

The Paediatric Out Patient Skills (POPS) Course:

A practical course for Level 2 Paediatric SuppoRTT trainees returning to practice to refresh their techniques and make the most of their outpatient consultation skills in the post COVID environment. The POPS course run by experienced consultant paediatricians, will include **face to face, virtual, blended and multi-disciplinary consultation formats**. A clinic letter will be dictated and transcribed after each consultation and used for individualised feedback.
