Individual Placement Descriptor***

Trust	Northwick Park Hospital
Site	Northwick Park
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	Care of the Elderly F1 – Acute Elderly Care
Department	Geriatrics
Type of work to expect and learning opportunities	<ul style="list-style-type: none"> • Acute Floor (4th Floor) • 2 Consultants: Dr Karunaratne, Dr Abdul-Saheb • Looks after patients over 65 with care of the elderly needs (e.g. Not independent at home, cognitive impairment) on Dickens, Dryden and Carroll Wards. The firm completes a comprehensive geriatric assessment on all patients within their first few days of admission, prior to transfer to "long stay" wards (Hardy, Fielding, CMH). On average the team will look after between 15-20 patients per day, but there is high turnover due to frequent transfers between wards. This list will often include a few post- take patients admitted the previous night <p>The team</p> <ul style="list-style-type: none"> • 2 Consultants • 1 Clinical Fellow/ SpR • 2 SHOs • 1 FY1 <p>Bleeps/Contact numbers</p> <ul style="list-style-type: none"> • Consultants contactable via mobile • Reg: 177 • SHO/ FY1: 160
Where the placement is based	Northwick Park - Geriatrics
Clinical supervisor(s) for the placement	Dr Karunaratne, Dr Abdul-Saheb
Main duties of the placement	<p>Rotas</p> <ul style="list-style-type: none"> • Hours are roughly 8:45 - 5pm (9-5 on paper) • Usually you leave on time, often not much later than 5.30 unless it's a particularly busy day/friday when handing over for the weekend/ making weekend plans can take a while • Arrive at about 8.45 to print off lists and see which patients have been transferred to other wards • Banding: 1b • For leave you should contact Manjula-manjula.raithatha@nhs.net • 9x days annual leave, 4x zero days in 4 months <p>Average Day</p> <ul style="list-style-type: none"> • Sorting the list before 9 • Acute Floor Handover meeting at 9 for allocation of new patients (only one person from the team needs to attend)

	<ul style="list-style-type: none"> • Ward round from 9 till 12/1pm and jobs until the end of the day • Hand over to bleep 388/195 at the end of the day (5pm) • Note Dr Karu also works on Fielding ward and does Ward Rounds there in the afternoons <p>Typical Weekly timetable</p> <ul style="list-style-type: none"> • Tuesday: FY1 teaching 1pm • Wednesday: 1pm Geri's teaching often in SR8 Ed Centre • Thursday am: Dr Abdul-Saheb TIA clinic, Hospital Grand Round • Friday: Dr Karunaratne clinic am, FY1 teaching 2pm <p>The List</p> <ul style="list-style-type: none"> • The team use the combined acute wards list- you will be able to print a copy from any acute ward • Update at the end of each day, in particular if patients need a longstay bed
<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Typical Weekly timetable</p> <ul style="list-style-type: none"> • Tuesday: FY1 teaching 1pm • Wednesday: 1pm Geri's teaching often in SR8 Ed Centre • Thursday am: Dr Abdul-Saheb TIA clinic, Hospital Grand Round • Friday: Dr Karunaratne clinic am, FY1 teaching 2pm <p>The List</p> <ul style="list-style-type: none"> • The team use the combined acute wards list- you will be able to print a copy from any acute ward • Update at the end of each day, in particular if patients need a longstay bed <p>On Calls</p> <ul style="list-style-type: none"> • FY1 is on the general medical on call rota 2 weekends (0900-2130) in 4 months, 2x post take weeks (0800-2000), 2x short stay/ clerking weeks (0900-2130) <p>Things that you should have done by end of each day</p> <ul style="list-style-type: none"> • Tell the Ward Manager who needs a long stay bed/ can go to CMH • Put out bloods • Update the list • Handover patients who have gone to Fielding/ Hardy • Handover outstanding jobs to evening ward cover: <p>Conclusion</p> <ul style="list-style-type: none"> • You will be very well supported on this job and you will learn a lot of general medicine as there is a very high turnover of patients. • For each new patient make a summary including: date and reason for admission, full PMHx, SHx, FHx, AMTS, problem list, all relevant investigations, and dates of recent admissions. Print out recent discharge summaries and check gcis for other clinic letters/ STARRS assessments. Check body map has been done by nursing staff and that relevant care bundles are in place. Always find out the patients baseline and discuss ceilings of care early with the Consultant.

**Foundation Programme
Individual Placement Descriptor***

Trust	Northwick Park Hospital
Site	Northwick Park Hospital, spread across Edison, Eliot, Frederick Salmon, Gray, Fletcher, TAU and occasionally Dowland Wards.
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 General/Colorectal/Gastro/Laparoscopic Surgery
Department	General surgery is run as an 'Emergency Surgical Unit', there is no distinction between upper and lower GI with all patients coming under the acute consultants and F1s work for all 6 of the Emergency Surgery Consultants. There is usually 2 F1s working per week as one is often on leave and the other in HDU.
Type of work to expect and learning opportunities	<p>Working hours are Monday - Friday 8-6, 2 weeks of HDU (8-5), one week of zero days with no on calls or weekend. F1s work for the 'chronic team', on a Monday and Friday morning there is a handover meeting where patients who have had their operation or surgical management are handed from the acute on call team to the chronic team for continued surgical management. These days are often busy with a lot of TTAs, organising of investigations. One F1 normally goes on this "post take" ward round and the other stays with the chronic patients that have rolled over from the week before.</p> <p>Other days morning ward round with a registrar to see patients, see unwell patients, carry out jobs, board round at 4pm.</p> <p>Generally days are busy with lots of jobs and managing unwell patients which is good for clinical exposure and improving your time management skills.</p> <p>Large team of nurse practitioners work with team who often help do bloods, cannulas, organise investigations, able to prescribe / order imaging.</p> <p>Limited clerking experience. High turnover of patients means that F1s are continually being exposed to a reasonable level of unwell patients.</p>

	<p>However this is not excessive and often very good senior support. Opportunity to go to theatre on quieter days.</p>
Where the placement is based	Mr Gould, Mr Sen, Mr Qurashi, Mr Watfah, Mr Bokhari
Clinical supervisor(s) for the placement	See above
Main duties of the placement	<p>Monday: Handover 8am followed by post take ward round. Radiology meeting 12.30 followed by board round of all patients with consultant Tuesday: Reg round, 2pm Care of Elderly meeting - discussion of medical management of elderly patients under our care Wednesday: Reg round Thursday: Reg round Friday: Hanover 8am followed by post take ward round. Surgical teaching 12.30 (free lunch)</p> <p>HDU week: FY1 looks after 5-10 HDU patients along with consultant anaesthetist, FY1 often sees patients first in morning followed by round with anaesthetist (varies depending on consultant). Usually a consultant of the week basis. Good exposure to Art lines, central lines, non invasive ventilation etc.</p>
Typical working pattern in this placement <i>(e.g. ward rounds, clinics, theatre sessions)</i>	London North West Healthcare NHS Trust
Local education provider (LEP) / employer information	London North West Hospitals NHS Trust

Trust	Northwick Park Hospital
Site	Northwick Park Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 STARRS Post
Department	2 consultants, 1 F2, 1 F1
Type of work to expect and learning opportunities	The STARRS team (Short Term Assessment Rehabilitation and Re-ablement Service) is a large multidisciplinary team that cares for patients in the community living in Harrow and Brent. The team comprises two main services. The Rapid response service provides assessment of a patient in their own home by a nurse and a therapist. Referrals are made most often by the GP or ambulance service. The Early Supported Discharge team facilitates the safe discharge of patients from hospital, reducing length of stay.
Where the placement is based	Northwick Park Hospital
Clinical supervisor(s) for the placement	Dr. Eddy Chua
Main duties of the placement	The F2 is responsible for attending the ward rounds, home visits and see patients on ambulatory care and keeping accurate medical records. Following ward rounds they complete clinical duties as allocated by the consultant. Within the STARRs team the F2 is responsible for liaising with other members of the MDT, preparation of the virtual ward round and completion of audits.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Monday AM - Home visits/ STARRS patients attend ambulatory care PM Virtual ward round/ clerking of STARRS admissions Tuesday AM - Falls clinic PM - Virtual ward round/ clerking of STARRS admissions Wednesday

	<p>AM - Home visits/ STARRS patients attend ambulatory care PM - Virtual ward round/ clerking of STARRS admissions</p> <p>Thursday AM- Neurology clinic (Dr Mummery - rotate with other SHOs) PM - Virtual ward round/ clerking of STARRS admissions</p> <p>Friday AM - Geriatrics clinic PM - Virtual ward round/ clerking of STARRS admissions</p>

**Foundation Programme
Individual Placement Descriptor***

Trust	North West Thames Hospital Trust, Northwick Park Hospital
Site	North West Thames Hospital Trust, Northwick Park Hospital. Based mainly on Edison ward but with multiple outliers, including post-operatively in recovery/EHDU.
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 Vascular Surgery
Department	There are 7 vascular consultants, 7 registrars, an FY2, FY1 and four vascular clinical nurse practitioners (sometimes also a locum SHO cover). There is one consultant and one registrar responsible for the wards per week. The team provides a 24/7 vascular on-call service.
Type of work to expect and learning opportunities	<p>Generally ward based during the 'normal' working day and expected to deliver the daily medical care of all the patients.</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to:</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems • Educate patients effectively • Become life-long learners and teachers
Where the placement is based	Northwick Park
Clinical supervisor(s) for the placement	Mr Tahir Hussain, Ms Sophie Renton
Main duties of the placement	Management of patients on the ward and enacting the daily plan for patients (ordering scans, organising referrals etc). Additionally can be called to A&E or clinic to clerk and admit vascular patients.

<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Morning ward round at 8am till 11am then left to carry out the plan for patients and sort out administrative jobs. Finish at 1800.</p> <p>Mon: Tues: FY1 and FY2 teaching 1pm Wed: Thurs: Fri: Vasc/Radiology MDT 0915, FY1 case presentation at 1415pm</p> <p><i>Working hours 8am-6pm with no on-calls or weekends 2 week allocation to HDU during the 4 month period, followed by a zero week</i></p>

**Foundation Programme
Individual Placement Descriptor***

Trust	North West Thames Hospital Trust, Northwick Park Hospital
Site	North West London NHS Trust, Northwick Park Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 Cardiology
Department	Cardiology department is based on Jenner ward. There are 3 consultants, two responsible for 10 patients each and one responsible for 10 patients in the Chest Pain Assessment Unit (CPAU). CPAU is for a quick turnover of uncomplicated chest pain patients. There are two F1s and 2 SHOs on the ward. The Cath lab and Echo rooms are located very close to the ward.
Type of work to expect and learning opportunities	F1s are generally ward based throughout their weekly schedule and are expected to look after all aspects of patient care, admin work and seeking help from the relevant medical/surgical specialty when needed.
Where the placement is based	North West Thames Hospital Trust, Northwick Park Hospital
Clinical supervisor(s) for the placement	Dr Bethell/ Dr Violaris/ Dr. El Ghamaz
Main duties of the placement	<p>Daily ward rounds. There are daily registrar led ward rounds. Consultant ward rounds are infrequent. Usually an SHO leads the ward round but the F1 can be expected to conduct ward rounds independently occasionally. Senior advice is not difficult to obtain as there is always a ward registrar.</p> <p>After the ward round they will need to carry out relevant jobs including booking investigations, specialty referrals, chasing results and working with MDT to ensure successful and timely discharge of patients.</p> <p>One cardiology F1 will have to attend the CPAU ward round daily, ensure jobs for these patients are completed and then help with the jobs for the other ward patients.</p>
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Daily ward rounds normally start around 0900, both on Jenner and CPAU. F1/SHOs are expected to summarise patients and have all cardiology investigations printed out for ward round. Bloods should also be noted prior to ward round. One consultant conducts a ward round for his patients every Thursday. The other consultants do not regularly conduct ward

	<p>rounds. Every Tuesday there is a weekly Joint Cardiology-Cardiothoracic (JCC) meeting, where patients considered for cardiac surgery are discussed. F1s must ensure relevant paperwork for such patients are completed in advance of this meeting.</p> <p>On call requirements: Work weekends 1 in 4. (combination of ward cover and AAU). Acute week (on AAU) 1 or 2 weeks in 4 month rotation.</p>
<p>Local education provider (LEP) / employer information</p>	<p>North West London Hospitals NHS Trust</p>

*It is important to note that this description is a typical example of the placement and may be subject to change.

**Foundation Programme
Individual Placement Descriptor***

Trust	Northwick Park Hospital
Site	Northwick Park Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 Medical Gastroenterology
Department	Gastroenterology
Type of work to expect and learning opportunities	<p>Type of work:</p> <p>General Ward admin including:</p> <ul style="list-style-type: none"> • Maintaining patient lists; • Note taking on ward rounds; • Discharge summaries; • Ordering of a variety of investigations <p>Clinical skills:</p> <ul style="list-style-type: none"> • Clinical examination skills • Venupuncture • Cannulation of difficult patients • Procedures – Ascitic Taps/Drains <p>Learning opportunities:</p> <ul style="list-style-type: none"> • Supported freedom to review patients, identify issues and form and implement management plans • Numerous interesting cases for discussion with seniors, members of other teams / MDT. Especially management of palliative patients with Macmillan • Formal teaching program organised through the postgraduate centre • Weekly x-ray & MDT meetings • Opportunity to experience endoscopy / ERCP lists • On Call provides opportunity to clerk and present new patients on the post take ward round
Where the placement is based	North West Thames Hospital Trust, Northwick Park Hospital
Clinical supervisor(s) for the placement	Drs Jacyna, Pitcher, Sherman, O'Brien, Sharif
Main duties of the placement	As above
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	There is a consultant ward round every day of the week. Monday Dr Jacyna, Tuesday Dr Sherman or Dr O'Brien, Wed St Marks consultant review, Thursday Dr Pitcher, Friday Dr Sharif. Dr Jacyna usually sees all the pts. Dr Pitcher sees new pts and luminal pts, Dr Sharif sees new pts and liver pts on Byrd wards. The others usually see any new/sick patients. I know this may be subject to change with consultant of the week coming in. Usually

	<p>day involves coming in for 8:30 am update the list with any new patients that have arrived. Handover 9-09:30 attended by one member of the team. Most consultants begin the ward round on FSW at 10:00 so after handover we have to summarise any new patients, and print up the updated list. During the consultant ward round, jobs include scribing/doing jobs generated. This can include blood, investigations requests, consultant referrals. After the ward round any practical procedures e.g Ascitic drains/taps and TTA's can be done. In the afternoon, we then update the list with bloods and outcomes of any investigations. We usually have a paper round with the reg/SHOs in the afternoon as well to update the whole team (this is very much dependent on the team).</p>

Individual Placement Descriptor***

Trust	Northwick Park Hospital
Site	Northwick Park Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	Ortho-Geriatrics F1
Department	Geriatrics
Type of work to expect and learning opportunities	<p>Intro to the firm</p> <ul style="list-style-type: none"> • Ortho-geriatrics team looks after all Fractured Neck or Femur (NOF) patients coming onto Evelyn Ward • Also medical outliers who are on the ward (as the ward is predominantly Orthopaedic) • The NOF patients are technically under the Orthopaedics team, but you are managing their medical side <p>How to get urgent clinical advice and urgent investigations</p> <ul style="list-style-type: none"> • Dr B is always available via mobile for help and advice • The registrar is shared with Hardy ward but can be contacted for help
Where the placement is based	Northwick Park Hospital
Clinical supervisor(s) for the placement	Consultant – Dr. Bhattacharyya
Main duties of the placement	<ul style="list-style-type: none"> • Check on trauma/ ask the Orthopaedic doctors for any new #NOFs • Check the whiteboard for any new medical patients • If so Dr Bhattacharyya will automatically take over – so you need to check the post take sheet and review the plan • Dr B WRs on Mondays and Thursday • Other days, text Dr B to let him know of whether there are any new patients • If so, he will come in and review them • Occasionally a new one will be in A&E/ on their way to theatre, in which case you will let him know and go straight there to see them • Ideally, especially with #NOFs, you will want to see them prior to surgery • Most of the patients will be on Evelyn but just double check that there aren't any other NOFs on Eliot and Edison • Make sure that the first time you see a #NOF, you fill in the 'Orthogeriatrics' part of the #NOF protocol

- The Orthopaedics team will have to fill in the first part of the protocol
 - Make sure you do an AMTS on new patients – technically could be done by Ortho
 - Usual bloods for new #NOFs: vit B12, folate, TFTs, PTH, vit D
 - Most patients will be put onto Adcal D3 and Alendronate as their bone protection post NOF
 - If they have oesophagitis, or history of GI bleeding, hold the Alendronate and check with Dr B
 - Similarly if they are relatively young, then you might want to investigate it prior to starting bone protection: eGFR, DEXA scan and refer them to Rheumatology who will review
 - Patients with #NOFs should be being mobilised after day 3 post op with physiotherapy
 - Transfer to CMH Gladstone 4 if main barrier to going home is mobilisation
 - Fill in a yellow form (ask the nurses) called 'Patient transfer document', with the main pre and peri operative problems
 - Sometimes we give them a call to handover too – numbers at the bottom of the handover sheet
 - #NOF patients aren't technically yours so you don't have to do the EDNs
 - Usually we do a little 'Orthogeris input' section in the notes bit and add anything that's happened in hospital
 - We have a Handover list on the Desktop folder of the middle computer in Evelyn ward; under the name 'Dr Bhattacharyya'. This is the one you update everyday.
 - There is a reg 50% of the time, they are split with hardy ward and don't have a bleep. Though can always contact by mobile so not a problem
 - Handover to 167 at the end of the day
- On Calls**
- Jobs for Orthogeriatric patients are handed-over to the Ortho SHO on-call at 5pm (bleep 024)
 - WEEKEND: Leave two lists pinned on the board in the trauma room for the Ortho SHO. Leave one list in the green folder in Dickens for the Care of the Elderly weekend cover (does not normally review Orthogeriatric pts) in case they are asked to review the patient by Ortho.
 - F1s: You are on the medical on call rota
 - F2s
 - o 5-7pm (bleep 167, found in the Doctor's Office on Fielding Ward)
 - o ID and Haem on-calls: 5-9pm: Bleep 506 (go to Clarke Ward to receive handover). This bleep must be handed over to the night ward cover SHO on AAU at 9pm. Take the bleep number of the ID SpR on-call when you start. They are on-site till 7pm, any issues after 7pm should be d/w ID Consultant on-call via switchboard. The ID SpR will inform you of any new admissions to be clerked in. Any requests for admission after 7pm need to go via the Medical SpR (003).
- Meetings

	<ul style="list-style-type: none"> • MDT meeting Tues 11:30am - on Evelyn Ward at the entrance of the ward, first door on the left as you come in • Radiology meeting Thurs 9am – usually we don't go as Dr B does his ward round at that time, but if there's something specific you want a consultant radiologist opinion on, this is a good chance. It's in the radiology conference room
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Typical working pattern in this post e.g. ward rounds, clinics, theatre sessions Daily/weekly/monthly (if applicable) <ul style="list-style-type: none"> • Monday: AM Consultant led ward round • Tuesday: 11:30am – MDT • Wednesday: 1pm – Geris meeting • Thursday: Consultant led ward round/ Geris Radiology meeting at 9am, 12:45pm – Grand Round • Friday

Trust	Northwick Park Hospital
Site	North West London Hospitals NHS Trust Northwick Park Hospital, Jack's Place and Paediatric A&E
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 General Paediatrics
Department	<p>Paediatric Services at The North West London Hospitals NHS Trust are provided at both Northwick Park Hospital (NPH) and Central Middlesex Hospital (CMH). The F1 placement is based at NPH.</p> <p>The service at NPH provides inpatient beds on Jack's Place children's ward, a 'day care' unit and outpatients department.</p> <p>There is a dedicated 24hr children's accident and emergency department within main A&E and has an adjacent observation unit.</p> <p>NPH also has a dedicated neonatal intensive care unit and a community paediatric unit for Harrow. The F1 has the opportunity to spend 2 weeks in the neonatal unit and 2 week in community paediatrics.</p>
Type of work to expect and learning opportunities	<p>F1 Doctors will alternate their work in the ward and A&E weekly. In the 'normal' working day on the ward the F1 is expected to deliver the daily medical care of all the patients on their ward irrespective of specialty. During A&E the F1 will be involved with the generic clerking of patients being admitted and the ongoing care of the patients in the unit.</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care

	<ul style="list-style-type: none"> • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems • Educate patients effectively • Become life-long learners and teachers. • To regularly liaise with tertiary centres like GOSH and the Brompton and to attempt supervised procedures like venepuncture, heel pricks and cannulation.
Where the placement is based	North West London Hospitals NHS Trust Northwick Park Hospital, Jack's Place and Paediatric A&E
Clinical supervisor(s) for the placement	Dr Wolfgang Muller, Dr Steve Koury
Main duties of the placement	<p>The F1 doctor is responsible with other staff for the ward care of patients and the maintenance of the patient's medical record. They are expected to attend the structured teaching programmes provided by the department. The doctor will be responsible for such other specific clinical duties as allocated by consultants, registrars and SHOs including performing other duties in occasional emergencies and unforeseen circumstances.</p> <p>During A&E the F1 doctor has the opportunity to initially clerk and examine patients and present and review them with the registrar/consultant. This is a great opportunity for learning and case based discussion.</p>
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Ward Week:</p> <p>Mon-Fri: 8am handover; 9am Ward round and ward jobs; Finish 5:30pm</p> <p>Mon – 12.30 Radiology Meeting Tues – 12:00 Psychosocial Meeting 13:00 Paediatric Grandround / F1 teaching</p> <p>Wed - 8.30am SHO teaching Thus - 8.30am Consultant teaching Fri - 8.30am Registrar teaching</p> <p>A&E Week:</p> <p>Mon - Fri: Discharge Summaries and A&E Finish 4.30pm</p> <p>Sat & Sun: 1 in 4 - 8am Handover, 9am Ward Round – finish 8:30pm</p>

Main duties of the placement	<ul style="list-style-type: none"> • Try and plan leave as early as possible • Dr Datta coordinates the leave rota • Depends on staffing levels on the ward • If you want leave during on calls or AAU commitments you need to make Helen Linnane aware

	<ul style="list-style-type: none"> Your responsibility to arrange the necessary swaps
<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<ul style="list-style-type: none"> Ward list from the nursing station Update the patient list as needed We have been using the computer in the doctors' office for this <ul style="list-style-type: none"> Email the list to yourself so you can print it from another computer MDT meeting at 9ish every day at the nurses' station This keeps you up to date with everything that is going on with all the patients A member of the team (usually SHO or SpR) needs to attend the AAU handover [Dickens Meeting Room] New patients will be allocated Important that whoever attends knows the number of patients under Respiratory care, as this will inform how many new patients you can accept A member or two of the team needs to then see and manage the patients on AAU and SSU. 2 Consultants on for the week [Thursday to Thursday; 1 for Gaskell; 1 for outliers] The rest of the day involves seeing all the patients and doing the jobs <ul style="list-style-type: none"> Mon: 1pm Consultant/Reg lead teaching for Resp Juniors Tues: 1pm, 12.30pm Lung Radiology meeting (you normally miss it due to FY1 teaching, but try and come to the first half hour) Weds: AM Bronchoscopy (try to attend once or twice), 1pm AAU teaching Thurs: 1pm Grand Round in Fri: 2.15pm FY1 teaching Lung MDT (only seniors attend but add patients onto it via Anita, try and attend once or twice) <p>The List</p> <ul style="list-style-type: none"> Ward list from the nursing station Update the patient list as needed We have been using the computer in the doctors' office for this <ul style="list-style-type: none"> Email the list to yourself so you can print it from another computer <p>Ward Rounds</p> <ul style="list-style-type: none"> Patients allocated to either Dr Tennant/Dr Datta, or Dr Ornel For all consultants, important to know about each patient <p>Dr Ornel's ward round</p>

- o On Tuesdays and Thursdays
 - o Text Dr Ornel in the morning to check when he is able to start
 - o For new patients, try to have their history and investigations ready
 - o He may also wish to go through the notes and investigations himself
 - o For existing patients give a summary to remind him
- Dr Tennant's ward round
- o On Mondays and Fridays
 - o Dr Tennant will let you know when she plans to do her ward round
 - o For new patients prepare a summary of the patient
 - o She may wish to go through the notes and investigation herself
 - o For existing patients give a summary to remind her
- Dr Datta's ward round
- o Mondays and Fridays, he will let you know when his ward round will be
 - o Very thorough and also very fast
 - o Must know all the patients beforehand
 - o Gather his patients' notes in the doctors' office
 - o He will go through all of his patients in the doctors office and formulate provisional plans
 - o Then see the patients and decide on clear plans for them
 - o We usually take key notes during the ward round, and then formally write in the patients' notes immediately after the round
- Twice weekly consultant ward rounds
 - The remaining days there are junior or SpR lead WRs
- Specialty specific information
- Arrange follow-up appointments by printing out EDNs and giving to Anita
 - Placed in a tray on Gaskell
 - Should be given to secretaries at the end of each day
 - Level 6 opposite the stairs/lifts – lung function labs (where you request lung functions tests and may be called to do ABGs some mornings); outpatient requests are via ICE
 - For outpatient spirometry, fill in a lung function request envelope/form and drop in the box outside the lung function room
 - For outpatient imaging, fill in a blue Radiology request card making it clear that it is an outpatient request, and roughly when the scan needs to be done

	<ul style="list-style-type: none"> • Also add outpatient requests to EDN and highlight to Anita • Send pleural fluid for cytology, MC&S, AFBs, amylase, LDH, glucose, protein • Bronchoscopy: Anita can schedule these for in- and outpatients • Home oxygen: fill in a HOOOF(B) form (signed by pt/carer) after discussing with SpR or consultant and fax to Air Liquide • Pleurodesis: with doxycycline - a senior decision - prescribe doxy 500mg intrapleural on STAT side of drug chart and write underneath 'to be administered by doctor for pleurodesis'. Highlight this to pharmacy for ordering the supply • Imaging guided biopsy: Fill in blue radiology form and discuss with lung radiologists. Pts need recent clotting, platelets and spirometry • Spirometry: fill in form and drop in box outside lung function room, also a portable machine on the ward in the controlled drugs cupboard • You may be called to do ABGs in lung function or clinic/ambulatory care • Outpatients post lung biopsy may need to have their CXRs reviewed to rule out pneumothorax before discharge - can discuss with SpRs or radiologists if any doubt • Patients admitted directly to the ward will need admission booklets and drug charts filled <p>On Calls</p> <ul style="list-style-type: none"> • You are on the medical on call rota <p>Meetings</p> <ul style="list-style-type: none"> • 1pm Wed - let Anita know before midday Tues if anyone needs to be added • 12.30pm Lung Radiology meeting (you normally miss it due to FY1 teaching, but try and come to the first half hour) <p>It's a busy job but the consultants are very reasonable and there's normally enough support so make the most of it, learn procedures and you will gain a lot from the experience!</p>

Individual Placement Descriptor***

Trust	Northwick Park Hospital
Site	Northwick Park Hospital – Patients are mainly based on Dowland, the urology ward, but frequently in many other wards across the hospital.
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 Respiratory Medicine
Department	The department of urology comprises 7 consultant urologists, each spending one week on call. The team also comprises 9 registrars (with one assigned to ward cover at all times), 3 SHOs and 3 F1s (all of which are based on the ward).
Type of work to expect and learning opportunities	Essentially a ward based job comprising the day-to-day management of ward based patients, but with ample opportunities to attend theatre or clinics for learning, usually there is plenty of ward cover if you would like to get away from the ward for other purposes ie. audits etc.. The urology job includes spending 2 weeks in the surgical elective high dependency unit (eHDU) which involves overseeing approximately 8-10 eHDU patients with consultant anaesthetist and relevant teams looking after the patients.
Where the placement is based	Northwick Park F1 Urology
Clinical supervisor(s) for the placement	Mr. Erik Havranek, Mr Rajesh Kavia
Main duties of the placement	Responsible for the ward care of urology patients, including maintenance of medical record, updating handover lists, ordering radiological investigations and interventions and facilitating patient discharge. Frequent opportunities to engage in lecture based/practical teaching organised by postgraduate education department and urology department.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Mon – Friday 8am -5pm, with 1 in 6 long days (8am – 8pm).</p> <p>Daily 8am ward round led by registrar or consultant, opportunity for theatre any weekday afternoon when ample ward cover.</p> <p>Mon: Ward jobs Tues: Ward jobs / FY1 teaching, 1pm Wed: Ward jobs / Urology teaching, 1pm Thurs: Ward jobs Fri: Ward jobs/ FY1/FY2 teaching, 2:15 pm Sat: 1 in 6 on call</p>

	Sun: 1 in 6 on call Urology Weekend cover requirements: 1 in 6 (8am – 8pm) Ward cover
Local education provider (LEP) / employer information	North West London Hospitals NHS Trust

F1 - Individual Placement Descriptors

**Foundation Programme
Individual Placement Descriptor***

Trust	London North West Healthcare NHS Trust -
Site	Cross-site Northwick Park and Central Middlesex
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 Emergency Medicine
Department	Emergency Medicine at Northwick Park is a busy department where more than 200 people may present in 24 hours. Central Middlesex Hospital does not have a Paediatric A&E unlike Northwick Park, however a full range of adult patients will present during the day. F2s do not work night shifts at Central Middlesex. Both Northwick Park and Central Middlesex have an Urgent Care Centre, which is mainly GP run and will often refer patients needing further treatment to Emergency Medicine. Central Middlesex has limited services and some patients will need to be transferred to Northwick Park for further treatment. It is expected that 1/5th of all patients seen will be Paediatric patients.
Type of work to expect and learning opportunities	<p>Seeing a variety of patients in majors, minors, resus and paed, from the acutely unwell, to those needing outpatient investigations, and those who need reassurance after a benign diagnosis.</p> <p>Learning opportunities are varied and include formal teaching for F2s for 2 hours a week of protected time in addition to postgraduate teaching.</p> <p>Discussing cases with Emergency Medicine middle grades and Consultants.</p> <p>All F2s will be expected to carry out a departmental audit during their rotation.</p> <p>Work based assessment to be completed as per the requirement on E-portfolio.</p>
Where the placement is based	London North West Healthcare NHS Trust - Emergency Medicine
Clinical supervisor(s) for the placement	One of the Emergency Medicine Consultants.
Main duties of the placement	<p>See patients and either discharge or admit, referring to more senior colleagues when needed.</p> <p>Treatments can be given in A&E with the intention to discharge, or to stabilize the patient before admission to another specialty.</p>

	<p>Learn how to manage a “blue call” i.e. patients who are urgently brought to A+E by ambulance that require immediate assessment.</p> <p>Frontline treatment for patients with suspected stroke and for possible thrombolysis.</p> <p>Liaising with tertiary centres for further treatment of patients.</p> <p>All patients must be seen and managed (discharged or referred on to another specialty) within the 4 hour breach time.</p>
<p>Typical working pattern in this placement (<i>e.g. ward rounds, clinics, theatre sessions</i>)</p>	<p>Approx 3.5 week rolling rota, with 1 of the weeks off (usually after night shifts), and working through the rest of the days.</p> <p>Generally 10 hour shifts a day, some shorter 8 hour shifts. Includes twilight shifts (4:00pm to 2:00am) and night shifts (10:00pm to 8:00am)</p> <p><i>On call requirements:</i> 1 in 2 weekends, 3 or 4 nights every 3.5 weeks.</p>
<p>Local education provider (LEP) / employer information</p>	<p>London North West Healthcare NHS Trust</p>

Trust	London North West Healthcare NHS Trust
Site	Northwick Park Hospital ITU
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 ITU
Department	The ITU department consists of 10 consultants that rotate weekly from NPH. They have background in medicine or anaesthetics. There are up to 12 beds on the unit.
Type of work to expect and learning opportunities	ITU is consultant-lead with support from the on call ITU registrar. Juniors are expected to be present on the morning and afternoon ward rounds. Patients are examined prior to morning ward round and presented to the consultant on the ward round. SHOs can usually expect to see 2-3 patients a day in most circumstances. There is thus much time for teaching and developing practical skills during the afternoon. An F2 in ITU can expect to have many chances to practice arterial lines, central lines and Vascaths, as well as learning ultrasound techniques. This is an un-banded post so you can either work 4 long days or 5 standard days. Ward round starts at 08:00.
Where the placement is based	Northwick Park Hospital ITU
Clinical supervisor(s) for the placement	Dr. Jacek Borkowski
Main duties of the placement	<ul style="list-style-type: none"> • Daily patient reviews • Ordering imaging requests • Making referrals to other specialties • Liaise with GP • Complete discharge summaries and handover to the wards • Update families • Practical procedures under supervision <p>Juniors are NOT expected to accept/refuse ITU admissions</p>

Trust	London North West Healthcare NHS Trust
Site	Microbiology Department, Northwick Park Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 Medical Microbiology
Department	There are 3 Consultants (two based purely at Northwick Park and one who works between Northwick Park and Central Middlesex/Ealing) in the department and the F2. The Consultant on call is shared with Ealing Hospital, which has two further Microbiology Consultants. The Lab Staff (Biomedical Scientists) are highly knowledgeable and skilled. The department serves Northwick Park, Central Middlesex and St Mark's Hospitals, as well as local GP practices.
Type of work to expect and learning opportunities	<p>Daily Consultant-led bench round (Blood cultures, respiratory, enterics, urine, wound/swabs, mycology and serology), with the Infection Control Nurses and Antibiotic Pharmacist.</p> <p>It is usually the F2s' responsibility to contact the clinical teams with positive culture results each morning and obtain a brief summary of the clinical picture to present on the bench rounds.</p> <p>With time, the F2 is expected to be able to provide basic advice when discussing positive cultures. However, all advice given must be conferred with the microbiology consultant on the round.</p> <p>In addition to the bench round, telephone consultations are received throughout the day. These are usually taken by the consultants but the F2 may take them if the consultant is busy or unavailable. They will expect the F2 to discuss any advice they give, particularly when they start.</p> <p>There are some weekly antibiotic rounds or meetings with specific teams e.g. ITU on Wednesdays.</p> <p>There is a TB/Infectious Diseases clinic is every Wednesday afternoon: The F2 sees patients on TB treatment and checks for compliance, side-effects and ensure adequate response to treatment. Management of all cases is discussed with the SpR/Consultant in clinic. Occasionally, non-TB patients will also be in clinic.</p>

	<p>Infectious Diseases MDT every Friday: Formal paper ward round where the ID patients are presented by the F2s/SpRs and discussed.</p> <p>Teaching:</p> <ul style="list-style-type: none"> -Foundation teaching on Tuesday -Morning Report on Wednesday mornings (optional) -AAU Teaching on Wednesday (optional) - Microbiology Lab Teaching on Wednesday (optional) -Grand Round on Thursday (optional) -Foundation teaching/Vignettes on Friday - Monthly Microbiology CPD teaching <p>The F2 is expected to present an interesting clinical topic to the Microbiology department, including the laboratory staff, during the rotation.</p> <p>There is the opportunity for audits/publications.</p>
Where the placement is based	Northwick Park Hospital Microbiology Department
Clinical supervisor(s) for the placement	Dr G Gopal Rao, Dr P Khanna
Main duties of the placement	<p>As above.</p> <p>A detailed induction and guide to the job has been written as an F2 handover in the department</p>
Typical working pattern in this placement (<i>e.g. ward rounds, clinics, theatre sessions</i>)	<p>The job is Monday-Friday, 9:00am-5:00pm. No weekends/zero days.</p> <p>Lunch is variable. Bench rounds 11:30am (Fri 11:00am)</p> <p>Consultation times 10-11:30am and 2-4:30pm</p> <p><i>On call requirements:</i> None</p>
