Trainee Information System (TIS) Post Code (and local post number if known)	To be completed by NHSE
Placement details (i.e. the specialty and sub-specialty)	F1 General Surgery – Breast (Breast with General Surgery on-calls)
Department	The Oncoplastic Breast Unit provides a responsive diagnostic and treatment service. We aim to make the diagnosis at the first outpatient visit and provide seamless onward care. This service is achieved by a multidisciplinary approach between pathology, radiology, surgery, medical oncology and radiotherapy, including care throughout from specialist breast cancer nurses. This service is run by 6 Consultant Oncoplastic Surgeons (not all work full time). This post is split, broadly equally, between Breast and on call for General Surgery.
Type of work to expect and learning opportunities	FY1 doctors are an integral part of the team. They spend time on the ward based during the working week but are regularly asked to attend theatres sessions. Ward rounds are carried out daily and duties from these consist of taking bloods/IV cannulas/investigations /discharge planning and treating acutely sick patients. The general surgical department runs an enhanced recovery programme and junior doctors are encouraged to actively participate in the running of this programme. There is a weekly dedicated consultant teaching & management forum during this placement.
Where the placement is based	University College London Hospital
Clinical supervisor(s) for the placement	The Named Clinical Supervisor for this post will be allocated ahead of the start date from our pool of accredited Supervisors.
Main duties of the placement	FY1 doctors are responsible, along with the nursing staff, for the daily care of pre and post-operative in-patients. They are part of an on-call twilight rota which extends from 17:00 – 20:00 each weekday. This is designed to ensure outstanding ward jobs are completed before the night team shift starts. Weekend on call is also mandatory. There are 2 zero days following a weekend on-call. The placement includes General Surgery on-calls.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Mon: Ward Rounds/Clinics then Theatre Tues: Ward Rounds/MDT followed by PM – Action MDT Wed: Ward Rounds/clinics – Prepare notes for next op list Thurs: Ward Rounds/clinics then Theatre Fri: Ward Rounds/clinics then prepare MDT and

	<p>notes for next operation list on Monday Sat: Sun:</p> <p>Work Pattern: Days 0730 to 1700, 0730 to 1930 on Mondays and Thursdays. Placement details (i.e. the specialty and sub-specialty)	F1 Obstetrics & Gynaecology
Department	A busy obstetric unit with approximately 6000 deliveries each year, with a busy gynaecology unit including both acute and elective admissions and acute outpatient work. All the subspecialties, including maternal and fetal medicine, urogynaecology, gynaecological oncology and reproductive medicine, are represented in the clinical workload and expertise of the department with >20 consultants across all areas of obstetrics and gynaecology.
Type of work to expect and learning opportunities	During the obstetrics and gynaecology placement, the F1 doctor will be based mainly on the inpatient gynaecology ward and the inpatient maternity ward, implementing day to day management in conjunction with the multidisciplinary team. Provided there is sufficient ward cover, the F1 doctor can negotiate their rota so that up to 50% of the time they are covering labour ward, assisting in Gynae theatre, and assisting with elective C sections. Pre-allocated special interest sessions may be used to attend specialist clinics.
Where the placement is based	University College London Hospital
Clinical supervisor(s) for the placement	The Named Clinical Supervisor for this post will be allocated ahead of the start date from our pool of accredited Supervisors.
Main duties of the placement	When covering the wards, the F1 doctor is responsible together with the multidisciplinary team for the inpatient care of patients and the maintenance of the patient's medical record including admission and discharge summaries. When covering labour ward, they will attend the consultant ward round, provide care for the patients during labour and induction of labour, and assist in births and C-sections if interested. When attending gynae theatre lists, the F1 will join the consultant surgeon and registrar and scrub in as necessary. They are expected to attend the mandatory teaching and training programmes provided by the department.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Daily 0730 – 1700 Mon: Gynae ward cover (Consultant ward round followed by ward work together with an ST1-2 trainee) Tues: Gynae ward cover (Consultant ward round followed by ward work together with an ST1-2

	<p>trainee) Wed: Maternity inpatients ward cover (Consultant ward round followed by ward work together with an ST1-2 trainee) Thurs: Gynae Oncology theatre list (Assist the consultant and registrar in theatre) Fri: Labour ward (Consultant ward round followed by ward work as well as assisting with emergency and elective C sections as needed)</p> <p>On call requirements (subject to review): There is no on call requirement within the department but all FY1 doctors take part in twilight and weekend cover for General Surgery.) If they are interested, FY1 doctors can join the gynae on-call team from 0730 – 1700 providing this is agreed with the rota coordinator.</p> <p>SDT to be agreed individually as per Foundation Programme guidance.</p> <p>We provide monthly foundation teaching to all FDs on every second Wednesday of the month (date/time subject to change).</p>

Placement details (i.e. the specialty and sub-specialty)	F1 Rheumatology
Department	<p>The department Rheumatology at UCLH maintains a world class reputation for both its clinical and research departments. It values teaching and training with consistently high feedback from trainees and has an excellent track record for furthering clinical and research careers in rheumatology.</p> <p>The adult and adolescent rheumatology departments provide a general rheumatology and specialist service for patients with: - systemic lupus erythematosus and other autoimmune rheumatic diseases, inflammatory arthritis, osteoporosis; hypermobility and upper limb and chronic pain. There are also specialist clinics for patients being treated with biological (e.g. anti- TNF and rituximab) therapies. Along with three SpRs (ST3+) and an ST2 the F1 will look after around 5-10 adult and adolescent in-patients and become familiar with the management of a variety of rheumatologic diseases with multiple organ pathology as well as the use of anti-rheumatic drugs including immunomodulation. Consultant ward rounds take place daily providing opportunities to be taught about the clinical features of a variety of uncommon but serious diseases and new treatments used in their management. In addition, there is the opportunity to attend general and adolescent rheumatology clinics.</p> <p>There are weekly musculoskeletal radiology meetings, small group tutorials, rheumatology grand rounds with clinical and research presentations from national and international speakers. In addition there are regular audit and clinical governance meetings.</p>
Type of work to expect and learning opportunities	<p>F1 duties, Ward based</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues

Trust	University College London Hospitals NHS Foundation Trust (UCLH)
Site	University College London Hospitals
Trainee Information System (TIS) Post Code (and local post number if known)	To be completed by NHSE
Placement details (i.e. the specialty and sub-specialty)	F2 Medical Oncology
Department	F2s each assigned to one of the tumour specific firms (supported in each firm by the Ward SpR).
Type of work to expect and learning opportunities	<p>This post offers an FY2 trainee a good grounding in and exposure to the medical management of oncology patients. Specifically for training relevant to the general medical curriculum they will gain experience in the management of the acutely unwell patient, learn how to develop diagnostic and management plans, manage symptoms common to patients from several different specialties e.g. advanced pain/symptom control management and gain experience in a range of practical procedures. They will learn important transferrable skills, for example the importance of team working and working within a multi-disciplinary team. The role will facilitate development of good communication skills, both with patients and their families. They will be well supported by teams of SpRs and Consultants with both informal and formal teaching opportunities.</p> <p>The overall educational objectives are to provide the trainee with the knowledge, skills, and attitudes to be able to:</p> <ul style="list-style-type: none"> • Take a history and examine a patient at F2 level • Identify and synthesise diagnostic and management problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues within a multidisciplinary working environment • Use evidence, guidelines and audit to benefit patient care • Participate in audit and quality improvement projects • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems, and be supported in professional development in these areas • Educate patients effectively

	<ul style="list-style-type: none"> • Become life-long learners and teachers
Where the placement is based	University College London Hospital
Clinical supervisor(s) for the placement	The Named Clinical Supervisor for this post will be allocated ahead of the start date from our pool of accredited Supervisors.
Main duties of the placement	<ul style="list-style-type: none"> • Clerking patients and initiating their investigation and treatment with supervision • Ward cover for the Oncology wards • Ward rounds with registrars and consultants • Close working with the Acute Oncology Team • Effective liaison with the hospital multidisciplinary team, in particular the ward based multidisciplinary rehabilitation team, and primary care • Participation in department audit, quality improvement and clinical governance.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>The F2 placement is on a rota though the only out of hours work is alternate Thursday evenings 1700 to 2100. The rest of the time they should be doing ward work or attending oncology clinics.</p> <p>Teaching: Weekly teaching is available at the following times:</p> <ul style="list-style-type: none"> • Wednesday 0800-0900: SpR Led Journal Club • Wednesday 1300-1400: Weekly SHO Teaching • Thursday afternoon: Ad Hoc Oncology SHO Lead Teaching • Thursday 0800-0900: F2 and CMT Oncology teaching • Thursday 0800-0900 (last Thursday of the month): Cancer Division Audit Meeting <p>In addition, every month there is mandatory F1 teaching provided as a single 3 hour session one morning. This is protected time, and bleep free. Finally, junior doctors will be allocated reasonable number of outpatient clinics to learn about the outpatient management of cancer. There will be audit and service evaluation opportunities for all junior doctors based on their curriculum requirements and personal interest.</p> <p>Leave: Annual leave flexible and to be negotiated. Study leave is not available at F1 level, although it may be possible to make ad hoc provisions for attendances at conferences if the trainee is presenting an abstract or these can be demonstrated of high educational value.</p> <p>SDT to be agreed individually as per Foundation Programme guidance.</p> <p>We provide monthly foundation teaching to all FDs on every second Wednesday of the month (date/time subject to change).</p>

Trainee Information System (TIS) Post Code (and local post number if known)	To be completed by NHSE
Placement details (i.e. the specialty and sub-specialty)	F2 Obstetrics & Gynaecology
Department	A busy obstetric unit with approximately 6000 deliveries each year, with a busy gynaecology unit including both acute and elective admissions and acute outpatient work. All the subspecialties, including maternal and fetal medicine, urogynaecology, gynaecological oncology and reproductive medicine, are represented in the clinical workload and expertise of the department with >30 consultants across all areas of obstetrics and gynaecology.
Type of work to expect and learning opportunities	During the obstetrics and gynaecology placement, the F2 doctor works alongside ST1-2 trainees as part of a team of junior doctors with responsibilities for the daily care of inpatients both within gynaecology and maternity. Roles include seeing new referrals, clerking of new admissions and implementing day to day management in conjunction with and under the supervision of the wider multidisciplinary team. There are opportunities built in to the timetable to enable attendance at specialist clinics, gynaecology theatre, labour ward and the maternity inpatients ward in order to gain a breadth of clinical experience pertinent to the specialty in addition to fulfilling the core learning objectives of the Foundation Programme.
Where the placement is based	University College London Hospital
