to review referrals during the preceding day. In addition there is an academic afternoon on Thursdays which includes neuropathology, neuroradiology, visiting speakers and clinical presentations. There are regular teaching sessions involving medical students from the Medical School.</p>

<b>Intrepid Post Code</b> (or local post number if Intrepid N/A)	KSS/RX205/056/F2/901
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Psychiatry

<b>Department</b>	Psychiatry
<b>Type of work to expect and learning opportunities</b>	The main psychiatric in-patient unit for working age adults is at Mill View Hospital, Hove, and the corresponding unit for adults over 65 is situated at the nearby Nevill Hospital. There is also an Old Age Psychiatry day hospital ( the Aldrington Day Hospital) , a little further away in Hove. This post will be with one of the three Old Age Psychiatry sector teams serving Brighton and Hove; specifically the Western Sector which covers the Hove area. The trainee will be based at Nevill Hospital and will work with patients suffering from dementia and related conditions ( Brunswick Ward) and also with patients suffering from the full range of 'functional' disorders— schizophrenia, bipolar disorder, depression etc ( Churchill Ward).
<b>Where the placement is based</b>	Various Psychiatric treatment locations operated by Sussex Partnership NHS Trust.
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	Both Churchill and Brunswick wards are acute facilities and do not have long-stay patients. The service is organised along Community Mental Health Team (CMHT) lines, and provides excellent opportunities for working in a multi-disciplinary setting with nurses, Occupational Therapists, Social Workers and Psychologists. In addition to in-patient work, there will also be regular supervised out-patient clinics and community assessments. There would be opportunities to visit other Sussex Partnership mental health facilities, e.g. working age mental health services, substance misuse, learning disabilities, and rehabilitation. There will be a formal induction for

	all new trainees, and regular educational supervision.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	Ward Rounds, clinics, outpatients.

<b>Intrepid Post Code</b> (or local post number if Intrepid N/A)	KSS/RXH01/022/F2/001

<b>Placement details</b> (i.e. the specialty and sub-specialty)	Paediatric Surgery
<b>Department</b>	Paediatric Surgery
<b>Type of work to expect and learning opportunities</b>	Each year, around 2000 general surgical operations are undertaken. From these figures, approximately 40% are emergency admissions and 60% are planned operations. A wide range of surgery is performed covering gastro-intestinal, urology and general paediatric and neonatal surgery, including endoscopy and laparoscopy. Also, ENT, maxillo-facial, eye surgery and orthopaedics are undertaken in the hospital.
<b>Where the placement is based</b>	The Royal Alexandra Children's Hospital in Brighton.
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	The Trainee Doctor will be expected to help the Consultants in the pre and post-operative care of children requiring surgery and there will be opportunity to attend outpatients' clinic in conjunction with the Consultant. In the A&E Department, the Trainee Doctor will be expected to see the 'walk in' patients and deal with uncomplicated medical conditions and refer to the medical team for further input as and when required. This will enable them to learn to deal with sick children.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	There is a regular teaching program which they will be able to attend.
<b>Local education provider (LEP) / employer information</b>	Brighton and Sussex University Hospitals (BSUH) is an acute teaching hospital working across two main sites:

<b>Placement details</b> (i.e. the specialty and sub-specialty)	Paediatrics
<b>Department</b>	Paediatrics
<b>Type of work to expect and learning opportunities</b>	<p>The Royal Alexandra Children's Hospital in Brighton is an excellent place to work with busy, unselected on-calls providing broad experience in all aspects of general paediatrics. We run a busy children's assessment unit (CASU), where GP referrals and children triaged by A+E staff are seen by the paediatric team. In addition a small number of selected patients have open access to CASU.</p> <p>There are medical and surgical paediatric inpatient beds, a high dependency ward area and a 2-bedded PICU. The experience obtained is enhanced by the fact that all consultants have sub-specialty interests. The consultant of the week provides close supervision and teaching at the bedside, and leads the daily post take ward rounds. There are ample opportunities to present cases.</p> <p>We work alongside the paediatric surgical</p>

	unit and the post-holder will be involved in the care of both medical and surgical patients. There are opportunities to attend outpatient clinics in general paediatrics and paediatric surgery. The department places great importance on teaching for junior doctors.
<b>Where the placement is based</b>	The Royal Alexandra Children's Hospital in Brighton.
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	Every post-holder will have one of the paediatric consultants as their educational supervisor, and an individual development plan will be made to tailor your experience to your educational needs. Experience in examination of the new-born can be arranged with the neonatal unit.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	There is bleep free teaching for 2 hours every Tuesday afternoon for SHOs. Other regular teaching sessions include weekly protected registrar teaching, monthly liaison psychiatry and child protection meetings, Grand rounds twice a month, X-ray meeting on alternate Friday lunchtimes, guideline update meetings and monthly clinical governance/audit meetings for the whole department. MRCPCH exams and DCH exams are hosted by the department on alternate years, and there are excellent opportunities for those undertaking these exams to have additional clinical exam-orientated teaching.

<p><b>Local education provider (LEP) / employer information</b></p>	<p>Brighton and Sussex University Hospitals (BSUH) is an acute teaching hospital working across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children’s Hospital and the Sussex Eye Hospital.</p> <p>We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England.</p> <p>Both hospitals provide many of the same acute services for their local populations. <b>Placement details</b> (i.e. the specialty and sub-specialty)	Trauma & Orthopaedics	
<b>Department</b>	Trauma and Orthopaedic Surgery	
<b>Type of work to expect and learning opportunities</b>	<p>As part of a reconfiguration of services which followed the public consultation 'Best Care Best Place' the orthopaedic departments at the Princess Royal Hospital and The Royal Sussex County Hospital were merged in June 2005. This merger encompassed the move of all trauma surgery to the RSCH site and that of elective surgery to the PRH site. A full A&amp;E service is provided at the Princess Royal Hospital, with all major trauma and all trauma cases requiring surgery being transferred to Brighton.</p> <p>At the Royal Sussex County Hospital there is a single trauma floor, containing two wards (L8A East &amp; West) and a small day case trauma area. The outpatients department is situated on the same floor as the theatres and A&amp;E Department and provides elective and trauma clinics and a</p>	

	<p>technician led casting service. Two trauma lists run all day on weekdays and a single one at weekends and Bank Holidays. The Trust employs a trauma co-ordinator, who works closely with Consultants, to manage the flow of patients into trauma beds.</p>
<b>Where the placement is based</b>	Royal Sussex County Hospital & Princess Royal Hospital
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	<p>All simple elective patients are currently treated at the Treatment Centre in the grounds of the Princess Royal Hospital (Sussex Orthopaedic Treatment Centre, SOTC). Anaesthetically complex elective patients are treated at the Princess Royal Hospital. There is one ward at the SOTC which you are not responsible for. There are two wards in the Princess Royal Hospital. Ardingly ward houses largely fractured neck of femur patients who are rehabilitating. Hurstpierpoint wards takes the elective patients.. There are two laminar flow theatres at PRH. Outpatient clinics are situated on the ground floor next to the A&amp;E Dept and provide the same service as at the RSCH site.</p> <p>Changes are also currently being planned in outpatient services. Community-based assessment teams with Consultant involvement are being set up to provide a multidisciplinary assessment and triage service, with patients requiring surgery being referred directly to the Treatment Centre.</p>
<b>Typical working pattern in this placement</b> <i>(e.g. ward rounds, clinics, theatre sessions)</i>	Trauma lists run all day on weekdays and a single one at weekends and Bank Holidays. The Trust employs a trauma co-ordinator, who works closely with Consultants, to manage the flow of patients into trauma beds.

<p><b>Local education provider (LEP) / employer information</b></p>	<p>Brighton and Sussex University Hospitals (BSUH) is an acute teaching hospital working across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children’s Hospital and the Sussex Eye Hospital.</p> <p>We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England.</p> <p>Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East.</p> <p>We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>

	two Hospitals are transferred to Brighton. Otherwise these two Hospitals work autonomously
<b>Clinical supervisor(s) for the placement</b>	Mr Prodip Das or other consultant
<b>Main duties of the placement</b>	The post offers a wide range of experience in all aspects of ENT and Head and Neck Surgery.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	<p>There are monthly audit/clinical governance meetings and weekly teaching on every Friday morning. There is protected time to attend the Friday morning teaching at RSCH and every attempt is made to allow attendance at all teaching/study sessions.</p> <p>On call is on a fixed day of the week and annual leave is allocated on strict rota. Any requests for changing the fixed dates for leave will be looked at sympathetically but cannot be guaranteed.</p> <p>The post covers the ward management of maxillofacial patients and the head and neck major cancer surgery. This gives the trainee an excellent overall view of head and neck surgery as a multidisciplinary area. The trainee is encouraged to produce audit/research during this post and previous holders have used this as a stepping stone to a career in ENT.</p> <p>Please note the above may be subject to change, further details will be in your work schedule.</p>
<b>Local education provider (LEP) / employer information</b>	<p>Brighton and Sussex University Hospitals (BSUH) is an acute teaching hospital working across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital.</p> <p>We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England.</p> <p>Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac,</p>

STFS is a collaboration between HE Kent, Surrey & Sussex, HE South London, Brighton & Sussex Medical School, King's College London School of Medicine & St George's University of London

	<p>cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East.</p> <p>We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>

<b>Local education provider (LEP) / employer information</b>	<p>Croydon Health Services - here for you Croydon Health Services provide hospital and community services from a number of community and specialist clinics throughout Croydon. These include:</p> <ul style="list-style-type: none"> <li>• Croydon University Hospital (formerly Mayday University Hospital)</li> <li>• Purley War Memorial Hospital</li> <li>• The Sickle Cell and Thalassaemia Centre in Thornton Heath</li> <li>• A minor injuries unit in New Addington</li> </ul> <p>The Trust was formed on 1st August 2010 through the integration of Croydon Community Health Services and Mayday Healthcare NHS Trust. Around 4,500 staff provide services for a population of over 340,000 people with a high level of ethnic diversity. A recent public engagement programme called the Patient Revolution led to the development of a new vision and five promises to the people of Croydon. At Croydon Health Services we promise that we are always here for you. We promise everyone in Croydon, whether you are in hospital, in the community or at home, that we will do our best to ensure:</p>

- You feel cared for by helpful and welcoming staff, who respect you as an individual
- You feel in safe hands with highly professional staff who work well together in clean clinics and hospitals
- You feel confident in your treatment from skilled teams of compassionate clinicians who listen to you and keep you informed
- You feel we value your time with convenient appointments, minimal waiting and care closer to home.
- You feel it's getting better all the time as we continue to improve our services

These promises, developed with our patients, carers and staff help us deliver the pledges in the NHS Constitution and our own corporate objectives.

**“Here for You”**

The post holder is required to carry out his/her role in accordance with the organisation “here for you” promises, standards and behaviours, ensuring that colleagues and the people we serve feel cared for, feel in safe hands, feel confident in their treatment, feel we value their time, and feel that our service continues to improve all the time.

**Working in partnership**

As one of the few integrated health organisations delivering services in both the hospital and community, we want to remove administrative barriers which can get in the way of efficient and effective care and provide people with healthcare in the right local setting whether that is their home, a community clinic or hospital.

We are committed to continually improving access to employment, facilities and buildings and that our patients, staff, visitors and carers can access clear information on the accessibility of our physical estate as well as clear and accessible information on the services themselves.
