Training Details

(Description of post)

This post is suitable for those who wish to undertake specialist training in orthodontics and will prepare the individual for the Membership in Orthodontics examination of the Royal College. The post offers broad experience in all aspects of orthodontics and provides an exciting opportunity to be involved in providing orthodontic services to the local community. Duties include clinical sessions, and involvement in teaching and mentoring more junior staff. The post holder will be expected to treat a range of patients in accordance with departmental guidelines. The post holder will be encouraged to develop their clinical skills and progress in the post, taking on increasingly complex patients and caseload. Whilst service delivery is important, contributions to the wider Trust/s in fields such as audit, outcomes, research, management and teaching will be encouraged.

The post will be based at King's College Hospital and St George's NHS Trust

As an employee of the Trust you will work in close co-operation with, and support other clinical, dental professional and managerial colleagues in providing high quality healthcare to the Trust's patients. Integral to these responsibilities is the following:-

- The provision of a first-class clinical service
- Effective leadership to all staff engaged in the specialty
- Undertaking all work in accordance with the Trust's procedures and operating policies
- Conducting clinical practice in accordance with contractual requirements and within the parameters of the Trust's service plans
- Maintaining the confidence of business plans and development strategies formulated for the specialty, the Care Group or the Trust

Duties and Responsibilities of post-holder

- History taking and treatment planning for new patients prior to and in conjunction with the Consultant Orthodontist.
- Treatment of patients, under supervision, with a wide range of malocclusions of varying complexity utilising a range of appliance systems.
- Attend and participate in multidisciplinary clinics.
- As part of the curriculum, assessments will be used to assess key competencies with work based assessments (WBA) throughout the three year period. This will include Direct Observation Procedures (DOPS), Case Based Discussions (CBD), Clinical Evaluation Exercises (CEX) and Multi Source Feedback (MSF) during the training period.
- Attend and participate in regular journal club meetings.
- Participate in the audit programme and present at departmental audit meetings.
- Maintain the database of patients under individual care and a personal log book of caseload.

Undertake other administrative duties as required to assist in the smooth running of the departments and provide a high standard of patient care

Description of main training site

King's Health Partners (KHP) comprises King's College London, Guy's and St Thomas' NHS Foundation Trust, King's College Hospital NHS Foundation Trust and South London and Maudsley NHS Foundation Trust and is one of just five accredited UK Academic Health Sciences Centres (AHSCs). Through our AHSC, we are committed to making research and education integral to the delivery of high-quality clinical care. The King's Health Partners Integrated Cancer Centre (ICC) is the vehicle for developing and managing cancer research, clinical services, and training and development across all of the KHP partner organisations.

We provide a full range of hospital services for our local communities, as well as community health services for people living in Lambeth and Southwark. We also provide specialist services for patients from further afield, including cancer, cardiac, kidney, women's and orthopaedic services, and we are home to the Evelina Children's Hospital. We have one of the largest critical care units in the UK and one of the busiest A&E departments in London. See www.guysandstthomas.nhs.uk for further details.

We are part of King's Health Partners Academic Health Sciences Centre (AHSC), a pioneering collaboration between one of the world's leading research-led universities and three of London's most successful NHS Foundation Trusts. Our AHSC is one of only five in the UK and consists of King's College London and Guy's and St Thomas', King's

College Hospital and South London and Maudsley NHS Foundation Trusts. Our AHSC brings together the best of basic and translational research, clinical excellence and world-class teaching to deliver groundbreaking advances in physical and mental healthcare. For further information about Kings' Health Partners, Kings College London and our research please see the following links:

Description of second training site

St. George's University Hospitals NHS Foundation Trust is one of the largest healthcare units in the United Kingdom accommodating around 1170 beds and treating around 89,000 inpatient and day cases, and over 448,000 outpatients annually. The Trust employs over 6,000 staff incorporating 1,100 Medical & Dental Staff. It provides general acute services together with specialty services including neurosciences, cardiothoracic, and specialist children's services.

St. George's University Hospitals NHS Foundation Trust is the main teaching hospital in the western sector of the South Thames, and as such has developed links with most district general hospitals throughout South Thames West, and supports a significant training programme for junior doctors who rotate through the Trust.

The Trust is on three sites, St George's Hospital, the base for acute general medicine and surgical services, Queen Mary's Hospital, Roehampton (QMR), and St John's Therapy Centre, Battersea, where therapy services and services for care of elderly patients are now based. The Trust serves a resident population of about 300,000 and serves two local Primary Care Trusts, Wandsworth and Sutton & Merton which have a total population of approximately 600,000 between them.

As well as acute hospital services, we provide a wide variety of specialist and community hospital based care and a full range of community services to children, adults, older people and people with learning disabilities. These services are provided from Queen Mary's Hospital, Roehampton, 11 health centres and clinics, schools and nurseries, patients' homes and Wandsworth Prison.

Further information about St Georges can be found at www.stgeorges.nhs.uk
