### Training Details

#### (Description of post)

This post is suitable for those who wish to further develop their practice in orthodontics and undertake training to consultant level. The post offers a broad experience of all aspects of orthodontics and provides an exciting opportunity to develop and enhance the services provided to the local community. Duties include both clinic and MDT meetings, with involvement in teaching and mentoring more junior staff.

The post holder is expected to treat a range of patients in accordance with departmental guidelines. The post holder will be encouraged to develop their clinical skills and progress in the post, taking on increasingly complex patients and caseload. Whilst service delivery is important, contributions to the wider Trust in fields such as audit, outcomes, research management and teaching will be encouraged.

## **Duties and Responsibilities of post-holder**

Management of a range of complex malocclusions specifically chosen as appropriate to additional specialist training, including those requiring interdisciplinary management.

Provide teaching and clinical training for undergraduates, postgraduates and career junior hospital staff.

participation in diagnostic clinics for the acceptance and review of patients and advising GPs on the treatment of their patients.

Support and development of skills of Orthodontic Therapists and other Dental Health Care Professionals.

Involvement in audit and journal club meetings and to foster a commitment to evidence-based practice.

Involvement in the managerial aspects of running an Orthodontic department.

There is potential for research leading to publications and other methods for the dissemination of knowledge.

### **Audit/Research**

The Trusts recognise the importance of advancing and disseminating knowledge of the biomedical sciences and the development and application of new and improved methods of treatment and patient care. The trainee will participate in education and training; clinical audit, clinical risk management and the clinical governance activities of the Department and the Trust to ensure full and proper records are completed for this purpose. The StR will be encouraged to take a department lead on research matters.

## Description of main training site

### University Hospitals Sussex (Brighton)

We provide care for 1.8 million patients, covering a geographical area of approximately 3,800km<sup>2</sup>. This includes all of Sussex for trauma; Brighton and Hove, Mid and East Sussex for cancer and neurosurgery; and district general acute services for Brighton and Hove, West and Mid Sussex, extending into East Sussex.

We operate across five main hospital sites:

- Princess Royal Hospital in Haywards Heath
- Royal Sussex County Hospital in Brighton
- St Richard's Hospital in Chichester
- Southlands Hospital in Shoreham-by-Sea
- Worthing Hospital in the centre of Worthing

NB: The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital.

In addition to our five hospital sites, we provide services from other locations including:

- Bexhill Haemodialysis Satellite Unit
- Bognor War Memorial Hospital
- Brighton General Hospital
- Crawley Hospital
- Hove Polyclinic
- Lewes Victoria Hospital
- Newhaven Ward
- The Park Centre for Breast Care
- Worthing Dialysis Satellite Unit
- Various Health Centres, GP surgeries and Sexual Health Clinics

Our four acute hospital sites in Brighton, Chichester, Haywards Heath and Worthing offer many of the same services for their local populations including acute medicine, general surgery, 24 hour A&E, maternity services, intensive care and orthopaedics. Paediatric and neonatal care is provided at Brighton, Chichester and Worthing.

The specialised and tertiary services provided at the Royal Sussex County Hospital in Brighton include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. It is also the major trauma centre for Sussex and the South East.

In Chichester, we operate a purpose-built NHS Treatment Centre on site which offers safe, fast, pre-booked day and short stay surgery and diagnostic procedures.

In Worthing, our Breast Care Centre is equipped with the latest digital diagnostic equipment, which enables the provision of a much-improved breast screening and symptomatic service to women in a warm and welcoming, purpose-built environment.

Southlands Hospital specialises in day-case procedures, ophthalmology care and outpatient appointments and services provided from Brighton General Hospital include dermatology, physiotherapy and outpatient appointments.

## OUR STRATEGIC THEMES

- Patient - Providing outstanding, compassionate care for our patients and their families, every time
- Quality - Excellent outcomes ensuring no patient comes to harm and no patient dies who should not have
- People - To be the employer of choice and have the most highly engaged staff within the NHS
- Sustainability - Living within our means providing high quality services through optimising the use of our resources
- Systems and Partnerships - Delivering timely, appropriate access to acute care as part of a wider integrated care system

**Description of second training site**
**Guy's and St. Thomas' NHS Foundation Trust**

The Trust consists of St Thomas' Hospital at Waterloo, including the Evelina Children's Hospital, and Guy's Hospital at London Bridge. We are also part of King's Health Partners (KHP), which comprises King's College London, Guy's and St Thomas' NHS Foundation Trust, King's College Hospital NHS Foundation Trust and South London and Maudsley NHS Foundation Trust. KHP is one of just five accredited UK Academic Health Sciences Centres (AHSCs). Through our AHSC, we are committed to making research and education integral to the delivery of high quality clinical care. Our hospitals have a long and proud history, dating back almost 900 years, and have been at the forefront of medical progress and innovation since they were founded. We continue to build on these traditions and have a reputation for clinical, teaching and research excellence.

We are part of King's Health Partners Academic Health Sciences Centre (AHSC), a pioneering collaboration between one of the world's leading research-led universities and three of London's most successful NHS Foundation Trusts. Our AHSC is one of only five in the UK and consists of King's College London and Guy's and St Thomas', King's College Hospital and South London and Maudsley NHS Foundation Trusts. For further information about Kings' Health Partners, Kings College London and our research please see the following links: <http://www.guysandstthomas.nhs.uk/research/research.aspx> and [www.biomedicalresearchcentre.org](http://www.biomedicalresearchcentre.org)

The Guy's Dental Hospital is the largest dental hospital in the UK. It forms part of the 'King's College London Faculty of Dentistry, Oral and Craniofacial Sciences at Guy's and St Thomas' Hospitals', the largest Dental Institute in Europe. The 2017 QS rankings rated the overall Dental Institute 1<sup>st</sup> in the UK, 1<sup>st</sup> in Europe and 1<sup>st</sup> in the world (2020). We seek to strengthen our position as an outstanding Academic Health Sciences Centre (AHSC) delivering clinical care, research, teaching and training. Further details of the Faculty of Dentistry, Oral and Craniofacial Sciences may be found on its website: <https://www.kcl.ac.uk/dentistry/index.aspx>

The Dental Hospital is forward-looking and dynamic with many state of the art facilities in which to undertake clinical care and pursue research. The immediate goal is to maintain our position as one of the world's leading centres for dental healthcare, education and research.

### **The Department of Orthodontics**

Since 2014 Orthodontic services are delivered from both the newly developed Dental Centre (Children's Dentistry & Orthodontics) at St Thomas' and the new Postgraduate Centre at Guy's. Cleft Lip and Palate Services are located at St Thomas' hospital in a purpose designed area.

Provision of orthodontic treatment is, apart from cleft services, located at Guy's Hospital. The main aim of the department is provision of a specialist service in orthodontics: We are the largest provider of level IIIa and IIIb treatments in the area. Services are delivered by consultants, Orthodontic therapists, Post CCT trainees and postgraduate students (national and international). A specialist service is provided for a wide range of patients, including children with learning difficulties or physical disability and inherited anomalies of the jaws and dentition. Referrals are accepted from general dental practitioners, general medical practitioners, Paediatricians and other medical and dental specialists.

We are committed to implementing paperless patient records, including 3D study models. We have used virtual models for over three years and have nearly completely abandoned the use of plaster models. The department offers temporary anchorage devices, lingual fixed appliances as well as aligner treatment where indicated.

GSTT are also hosting the academic department, which is engaged in education and clinical training of postgraduate dental students as well as the pursuit of research and scholarship.
