

## HEE - London

### Trust Information – O&G

Trust
Imperial College Healthcare NHS Trust
Hospital Name
Queen Charlotte's and Chelsea Hospital
Description of Unit
<p>Tertiary level obstetrics and gynaecology unit, Imperial College London.</p> <p>General gynaecology services receive 18,000 new referrals annually with a further 700 new referrals to the West London Gynaecological Cancer Centre (WLGCC) based at Queen Charlotte's &amp; Chelsea Hospital.</p> <p>We offer consultant-led emergency gynaecology on both sites through the gynaecology emergency rooms (GER) at St Mary's and early pregnancy and gynaecology unit (EPAGU) at Queen Charlotte's &amp; Chelsea.</p> <p>The gynaecology department also has an active ongoing programme for research and development. The Trust has pioneered research into the management of women with fibroids, working closely in collaboration with the radiology department at St Mary's Hospital.</p>
Conditions and treatments
<p>The Trust's gynaecology service provides specialist care and clinics in the following areas:</p> <ul style="list-style-type: none"><li>• Colposcopy</li><li>• Disorders of sexual development and adolescent gynaecology</li><li>• Emergency gynaecology</li><li>• Endometriosis</li><li>• Female genital mutilation (FGM)</li><li>• Fibroids</li><li>• Gynaecological cancer</li><li>• Hysteroscopy</li><li>• Urogynaecology</li><li>• Vulvar disease</li><li>• Termination of pregnancy</li></ul> <p>We also offer a growing community gynaecology service, rapid access for urgent gynaecological care, and minimal access surgery for gynaecology.</p>

We perform over 1000 outpatient day case procedures each year, reducing time spent in hospital and allowing patients to recover comfortably at home.

Treatment of polyps, removal of lost IUCDs, hysteroscopic sterilisation and fibroid resection (myosure) are routinely offered and the service is now developing further to offer outpatient endometrial ablations.
