Site	Sterling Way, Edmonton N18 1QX
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 General Psychiatry
Department	<p>The trainee will join the West Support and Recovery Team, part of the Psychosis Service line covering the West of the Borough of Haringey. The team is based at the Canning crescent Centre in Wood Green. The Support and Recovery Team is a multidisciplinary team, which works with those with severe and enduring mental illness, on Enhanced CPA.</p> <p>The trainee will assist in the assessment and management of patients under supervision of the consultant Dr Douglas. This will occur in a clinic setting and in the patient's own home. The trainee will also join other members of the team on their visits to gain experience of how each member of the team contributes towards the Recovery process.</p> <p>The team is currently made up of a consultant, a specialist registrar, a core trainee and a team of approximately 11 care coordinators, from nursing and social work backgrounds. There is a team meeting once per week, which the F1 will be encouraged to take an active part in.</p>
Type of work to expect and learning opportunities	<p>Under current arrangements the F1 will review approximately 9 patients in 3 clinics per week. These occur at the same time as the consultant's clinic, so the consultant will be able to assist and supervise as necessary. The first month will be spent shadowing the consultant and other senior staff.</p> <p>The trainee should gain experience of diagnosis and management of patients with severe mental illness and its effects on their social situation by observation of other team members, shadowing the consultant and reviewing patients themselves with other members of the team.</p> <p>There are also medical students with the team from UCL and St George's Grenada and the F1 would be expected to participate in their teaching and evaluation.</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to achieve the relevant competencies</p> <ul style="list-style-type: none"> • Providing a good standard of practice and care. • Undertake clinical assessment of patients with mental health problems • Manage chronic illness • Use the results of the clinical assessment to ensure effective patient management • Manage emergencies • Maintain and use systems to update knowledge and its application to any aspect of your professional practice • Monitor and maintain professional performance • Plan, deliver, and evaluate teaching and learning

	<p>in a variety of environments</p> <ul style="list-style-type: none"> • Conduct professional patient relationships • Help patients make sense of their illness experience
Where the placement is based	St Ann's Hospital
Clinical supervisor(s) for the placement	Dr S Lorenz
Main duties of the placement	The F1 doctor is responsible with other staff for the community care of patients and the maintenance of the patient's electronic medical records. They will have opportunity to work with the consultants in outpatients clinics for at least three day each week and also conduct home visits with more experienced members of the multi-disciplinary team. They are expected to attend the structured teaching programmes provided by the department. They will have the opportunity to conduct small group teaching sessions with medical students. The doctor will be responsible for such other specific clinical duties as allocated by consultants including performing other duties in occasional emergencies and unforeseen circumstances.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Mon: am clinic pm home visits//admin /emergencies Tues: am Clinic pm Grand round Wed: am Team meeting pm Academic - FY1 teaching programme Thurs: am clinic pm supervision with consultant Fri: am home visits pm teaching with students <i>On call requirements:</i> 1 in 14 (until 10pm then on call from home)</p>
Local education provider (LEP) / employer information	<p>The employer is North Middlesex University Hospital NHS Trust. The post will be based in a community mental health team base in the west of Haringey, within the Barnet, Enfield and Haringey Mental Health NHS Trust (BEHMHT).</p> <p>BEHMHT is one of the country's largest Mental Health Trusts, with over 2,500 staff and an income of around £175 million. The Trust was formed in 2001, bringing together specialist mental health services across North London. Our mission is to improve the mental health and wellbeing of all the people we serve. We do this by working in partnership with others to provide outstanding care which is responsive to the needs of our culturally diverse population. Our care is focused on promoting service users' recovery so that they can regain control over their lives.</p> <p>We provide specialist mental health services to the 800,000 people living in Barnet, Enfield and Haringey and a range of very specialist mental health services for people living further afield, including:</p> <ul style="list-style-type: none"> • Forensic services for people with severe mental health problems who have entered the criminal justice system • Inpatient therapeutic support for children and adolescents • Eating disorder services • Liaison Psychiatry services

	<p>Our vision is to become an NHS Foundation Trust which is recognised as providing excellent quality, value for money, services for people with mental health problems and their carers. Our services need to continually develop to meet the changing needs of our local population. We are changing the way we provide services and where they are provided from. This includes providing more care nearer to where people live by basing more of our services in the community and in primary care.</p>

Placement details (i.e. the specialty and sub-specialty)	F2 – Paediatrics
Department	18 Consultants, 16 WTE Registrar rota 18 WTE SHO rota, 1 FY2 and 2 FY1 doctors
Type of work to expect and learning opportunities	<p>Junior doctors in the paediatric department at North Middlesex Hospital have the opportunity to gain excellent clinical experience in a supportive and friendly environment. The paediatric A&E is one of the busiest in London and serves a diverse population. There is an outstanding child safeguarding team who advise on clinical cases and provide training for all junior doctors. There are numerous outpatient clinics, including several specialty clinics. In particular there is a tertiary haemoglobinopathy service, a busy allergy service, and cardiology clinics with the opportunity to gain experience in echocardiography.</p> <p>The neonatal unit is level 2. Junior doctors gain experience in the resuscitation and stabilisation of sick and preterm babies, with consultant supervision.</p> <p>There is a structured departmental teaching and training programme, as well as numerous opportunities to become involved in quality improvement and research. We encourage doctors at all levels to become in these projects.</p>
Where the placement is based	North Middlesex University Hospital NHS Trust
Clinical supervisor(s) for the placement	Dr Olu Wilkey, Dr C Tipper, Dr Linda Walker, Dr A Nambisan, Dr Ian Gregory
Main duties of the placement	Participate in ward rounds, attend MDT meetings, assessment of patients in A&E/PAU, attend deliveries on labour ward, work on the day assessment unit.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>There is a daily handover at 08.30 on both the general wards and neonatal unit. There are 3 SHOs covering the neonatal unit, labour ward and postnatal ward. 4 SHOs cover the general paediatric side which includes Rainbow Ward, Starlight Ward, Paediatric Day Assessment Unit (PDAU) and the Paediatric Assessment Unit (PAU) and A&E. There are 3 SHOs working every evening on a 'long day'. One SHO will be on the neonatal unit and the other 2 will be covering the paediatric wards, PAU and A&E.</p> <p>2 SHOs cover the night shifts, one for neonates and one for paediatrics.</p> <p>The whole department aims to function as one team, and we expect that junior doctors to support each other during busy periods and emergencies, even if</p>
	<p>they have not been allocated to that particular area for the shift.</p> <p>There is departmental Teaching Tues, Wed and Fri Morning after handover which includes, presentations on common paediatric topics, simulation teaching, and</p>

	<p>reflective sessions. There is an x-ray meeting on Monday, a regional paediatric case exchange on Tuesday, a NICU grand round Wednesday afternoon and a psychosocial meeting Thursday for learning opportunities. Trainees have access to protected foundation doctor training sessions organized by the trust.</p>
