Local education provider (LEP) / employer information	Frimley Park Hospital (FPH) is a 700 bedded NHS Foundation Trust near Camberley in Surrey serving a local population of approximately 400,000. The hospital is situated just off Junction 4 of the M3 with quick and easy access to London by car or train and is roughly an hour from the south coast. It is host to a Defence Medical Group which means that Armed Forces doctors and other military personnel are integrated into the hospital workforce. Frimley Park Hospital is the first in the country to be rated as 'Outstanding' overall by England's Chief Inspector of Hospitals, Sir Mike Richards. The report published on 26 th September 2014 follows a thorough inspection of all areas of the Trust. FPH was delighted to be awarded the title Trust of the Year for the South of England in the Dr Foster Hospital Guide. FPH was also named in the top five in the new MHP Health Mandate quality index rating based on what matters most to patients.

*It is important to note that this description is a typical example of the placement and may be subject to change

It is host to a Defence Medical Group which means that Armed Forces doctors and other military personnel are integrated into the hospital workforce. Frimley Park Hospital is the first in the country to be rated as 'Outstanding' overall by England's Chief Inspector of Hospitals, Sir Mike Richards. The report published on 26 th September 2014 follows a thorough inspection of all areas of the Trust. FPH was delighted to be awarded the title Trust of the Year for the South of England in the Dr Foster Hospital Guide. FPH was also named in the top five in the new MHP Health Mandate quality index rating based on what matters most to patients.

Individual Placement Descriptor***

Trust	Frimley Health NHS Foundation Trust/Surrey and Borders Partnership NHS Foundation Trust
Site	Based at Abraham Cowley Unit, St Peters Hospital, Chertsey KT16 0AE
Post Code (and local post number if known)	KSS/RDU01/052/F1/001 (posts 013, 014 and 015)
Placement details (i.e. the specialty and sub-specialty)	Psychiatry
Department	The Surrey and Borders Partnership NHS Trust was created on April 1, 2005, to provide Psychiatric and Learning Disability services for the whole county of Surrey as well as part of North East Hampshire and Croydon, and achieved Foundation status on May 1, 2008. The Abraham Cowley Unit covers a population of circa 845,000 in the North West of the Trust. www.sabp.nhs.uk .
Type of work to expect and learning opportunities	<p>This is a full time Foundation post with the Early Intervention in Psychosis Team which covers West Surrey and North East Hampshire. The principal service provided by the team is assertive community outreach for people between the ages of 14-35 with an early psychotic illness. All common psychiatric disorders will be experienced in these young people. Most of the work undertaken will be in conjunction with/accompanied by the highly experienced multi-disciplinary team, and consideration will always be made of the training level of an FY1 doctor.</p> <p>Individual supervision will be provided by the approved Named Clinical Supervisor for one hour per week. The hospital teaching programme runs on a Friday morning. Trainees will be expected to attend regularly and at times present at Journal Clubs and Case Presentations. Attendance at weekly Balint Group on Friday morning is mandatory.</p> <ul style="list-style-type: none"> • Attendance at the FPH FY1 Teaching Programme one day a month from September to May inclusive is mandatory, plus lunchtime teaching every Tuesday from August to May.
Where the placement is based	The post is based at the Abraham Cowley Unit, St. Peter's Hospital Site, Guildford Road, Chertsey, KT16 0AE
Clinical supervisor(s) for the placement	Dr D Deo
Main duties of the placement	<p>Detailed history taking, examinations and initiation of all necessary investigations for patients, keeping full clinical notes and ensuring the medical records information is updated according to local guidelines.</p> <ul style="list-style-type: none"> • Mental state examination. • Physical examination. • Community risk assessment/observations decisions. • Interviewing relatives and carers of patients. • Arranging appropriate referrals to other disciplines. • Letters to GP colleagues. • Communication and team-working skills.

	<ul style="list-style-type: none"> • Engagement with multi-disciplinary team. • Liaison with relevant services for post-discharge follow-up. • Regular presentation of full psychiatric cases to the clinical supervisor, the team specialty doctor or the Psychiatry Specialty Trainee • Participation in out-of-hours assessments with Psychiatric Liaison Nurses while on-call.
<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<p>MONDAY: AM: 09.00 Prepare for Team Meeting 10.00 – 12.00 Team Meeting PM: Clinical Appointments TUESDAY: AM: 09.00 – 11.00 Clinical Administration PM: Inpatient Liaison WEDNESDAY: AM 0900 – 11.00 Clinical Administration 11.00 - 12.00 Supervision with Dr Deo THURSDAY: AM: 09.00 Clinical Appointments PM: Portfolio Work/Assessments FRIDAY: AM: 09.00 – 10.00 On-call Discussion 10.00 – 11.00 Balint Group Term time only ACADEMIC MEETING PROGRAMME 11.15 – 12.15 Journal Club/Topic Discussion 12.30 – 13.30 Case Presentation/External Speaker</p>
<p>Local education provider (LEP) / employer information</p>	<p>Frimley Park Hospital (FPH) is a 700 bedded NHS Foundation Trust near Camberley in Surrey serving a local population of approximately 400,000. The hospital is situated just off Junction 4 of the M3 with quick and easy access to London by car or train and is roughly an hour from the south coast. Individual Placement Descriptor***

Trust	Frimley Health NHS Foundation Trust
Site	Frimley Park Hospital
Post Code (and local post number if known)	KSS/RDU01/052/F1/002 (posts 004, 005 and 006)
Placement details (i.e. the specialty and sub-specialty)	Liaison Psychiatry Emergency Medicine
Department	Department of Psychological medicine Department of Emergency Medicine
Type of work to expect and learning opportunities	<p>LIAISON PSYCHIATRY: Broadly the Working Age Adult Liaison Psychiatry clinical work falls into three categories: emergency department, in and out patient. The work is busy, but varied, and involves assessment of referrals from the general medical and surgical wards as well as patients following DSH and in the Emergency Department. There are also outpatient referrals from various medical specialties and opportunities for the post holder to see the full range of psychiatric presentations in a general hospital, including mood, somatoform and anxiety disorders etc; organic (delirium, dementia, atypical psychoses etc), medically unexplained symptoms, addictive disorders ,and much more! Our multidisciplinary team of doctors, nurses and psychologists are very supportive and enthusiastic. As a trainee you will learn psychiatric assessment skills, enhance your psychosocial management plans and understand the challenges and rewards of working with complex multiple pathology relating to body, mind and brain, and encouraging an integrated approach to illness and disease. The nature of the work means that co-ordination and multi-disciplinary resources are invaluable and good communication and close working with Community and Primary care services is essential. The service has an excellent Health Psychology service and trainees will be encouraged to get experience in this department. Similarly, the Old Age Liaison Psychiatry service will be able to provide experience for assessing patients with dementia, delirium and late onset disorders. Gaining better understanding of MCA 2005 and MHA 1983 and its application in acute hospital is an essential part of this post.</p> <p>Emergency medicine: The Foundation Doctor will work alongside FY1, FY2 and Higher Trainee doctors in Majors and EDOU with an intention of seeing patients with both acute psychiatric and medical conditions. The intention is to concentrate for a significant part of the time on patients with deliberate self-harm, poisoning and mental health disorders. There will be the opportunity to perform core procedures, SLEs and (dependant on shift patterns) the chance to attend the weekly junior doctors teaching both in the department and within the PGEC.</p>
Where the placement is based	Department of psychological medicine and the Emergency Department at Frimley Park Hospital
Clinical supervisor(s) for the	Dr S Lodhi (Psychiatry) and Dr A Nikpay (Emergency

placement	Department)
Main duties of the placement	Liaison Psychiatry - Assessment, diagnosis and management of self-harm, alcohol, Somatoform and Anxiety disorders EM - To see, assess and treat all acuities of emergency presentation in all age groups but with the emphasis on Psych and self-harm patients
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Monday, Wednesday and Fridays: Psychiatry clinics, ward based assessments of patients with mental health issues and ward rounds with the liaison psychiatrist (9am-5pm) Tuesday and Thursday (8am-5pm) - seeing new patients in the ED with the intention of concentrating on self-harm and mental health issues. Also have the availability for regular ED Thursday morning teaching and the F1 hospital sessions on a Tuesday.
Local education provider (LEP) / employer information	Frimley Park Hospital (FPH) is a 700 bedded NHS Foundation Trust near Camberley in Surrey serving a local population of approximately 400,000. The hospital is situated just off Junction 4 of the M3 with quick and easy access to London by car or train and is roughly an hour from the south coast. Where the placement is based	Frimley Park Hospital
Clinical supervisor(s) for the placement	Dr J Bosworth, Dr C Rees or Dr S Galli
Main duties of the placement	Daily management of in-patients. Reviewing, interpretation and management following investigations. Discharge planning. Discussions with patients and relatives.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	ON THE WARD Early morning MDT board round Ward round of all in-patients (with seniors) Jobs generated from ward round Review investigations done that day WHEN ON CALL Several week blocks of clerking acute admissions and nights
Local education provider (LEP) / employer information	Frimley Park Hospital (FPH) is a 700 bedded NHS Foundation Trust near Camberley in Surrey serving a local population of approximately 400,000. The hospital is situated just off Junction 4 of the M3 with quick and easy access to London by car or train and is roughly an hour from the south coast. It is host to a Defence Medical Group which means that Armed Forces doctors and other military personnel are integrated into the hospital workforce. Frimley Park Hospital is the first in the country to be rated as 'Outstanding' overall by England's Chief Inspector of Hospitals, Sir Mike Richards. The report published on 26 th September 2014 follows a thorough inspection of all areas of the Trust. FPH was delighted to be awarded the title Trust of the Year for the South of England in the Dr Foster Hospital Guide. FPH was also named in the top five in the new MHP Health Mandate quality index rating based on what matters most to patients.

Individual Placement Descriptor***

Trust	Frimley Park Hospital NHS Trust
Site	Frimley Park – based at a GP Practice in the surrounding area
Trainee Information System (TIS) Post Code (and local post number if known)	KSS/RDU01/800/F2/511 (posts 009, 016 and 018)
Placement details (i.e. the specialty and sub-specialty)	General Practice
Department	General Practice
Type of work to expect and learning opportunities	Predominantly clinic based. Practices aim to provide a brief (several day) induction/direct supervision period. FY2 then move to running their own clinics under indirect supervision This provides a wide range of learning opportunities. With reference to the Foundation Programme Curriculum, there are opportunities to develop good working relationships and communication with patients, demonstrate good clinical care and deal with patients with long-term conditions.
Where the placement is based	There are currently 15 practices around Frimley Park Hospital that offer GP placements for the Foundation Programme. Names of practices available on request
Clinical supervisor(s) for the placement	There are currently 18 clinical supervisors in the practices that offer GP placements for the Foundation Programme. Names of practices available on request
Main duties of the placement	To work as a training doctor within the Primary Healthcare Team. Service commitment is predominantly in running own clinics within the practices. The focus will tend to be on acute illness and new presentations although there are good opportunities to improve understanding of long-term conditions. The placement does involve weekend shifts in the Emergency Department at Frimley Park Hospital
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	10 session week with additional Emergency Department shifts at weekends Sessions nominally 08:30-12:30 (morning) and 14:00-18:00 (afternoon) One group tutorial session per week One flexible education (private study) session per week
Local education provider (LEP) / employer information	Frimley Park Hospital (FPH) is a 700 bedded NHS Foundation Trust near Camberley in Surrey serving a local population of approximately 400,000. The hospital

Individual Placement Descriptor***

Trust	Frimley Health NHS Foundation Trust
Site	Frimley Park Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	KSS/RDU01/052/F2/005 (posts 014, 021 and 023)
Placement details (i.e. the specialty and sub-specialty)	Liaison Psychiatry Emergency Medicine
Department	Department of Psychological medicine Department of Emergency Medicine
Type of work to expect and learning opportunities	<p>LIAISON PSYCHIATRY: Broadly the Working Age Adult Liaison Psychiatry clinical work falls into three categories: emergency department, in and out patient. The work is busy, but varied, and involves assessment of referrals from the general medical and surgical wards as well as patients following DSH and in the Emergency Department. There are also outpatient referrals from various medical specialties and opportunities for the post holder to see the full range of psychiatric presentations in a general hospital, including mood, somatoform and anxiety disorders etc; organic (delirium, dementia, atypical psychoses etc), medically unexplained symptoms, addictive disorders ,and much more! Our multidisciplinary team of doctors, nurses and psychologists are very supportive and enthusiastic. As a trainee you will learn psychiatric assessment skills, enhance your psychosocial management plans and understand the challenges and rewards of working with complex multiple pathology relating to body, mind and brain, and encouraging an integrated approach to illness and disease. The nature of the work means that co-ordination and multi-disciplinary resources are invaluable and good communication and close working with Community and Primary care services is essential. The service has an excellent Health Psychology service and trainees will be encouraged to get experience in this department. Similarly, the Old Age Liaison Psychiatry service will be able to provide experience for assessing patients with dementia, delirium and late onset disorders. Gaining better understanding of MCA 2005 and MHA 1983 and its application in acute hospital is an essential part of this post.</p> <p>Emergency medicine: The Foundation Doctor will work alongside FY1, FY2, ST1 and StR grade doctors in Majors and EDOU with an intention of seeing patients with both acute psychiatric and medical conditions. The intention is to concentrate for a significant part</p>

	<p>of the time on patients with deliberate self-harm, poisoning and mental health disorders.</p> <p>There will be the opportunity to perform core procedures, SLEs and (dependant on shift patterns) the chance to attend the weekly junior doctors teaching both in the department and within the PGEC.</p>
Where the placement is based	Department of psychological medicine and the Emergency Department at Frimley Park Hospital
Clinical supervisor(s) for the placement	Dr S Lodhi (Psychiatry) and Dr A Nikpay (Emergency Department)
Main duties of the placement	Liaison Psychiatry - Assessment, diagnosis and management of self-harm, alcohol, Somatoform and Anxiety disorders EM - To see, assess and treat all acuities of emergency presentation in all age groups but with the emphasis on Psych and self-harm patients
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Monday, Wednesday and Fridays: Psychiatry clinics, ward based assessments of patients with mental health issues and ward rounds with the liaison psychiatrist (9am-5pm) Tuesday and Thursday (8am-5pm) - seeing new patients in the ED with the intention of concentrating on self-harm and mental health issues. Also have the availability for regular ED Thursday morning teaching and the F2 hospital sessions on a Tuesday.
Local education provider (LEP) / employer information	<p>Frimley Park Hospital (FPH) is a 700 bedded NHS Foundation Trust near Camberley in Surrey serving a local population of approximately 400,000. Site	Frimley Park
Trainee Information System (TIS) Post Code (and local post number if known)	KSS/RDU01/040/F2/002 (posts 004, 019 and 022)
Placement details (i.e. the specialty and sub-specialty)	Obstetrics and Gynaecology
Department	Obstetrics and Gynaecology
Type of work to expect and learning opportunities	Learning management of emergency Gynaecology and early pregnancy unit under supervision, Gynae and postnatal ward work and ward rounds, assistance in theatre, sitting in clinics with Consultants
Where the placement is based	Frimley Park Hospital
Clinical supervisor(s) for the placement	Miss M Van de Venne
Main duties of the placement	Ward work, EPU and emergency Gynae cover, assisting in LSCS, P/N ward rounds, night on call
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Ward rounds, emergency cover, A/N and Gynae clinics, on-calls
Local education provider (LEP) / employer information	Frimley Park Hospital (FPH) is a 700 bedded NHS Foundation Trust near Camberley in Surrey serving a local population of approximately 400,000. The hospital is situated just off Junction 4 of the M3 with quick and easy access to London by car or train and is roughly an hour from the south coast. It is host to a Defence Medical Group which means that Armed Forces doctors and other military personnel are integrated into the hospital workforce. Frimley Park Hospital is the first in the country to be rated as 'Outstanding' overall by England's Chief Inspector of Hospitals, Sir Mike Richards. The report published on 26 th September 2014 follows a thorough inspection of all areas of the Trust. FPH was delighted to be awarded the title Trust of the Year for the South of England in the Dr Foster Hospital Guide. FPH was also named in the top five in the new MHP Health Mandate quality index rating based on what matters most to patients.

*It is important to note that this description is a typical example of the placement and may be subject to change.

Placement details (i.e. the specialty and sub-specialty)	Emergency Medicine (N/A)
Department	Department of Emergency Medicine
Type of work to expect and learning opportunities	The Foundation Doctor will work as part of a full shift pattern for junior doctors alongside FY1, ST1 and StR grade doctors seeing all acuities of patients in all age groups. There will be the opportunity to work in Resus, Majors, Minors and Paeds. There will be the opportunity to perform all the core procedures, ample time for SLEs and dependant on shift patterns the chance to attend the weekly junior doctors teaching
Where the placement is based	Emergency Department at Frimley Park Hospital
Clinical supervisor(s) for the placement	Mr P Redman, MR E Behn, Lt Col I Gurney, Lt Col J Gibbs, Dr E Edge. Dependant on allocation at beginning of year.
Main duties of the placement	To see, assess and treat all acuities of emergency presentation in all age groups
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Other than hand-over rounds twice a day, the work is ED shop-floor based seeing unselected patients in one of the 4 areas of the department
Local education provider (LEP) / employer information	Frimley Park Hospital NHS Foundation Trust is a major district general hospital located in Surrey, close to the Hampshire and east Berkshire borders. It was built in 1974 to provide a full range of district general hospital services for the population of north east Hampshire and west Surrey replacing a number of cottage hospitals. Its catchment population at that time was around 170,000. Constant development in the surrounding area has seen this figure rise steadily to more than 400,000 today, including parts of east Berkshire, and this figure is expected to grow further. Since 1996 the Trust has hosted a Ministry of Defence Hospital Unit, with military staff fully integrated with NHS colleagues across the hospital.

<https://www.nhseportfolios.org/Anon/Login/Login.aspx>

Due to its consistently strong performance over several years, Frimley Park Hospital became a foundation trust on 1 April 2005. As a foundation trust, it is accountable to its local community and aims to have representative membership of its catchment area, with members providing feedback to the Trust on the services that it provides.

During the past year Frimley has been quite literally building for the future. The face of Frimley Park has changed with the building at the front of the hospital of the state of the art new Emergency Department, helipad and day surgery unit. The £22m development, which is nearing completion, will equip the hospital to function as a trauma unit for many years to come.

A further £4m investment in the new cardiology wing, and accreditation as both a regional heart attack centre and hub for vascular surgery, have all underlined the hospital's credentials as a hyper acute centre.

*It is important to note that this description is a typical example of the placement and may be subject to change.

Intrepid Post Code (or local post number if Intrepid N/A)	KSS/RDU01/800/F2/501 (POST 16)
Programme Codes	
Placement details (i.e. the specialty and sub-specialty)	General Practice
Department	General Practice
Type of work to expect and learning opportunities	Predominantly clinic based. Practices aim to provide a brief (several day) induction/ direct supervision period. FY2 then move to running their own clinics under indirect supervision This provides a wide range of learning opportunities. With reference to the Foundation Programme Curriculum, there are particular opportunities in Relationship and communication with patients, Good clinical care and Patients with long-term conditions
Where the placement is based	There are currently 15 practices around Frimley Park Hospital that offer GP placements for the Foundation Programme. Names of practices available on request
Clinical supervisor(s) for the placement	There are currently 18 clinical supervisors in the practices that offer GP placements for the Foundation Programme. Names of practices available on request
Main duties of the placement	To work as a training doctor within the Primary Healthcare Team. Service commitment is predominantly in running own clinics within the practices. The focus will tend to be on acute illness and new presentations although there is good opportunity to improve understanding of long-term conditions. The placement does involve weekend shifts in the A&E department at Frimley Park Hospital
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	10 session week with additional A&E shifts Sessions nominally 08:30 – 12:30 (morning) and 14:00 – 18:00 (afternoon) One group tutorial session per week One flexible education (private study) session per week
Local education provider (LEP) / employer information	Frimley Park Hospital NHS Foundation Trust is a major

district general hospital located in Surrey, close to the Hampshire and east Berkshire borders. It was built in 1974 to provide a full range of district general hospital services for the population of north east Hampshire and west Surrey replacing a number of cottage hospitals. Its catchment population at that time was around 170,000. Constant development in the surrounding area has seen this figure rise steadily to more than 400,000 today, including parts of east Berkshire, and this figure is expected to grow further.

Since 1996 the Trust has hosted a Ministry of Defence Hospital Unit, with military staff fully integrated with NHS colleagues across the hospital.

Due to its consistently strong performance over several years, Frimley Park Hospital became a foundation trust on 1 April 2005. As a foundation trust, it is accountable to its local community and aims to have representative membership of its catchment area, with members providing feedback to the Trust on the services that it provides.

During the past year Frimley has been quite literally building for the future. The face of Frimley Park has changed with the building at the front of the hospital of the state of the art new Emergency Department, helipad and day surgery unit. The £22m development, which is nearing completion, will equip the hospital to function as a trauma unit for many years to come.

A further £4m investment in the new cardiology wing, and accreditation as both a regional heart attack centre and hub for vascular surgery, have all underlined the hospital's credentials as a hyper acute centre.

Its catchment population at that time was around 170,000. Constant development in the surrounding area has seen this figure rise steadily to more than 400,000 today, including parts of east Berkshire, and this figure is expected to grow further. Since 1996 the Trust has hosted a Ministry of Defence Hospital Unit, with military staff fully integrated with NHS colleagues across the hospital.

	<p>Due to its consistently strong performance over several years, Frimley Park Hospital became a foundation trust on 1 April 2005. As a foundation trust, it is accountable to its local community and aims to have representative membership of its catchment area, with members providing feedback to the Trust on the services that it provides.</p> <p>During the past year Frimley has been quite literally building for the future. The face of Frimley Park has changed with the building at the front of the hospital of the state of the art new Emergency Department, helipad and day surgery unit. The £22m development, which is nearing completion, will equip the hospital to function as a trauma unit for many years to come.</p> <p>A further £4m investment in the new cardiology wing, and accreditation as both a regional heart attack centre and hub for vascular surgery, have all underlined the hospital's credentials as a hyper acute centre.</p>

Local education provider (LEP) / employer information	
NHS Hospitals	Frimley Park Hospital
Introduction to Frimley Park Hospital	<p>Frimley Park Hospital serves more than 400,000 people across north-east Hampshire, west Surrey and east Berkshire, although its catchment for some services such as emergency vascular and heart attacks is much wider.</p> <p>Frimley Park Hospital is proud to be the first hospital in England to be rated 'Outstanding' by the Care Quality Commission in September 2014.</p> <p>In addition to the main hospital site at Frimley, Frimley Park Hospital runs outpatient and diagnostic services from Aldershot, Farnham, Fleet and Bracknell, bringing a range of services closer to these communities. From 1st October 2014, following the acquisition of services are also delivered from two other hospital sites – Heatherwood Hospital in Ascot, and Wexham Park Hospital in Slough. All three hospital sites are incorporated within Frimley Health NHS Foundation Trust.</p>

	<p>Since becoming one of the first NHS hospital trusts in the country to achieve foundation status in 2005, Frimley Park Hospital has been able to use surpluses to invest in patient services. With its new multi-million pound emergency department, which is believed to include one of the biggest resus units in the country plus purpose built day surgery unit above and a helipad, the hospital also offers a dedicated cardiology wing housing an accredited regional heart attack centre providing primary angioplasty, the gold standard emergency treatment for heart attacks, 24 hours a day, seven days a week.</p> <p>Frimley Park's maternity unit has an enviable reputation as one of the best in London and the South East. The unit was awarded the highest level 3 safety rating in the latest CNST assessment and was ranked joint top nationally in the latest CQC survey of women's experiences.</p> <p>Frimley Park Hospital has achieved NHSLA level 3 safety ratings for both acute trust and maternity services. Independent health assessor Dr Foster Intelligence named Frimley Park as Hospital Trust of the Year 2013, South of England in its Hospital Guide .</p> <p>Our friendly, caring and professional staff constantly strive to offer the best possible hospital experience for patients. In the last national staff survey, staff were rated as the most motivated of any hospital in the NHS. And staff at Frimley Park Hospital rated their hospital as one of the best in the country as a place to work or receive treatment in the latest national NHS Staff Survey.</p> <p>Frimley Park Hospital is proud to host a Ministry of Defence Hospital Unit with military surgical, medical and nursing personnel fully integrated with the hospital's NHS staff providing care to patients in all specialties.</p>
Information on Hospital Sites	<p>Frimley Park Hospital is one of the sites making up Frimley Health NHS Foundation Trust which also incorporates Wexham Park and Heatherwood hospitals.</p> <p>Frimley Park Hospital is 5 minutes walk from Frimley with the usual local amenities including a supermarket and a high street with shops, restaurants, chemist, post office and pub. Nearby Camberley, Guildford, Farnham and Windsor are easily accessible with more nightlife and cultural activities.</p>
Transport Links	<p>There is a fast train service to London from near by Farnborough. There is a local station in Frimley and an extensive bus network stops at the hospital. The hospital is situated just off junction 4 of the M3 with quick and easy access to London by car or train and is roughly an hour from the south coast.</p>
Parking	<p>There is on-site parking for doctors at a modest cost.</p>
Local Amenities	<p>Camberley (approx 3 miles) has all facilities associated with a busy town and an entertainment hub for eating, cinema, and bowling.</p>
Postgraduate Centre	<p>There is an excellent purpose built Postgraduate Education Centre which is the hub for Medical Staff. The PGEC has its own restaurant which is well used</p>

	by medical staff in the Hospital and local General Practitioners. All of the seminar rooms are well furnished and equipped. The Centre also has a purpose built simulation suite. The lecture theatre, skills room and seminar rooms all have live links to theatres, endoscopy and radiology.
Library facilities	The Health Services library is situated above the PGEC. It provides a wide range of services and also houses a PC suite. There is 24 hour access to the HSL and its IT.
IT Facilities	There are facilities in PGEC & HSL.
Other facilities	There is an on-site nursery available to staff.
Doctors' Mess	There is a well-equipped, purpose built doctor's mess in the middle of the hospital grounds. A small on-site gym is available to staff.
Trainee Life	Every year we publish the Rough Guide to Foundation Training at Frimley Park. This has all the most up-to-date tips from out going Foundation doctors to support each training post. There is a social induction in early August for all new Foundation doctors, involving evening events such as a BBQ and an evening of bowling, offering a chance to meet your peers.
