Individual Placement Descriptor***

Trust	Medway NHS Foundation Trust
Site	Dartford
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	Psychiatry (General Adult) FY1 & FY2 Posts
Department	Employing organisation: Medway NHS Foundation Trust Host organisation (if different from the above): Kent and Medway NHS and Social Care Partnership Trust
Type of work to expect and learning opportunities	<p>Foundation Curriculum The Foundation Curriculum 2016 http://www.foundationprogramme.nhs.uk/curriculum/</p> <p>Curriculum mapped outcomes to GMC standards that can be achieved whilst in Psychiatry are outlined below:</p> <p>DOMAIN 1 – Knowledge, skills and performance</p> <ul style="list-style-type: none"> • You must keep your knowledge and skills up to date. • You must recognise and work within the limits of your competence. • You must provide a good standard of practice and care. If you assess, diagnose or treat patients, you must: Promptly provide or arrange suitable advice, investigations or treatment where necessary. • You must be familiar with guidelines and developments that affect your work. • In providing clinical care you must: Prescribe drugs or treatment, including repeat prescriptions, only when you have adequate knowledge of the patient's health and are satisfied that the drugs or treatment serve the patient's needs Consult colleagues where appropriate. • Clinical records should include: <ol style="list-style-type: none"> a) Relevant clinical findings b) The decisions made and actions agreed, and who is making the decisions and agreeing the actions c) Any drugs prescribed or other investigation or Treatment <p>DOMAIN 2 – Safety and quality</p> <ul style="list-style-type: none"> • You must take part in systems of quality assurance and quality Improvement to promote patient safety. This includes: Regularly reflecting on your standards of practice and the Care you provide. • To help keep patients safe you must: Contribute to adverse event recognition and report suspected adverse drug reactions. • You must take prompt action if you think that patient safety, dignity or comfort is or may be seriously compromised. <p>DOMAIN 3 – Communication, partnership and teamwork</p> <ul style="list-style-type: none"> • You must listen to patients, take account of their

views, and respond honestly to their questions.

- You must give patients the information they want or need to know in a way they can understand. You should make sure that arrangements are made, wherever possible, to meet patients' language and communication needs.
- You must be considerate to those close to the patient and be sensitive and responsive in giving them information and support.
- When you are on duty you must be readily accessible to patients and colleagues seeking information, advice or support.
- You must work collaboratively with colleagues, respecting their skills and contributions.
- You must treat colleagues fairly and with respect.
- You must be aware of how your behaviour may influence others within and outside the team.
- Patient safety may be affected if there is not enough medical cover. So you must take up any post you have formally accepted, and work your contractual notice period before leaving a job, unless the employer has reasonable time to make other arrangements.
- You must support colleagues who have problems with their performance or health. But you must put patient safety first at all times.
- You must be polite and considerate.
- You must treat patients fairly and with respect whatever their life choices and beliefs.
- You must treat information about patients as confidential. This includes after a patient has died.

DOMAIN 4 – Maintaining trust

- You must not use your professional position to pursue a sexual or improper emotional relationship with a patient or someone close to them.
- You must not express your personal beliefs (including political, religious and moral beliefs) to patients in ways that exploit their vulnerability or are likely to cause them distress.
- The investigations or treatment you provide or arrange must be based on the assessment you and your patient make of their needs and priorities, and on your clinical judgement about the likely effectiveness of the treatment options.
- You must not refuse or delay treatment because you believe that a patient's actions or lifestyle have contributed to their condition
- You must always be honest about your experience, qualifications and current role.
- You must be honest and trustworthy in all your communication with patients and colleagues. This means you must make clear the limits of your knowledge and make reasonable checks to make sure any information you give is accurate.
- You must be honest and trustworthy when writing reports, and when completing or signing forms, reports and other documents. You must make sure that any documents you write or sign are not false or misleading.

a) You must take reasonable steps to check the information is correct

b) You must not deliberately leave out relevant information

- You must not allow any interests you have to affect the way you prescribe for, treat, refer or commission services for patients.
- If you are faced with a conflict of interest, you must be open about the conflict, declaring your interest formally, and you should be prepared to exclude yourself from decision making.
- You must not ask for or accept – from patients, colleagues or others – any inducement, gift or hospitality that may affect or be seen to affect the way you prescribe for, treat or refer patients or commission services for patients. You must not offer these inducements

Psychiatry Simulation Training for Foundation Trainees

Simulation Training for Foundation Psychiatry trainees commenced in September 2014. As part of an ongoing program, half day simulation training sessions are provided to all foundation trainees rotating in Psychiatry, during their rotation. This is organised in collaboration with Medway Maritime Foundation Trust. Simulation Training covers the following parts of the foundation curriculum:

Syllabus section 1 Mental capacity Syllabus section 1

Protection of vulnerable groups

Syllabus section 2 Communication with patients/relatives/carers

Syllabus 2 Communication in challenging circumstances

Syllabus 3 Support for patients with long term conditions

Syllabus 3 History

Syllabus 3 Physical and mental state examination

Balint Groups

Balint Groups are held weekly at each site and are attended by trainees and Consultants. A Balint group is a method of training doctors, generalists or specialists, in the doctor-patient relationship.

Journal Clubs

Journal Clubs are held weekly at each site and attended by trainees and Consultants. The presentation is usually an interesting case or critical appraisal of a journal article.

Tuesday Psychiatry teaching Programme

The Tuesday Teaching programme is rolled over eight weeks and held fortnightly alternating between East Kent and West Kent sites. The programme contains a full day of teaching which is aimed at foundation and GP trainees. The content is packed with a variety of interesting and stimulating psychiatry subjects.

Topics normally covered include:

Mental State Examination Part 1 & 2

Psychopharmacology for Primary Care

Mental Health Act
 Depression and its Management in Primary Care
 Risk Assessment & Psychiatric Emergency
 Safeguarding Adults
 Clinical Audit and Service Evaluation
 Problems in Psychiatry – Elderly/Dementia
 ADHD/ASD and Neurodevelopmental Disorders
 Schizophrenia & Related Psychoses in Primary Care
 Careers in Psychiatry
 Dissociative & Somatoform Disorders
 Eating Disorders
 Family Intervention in Mental Health
 Bi-Polar and Management in Primary Care.
 Anxiety States, OCD and PTSD Management in
 Primary Care
 Fraud Awareness
 Suicide and Self Harm
 Forensic Psychiatry
 Developmental Disorders in Child & Adolescent
 Psychiatry
 Learning Disabilities- Role of Primary Care
 Personality Disorders
 Religion In Relation to Psychiatry
 Puerperal Illness
 Managing Medically Unexplained Syndromes

- Patient safety may be affected if there is not enough medical cover. So, you must take up any post you have formally accepted, and work your contractual notice period before leaving a job, unless the employer has reasonable time to make other arrangements.
- You must support colleagues who have problems with their performance or health. But you must put patient safety first at all times.
- You must be polite and considerate.
- You must treat patients fairly and with respect whatever their life choices and beliefs.
- You must treat information about patients as confidential. This includes after a patient has died.

DOMAIN 4 – Maintaining trust

- You must not use your professional position to pursue a sexual or improper emotional relationship with a patient or someone close to them.
- You must not express your personal beliefs (including political, religious and moral beliefs) to patients in ways that exploit their vulnerability or are likely to cause them distress.
- The investigations or treatment you provide or arrange must be based on the assessment you and your patient make of their needs and priorities, and on your clinical judgement about the likely effectiveness of the treatment options.
- You must not refuse or delay treatment because you believe that a patient's actions or lifestyle have contributed to their condition
- You must always be honest about your experience, qualifications and current role.
- You must be honest and trustworthy in all your communication with patients and colleagues. This means you must make clear the limits of your knowledge and make reasonable checks to make sure any information you give is accurate.
- You must be honest and trustworthy when writing reports, and when completing or signing forms, reports and other documents. You must make sure that any documents you write, or sign are not false or misleading.

- a) You must take reasonable steps to check the information is correct
- b) You must not deliberately leave out relevant information
- You must not allow any interests you have to affect the way you prescribe for, treat, refer or commission services for patients.

- If you are faced with a conflict of interest, you must be open about the conflict, declaring your interest formally, and you should be prepared to exclude yourself from decision making.

- You must not ask for or accept – from patients, colleagues or others – any inducement, gift or hospitality that may affect or be seen to affect the way you prescribe for, treat or refer patients or commission services for patients. You must not offer these inducements

Psychiatry Simulation Training for Foundation Trainees
Simulation Training for Foundation Psychiatry trainees commenced in September 2014. As part of an ongoing program, half day simulation training sessions are provided to all foundation trainees rotating in Psychiatry, during their rotation. This is organised in collaboration with Medway Maritime Foundation Trust.

Simulation Training covers the following parts of the foundation curriculum:

Syllabus section 1 Mental capacity

Syllabus section 1 Protection of vulnerable groups

Syllabus section 2 Communication with patients/relatives/carers

Syllabus 2 Communication in challenging circumstances

Syllabus 3 Support for patients with long term conditions

Syllabus 3 History

Syllabus 3 Physical and mental state examination

Balint Groups

Balint Groups are held weekly at each site and are attended by trainees and Consultants. A Balint group is a method of training doctors, generalists or specialists, in the doctor-patient relationship.

Journal Clubs

Journal Clubs are held weekly at each site and attended by trainees and Consultants. The presentation is usually an interesting case or critical appraisal of a journal article.

Tuesday Psychiatry teaching Programme

The Tuesday Teaching programme is rolled over eight weeks and held fortnightly alternating between East Kent and West Kent sites. The programme contains a full day of teaching which is aimed at foundation and GP trainees. The content is packed with a variety of interesting and stimulating psychiatry subjects.

Topics normally covered include:

Mental State Examination Part 1 & 2

Psychopharmacology for Primary Care

Mental Health Act

Depression and its Management in Primary Care

Risk Assessment & Psychiatric Emergency

Safeguarding Adults

Clinical Audit and Service Evaluation

Problems in Psychiatry – Elderly/Dementia

ADHD/ASD and Neurodevelopmental Disorders
 Schizophrenia & Related Psychoses in Primary Care
 Careers in Psychiatry
 Dissociative & Somatoform Disorders
 Eating Disorders
 Family Intervention in Mental Health
 Bi-Polar and Management in Primary Care.
 Anxiety States, OCD and PTSD Management in Primary Care
 Fraud Awareness
 Suicide and Self Harm
 Forensic Psychiatry
 Developmental Disorders in Child & Adolescent Psychiatry
 Learning Disabilities- Role of Primary Care
 Personality Disorders
 Religion In Relation to Psychiatry
 Puerperal Illness
 Managing Medically Unexplained Syndromes
